Abstract: The Competition in Contracting Act (CICA) Title 7 of the Deficit Reduction Act 1984 becomes effective April 1, 1985. The Act makes changes to basic statutes underlying the Federal Acquisition Regulations (FAR). The FAR and also FEMA Acquisition Regulations have been amended to implement these major changes and corresponding requirements.

Unified Agenda of Federal Regulations

AGENCY: General Services Administration.

ACTION: Semiannual agenda.

SUMMARY: This agenda announces the proposed regulatory actions that GSA

plans for the next 12 months and those actions that were completed since October 1984. This agenda was developed under the guidelines in OMB Bulletin No. 85-6, dated December 13, 1984. GSA's purpose in publishing this agenda is to allow interested persons an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT:

William W. Hiebert, Chief, Directives and Reports Management Branch (202) 535-7647.

SUPPLEMENTARY INFORMATION: GSA has five priority regulations designated by

the Agency. These regulations are listed under the category of current and projected rulemakings. Two regulations will have an effect on small businesses or other entities. These are listed under completed rulemakings. None of the regulations listed are considered major under Executive Order 12291, Federal Regulations.

OFFICE OF THE COMPTROLLER 18. REVISION OF U.S. GOVERNMENT BILL OF LADING STANDARD FORMS

Legal Authority: 40 USC 486(c); 31 USC 3726

CFR Citation: 41 CFR 101-41

Abstract: This amendment prescribes the use of revised SF 1103, U.S. Government Bill of Lading (GBL); SF 1109, U.S. GBL Continuation Sheet, and SF 1131, U.S. Government Transit Bill of Lading. These revisions will make these transportation documents more efficient and more responsive to data information systems. To accomplish the provisions of this directive, there will be an outlay of resources by GSA to print the forms but this expenditure will be offset by income derived from purchases of these forms by other Federal agencies. The amendment will have no impact on the public.

Legal Authority: 31 USC 3726; 40 USC 486(c)

CFR Citation: 41 CFR 101-41

Abstract: The Department of Defense will use travel warrants to obtain transportation for selected Military Reservists and Retirees who are ordered to active duty. Implementation of the travel warrant program will provide a simple and efficient system to procure transportation and pay for services furnished, and will impose no additional burden on the Government or the public since the warrant will be used instead of GTR's.

Legal Authority: 31 USC 3701 to 3711; 31 USC 3726; 40 USC 486(c)

CFR Citation: 41 CFR 101-41

Abstract: This rule will enable
Government agencies to collect by
administrative offset when carriers fail
to make refunds for totally unused
passenger tickets in accordance with 41
CFR 101-41.210. It will also permit
agencies to assess interest and
penalties on delinquent refunds due the
Government for totally unused tickets.
It will further improve the efficiency of
Government-wide efforts to collect
debts owed the U.S. as prescribed by
applicable Federal regulations.

23. CHANGE IN FORMS SEQUENCE; SF 1103 SET, U.S. GOVERNMENT BILL OF LADING

Legal Authority: 31 USC 3726; 40 USC 486(c)

CFR Citation: 41 CFR 101-41

Abstract: This rule proposes to change the sequence of the Standard Form 1103, set U.S. Government Bill of Lading, by positioning one copy of SF 1103-A, Memorandum Copy, as the third form in the set and the remaining SF 1103-A's to be positioned following the SF 1103-B. The purpose of this change is to provide a clearer copy for those agencies that transfer this document to microfilm and to provide a more legible copy for fiscal or administrative use.

24. FEDERAL PROPERTY MANAGEMENT REGULATIONS; REVISES THE REPORTING REQUIREMENTS FOR REAL PROPERTY

Legal Authority: EO 12411 CFR Citation: 41 CFR 101-3

Abstract: This regulation revises FPMR 101-3 with changes and additions to the data elements currently collected as part of the World-Wide Real Property Inventory System. It also displays the revised forms to be used when supplying this information. These changes are necessary to monitor government-wide space reduction initiatives mandated by Executive Order 12411 - Government Work Space Management Reforms and Temporary Regulation D-70-Work Space Management Plans.

The General Services Administration has determined this is not a major rule for the purposes of Executive Order 12291 of February 17, 1981, because it is not likely to result in an annual effect on the economy of \$100 million or more; a major increase in costs to consumers or others; or significant adverse effects. Therefore, a Regulatory Impact Analysis has not been prepared. GSA has based all administrative decisions underlying this rule on adequate information concerning the need for, and the consequence of this rule; has

determined that the potential benefits to society from this rule outweigh the potential (cont)

25. AMEND TERMS AND CONDITIONS SECTION OF STANDARD FORM 1103, U.S. GOVERNMENT BILL OF LADING-ORIGINAL

Legal Authority: 40 USC 486(c); 31 USC 3726

CFR Citation: 41 CFR 101-41

Abstract: This proposed amendment will add a provision to the "Terms and Conditions" section of SF 1103, U.S. GBL-Original, advising users that interest will be assessed on overcharges issued by GSA's Office of Transportation Audits. Due to the passage of a law that permits the Government to collect interest on debts owed to the U.S., steps are being taken to include such a provision in the FPMR's. This provision added to the GBL will serve as a notice to carriers of the Government's intent.

26. COLLECTION OF CLAIMS OWED THE UNITED STATES

Legal Authority: PL 97-365, Sec 10 CFR Citation: 41 CFR 105-55, (New) Abstract: The regulations will implement the Debt Collection Act of 1982 within the General Services Administration. The regulations are required by Section 10 of the Act and by means of these regulations GSA will be better equipped to pursue claims owed to the Government arising out of GSA activities. Although the benefit will be improved claims collections, there is no way to precisely quantify the costs or benefits at this time.

Abstract: This rule updates GSA's policies and procedures concerning the Federal surplus personal property donation program. It would: (1) prescribe new and revised definitions; (2) implement Title IX of the Education Amendments of 1972; (3) change procedures for donating aircraft, drugs. biologicals, and reagents; (4) clarify cannibalization procedures; (5) add additional terms to the State agency distribution documents; (6) clarify that conditional title, not unrestricted title. passes to a donee at the time it takes possession of the property; (7) prohibit reimbursement to State agencies for certain sales expenses; (8) change reporting requirements; (9) establish an informal appeals procedure; and (10) revise eligibility criteria for educational activities. This amendment is necessary to comply with the provisions of Title IX of the Education Amendments of 1972, section 502(a) of Public Law 94-241, and the Congressional Reports Elimination Act of 1980 (Public Law 96-470). 56. PERFORMANCE VALIDATION OF ADP SYSTEMS, PROJECT 84.80A

Legal Authority: 40 USC 486(c)

CFR Citation: 41 CFR 201-2; 41 CFR 201-24; 41 CFR 201-30

Abstract: Benchmarks are costly and difficult to use in the ADP acquisition selection process. In September 1982 GSA contracted with FEDSIM for a technical study of benchmarking and alternative performance evaluation techniques. Completed in May 1984 the study concluded that in some circumstances more cost-effective alternative performance validation techniques are indicated and recommended a revision to Federal regulations to discourage the use of benchmarking as a performance validation tool for low dollar ADP acquisitions. GSA plans to amend the FIRMR to allow agencies more freedom in selecting and using appropriate capability and performance validation techniques based on an assessment of the inherent risks of the technique and how those risks impact agency mission.

Additional Information: This project was originally titled "Benchmarking in the Selection of Automatic Data Processing." The objective was to raise the dollar threshold and develop criteria for benchmark use. The project was retitled "Performance Validation of ADPE Systems" when GSA review of the FEDSIM study indicated that selection and use of any performance validation technique (including benchmarking) should primarily be a function of the risks associated with the technique and the impact on agency mission and not just a function of the dollar value of the acquisition.

57. REVISION OF ACQUISITION AND MANAGEMENT PROVISIONS REGARDING THE CHANGING TELECOMMUNICATION MARKETPLACE, INCLUDING THE DETARIFFING OF CUSTOMER PREMISES EQUIPMENT (84.06A)

Legal Authority: 40 USC 486(c) CFR Citation: 41 CFR 201-37 Abstract: This project revises FIRMR Provisions relating to Federal Telecommunications acquisition and management. It will include changes brought about by the Federal Communications Commission Computer II inquiry and the divestiture of AT&T. This regulation will provide an overview of GSA regulations and policies impacting Government-wide telecommunication management and will specifically address the need for requirements definition and analysis for local and intercity service. It will revise "major change" requirements and state what GSA needs from agencies if GSA is expected to provide services or if GSA is reviewing service for individual agency acquisitions. All obsolete provisions will be eliminated.

Legal Authority: 40 USC 486(c) CFR Citation: 41 CFR 201-19

Abstract: This proposed FIRMR temporary regulation will establish the Federal Information Resources
Management (IRM) Review Program. It will prescribe the policies and procedures that Federal agencies and the General Services Administration will follow in carrying out the review responsibilities of the Paperwork Reduction Act (44 U.S.C. 3513). The review program's purpose is to ensure that Federal agencies are carrying out their information management activities in an efficient, effective, and economical manner.

Legal Authority: 40 USC 486(c)

CFR Citation: 41 CFR 201-22; 41 CFR 201-45

Abstract: This regulation incorporates some of the records management provisions of FPMR 101-11 into FIRMR Subparts 201-22, Records Management Programs, and 201-45, Management of Records. It consists of those provisions for which GSA will retain responsibility under Public Law 98-497, effective April 1, 1985. In addition to reflecting the division of responsibilities between NARA and GSA, it is intended to reformat the material into the FIRMR numbering system. The final regulation will only contain substantive changes

regarding forms management, Standard and Optional forms, and interagency reports management. However, these changes will be based on proposed regulations that were previously circulated for public comments.

Legal Authority: Title VI of the Civil Rights Act of 1964; Section 504 of the Rehabilitation Act of 1973; Title IX of the Education Amendments of 1972, as amended; Sec 606 of the Fed Property & Admin Service Act of 1949; Age Discrimination Act of 1975, as amended

CFR Citation: 41 CFR 101-8

Abstract: The General Services Administration proposes this regulation to implement all of the above cited Federal laws. These statutes prohibit discrimination, in whole or in part, so that no person in the United States shall on the grounds of race, color, national origin, handicap, sex, or age be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program or activity receiving Federal assistance from the General Services Administration. In addition, the objectives of the regulation are to streamline certain administrative procedural requirements by consolidating prohibitions of discrimination into one regulation and to make requirements clear and convenient for applicants and recipients to comply with, as well as making the regulation manageable for GSA to administer. This approach permits us to retain the substance of the prohibitions against discrimination, while reducing the cost of implementing and enforcing separate regulations for each of the four

distinct laws for preventing discrimination.

Abstract: This regulation provides procedures for the development and maintenance of planning information and reporting systems to ensure the efficient utilization of Federal work space and related furnishings. It implements E.O. 12411 and merges FPMR Temporary Regulation D-68, which pertained to space assignment and Utilization of GSA-Controlled Space, with FPMR Temporary Regulation D-70, which pertained to all Federal work space.

The regulation vests major responsibility for the achievement of efficient utilization of space with the Heads of Agencies. GSA's major roles include receiving the streamlined and simplified space inventory reports and establishing objectives for work space use for each agency.

Through the achievement of more efficient work space utilization the administrative costs of the Federal Government will be reduced.

22 CFR Ch. II

Federal Regulations; Agency Regulatory Agenda Semiannual Summary

AGENCY: Agency for International Development, IDCA.

ACTION: Agency regulations agenda.

SUMMARY: The Agency for International Development (A.I.D.) is publishing this Agenda as required by section 5(a) of Executive Order 12291, Federal
Regulation (46 FR 13193, February 19,
1981) and by the Regulatory Flexibility
Act (Pub. L. 96-354, September 30, 1980).
This agenda reports the status of those
regulations currently under review and
gives A.I.D.'s plan for the issuance of
proposed regulations during the next
twelve months. It is expected that the
information provided in this agenda will
enable the public to be more aware of
and more effectively participate in
A.I.D.'s rulemaking process.

FOR FURTHER INFORMATION CONTACT:

General: For further information on the agenda or the review list, in general, contact: Mr. Fred D. Allen, Office of Information Resources Management.

Agency for International Development, Washington, D.C. 20523, Telephone (202) 632-3378.

Specific: For further information about any particular item on the agenda, contact the individual listed as the contact for that item.

Regulatory Flexibility Act (RFA): The Agency does not have any rulemaking activity that falls within the requirements of RFA and does not anticipate any during the next reporting period.

R. T. Rollis, Jr.,

Assistant to the Administrator for Management.

NONDISCRIMINATION ON THE BASIS OF SEX IN EDUCATION PROGRAMS AND ACTIVITIES RECEIVING OR BENEFITTING FROM FEDERAL FINANCIAL ASSISTANCE

Legal Authority: 20 USC 1681 to 1683; 20 USC 1686

CFR Citation: 22 CFR 219, (New)

Abstract: This regulation will address the problem of discrimination on the basis of sex in education programs and activities receiving or benefitting from financial assistance from the Agency for International Development. The regulation is intended to implement title IX of the Education Amendments of 1972, as amended. The regulation provides procedures for 1) assuring that such discrimination does not occur and 2) effecting compliance. The Agency is not considering any alternatives for addressing the problem. There will be some minor costs in administering the regulation; there are potential benefits to individuals who might otherwise be discriminated against.

DONATION OF DAIRY PRODUCTS TO ASSIST NEEDY PERSONS OVERSEAS (416 PROGRAM)

Priority: Agency Determination

Legal Authority: 7 USC 1431; PL 97-253, Sec 110

CFR Citation: 22 CFR 210, (New)

Abstract: This regulation sets forth provisions of the Agency for International Development (A.I.D.), acting as an Agent for the USDA/Commodity Credit Corporation (CCC), to carry out part of the responsibilities for selecting, approving, administering and implementing the Section 416 program of the Agricultural Act of 1949, as amended. This program will assist needy persons overseas and reduce surplus stocks of dairy products in CCC inventory. The donation of commodities under this new authority will be coordinated with, but not replace, assistance provided under the Agricultural Trade Development and Assistance Act of 1954, as amended,

National Archives and Records Administration

NARA

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

36 CFR Ch. XII

Unified Agenda of Federal Regulations

AGENCY: National Archives and Records Administration.

ACTION: Semiannual agenda.

SUMMARY: This agenda announces the proposed regulatory actions that the National Archives and Records Administration (NARA) plans for the next 12 months and those actions that have been completed since October

1984. This agenda was developed under the guidelines in OMB Bulletin No. 85-6. dated December 13, 1984. NARA's purpose in publishing this agenda is to allow interested persons an opportunity to have more comprehensive documentation of NARA's regulatory plans and to provide a systematic means of monitoring regulatory activity in NARA.

FOR FURTHER INFORMATION CONTACT: John A. Kelley, Chief, Information Management and Directives Branch, (202) 523-3214.

SUPPLEMENTARY INFORMATION: On April 1, 1985, the National Archives and Records Administration (formerly the National Archives and Records Service of the General Services Administration, NARS/GSA) was established as an independent agency by Pub. L. 98-497. Previously, NARS/GSA regulations were published as part of the regulatory agenda of the General Services Administration and were contained in 41 CFR Chapters 101 and 105. NARA regulations are now being revised and reissued in a new Chapter XII of Title 36 of the CFR. None of the regulations listed in the agenda are considered major under Executive Order 12291, Federal Regulations.

Robert M. Warner.

Archivist of the United States.

1. @ RECORDS MANAGEMENT

Legal Authority: 44 USC 2104(a) as added by Sec. 102 of PL 98-497

CFR Citation: 41 CFR 101-11; 36 CFR Chapter XII

Abstract: This regulation will revise existing records management regulations involving records disposition and adequacy of documentation and recodify them at 36 CFR Chapter XII. This recodification is due to the transfer of functions of the National Archives and Records Service of GSA to a new independent agency in the Executive Branch, the National Archives and Records Administration.

Legal Authority: 41 USC 2104(a) as added by Sec. 102 of PL 98-497

CFR Citation: 41 CFR 101; 41 CFR 105; 36 CFR Chapter XII

Abstract: The National Archives and Records Service (NARS) became an independent agency, the National Archives and Records Administration (NARA), on April 1, 1985. This regulation will establish a new Chapter XII in Title 36, CFR, for NARA regulations. This regulation will also move to this chapter existing NARS regulations relating to disposition of Federal records (currently found at 41 CFR 101-11.4); National Historical Publications and Records Commission programs (currently found at 41 CFR

NARA

105-65); and public use of records, donated historical materials, and facilities (currently found at 41 CFR 105-61). There will be no substantive change in these regulations which are being moved to Title 36 from Title 41. Other NARA regulatory actions included in this Agenda will transfer and revise other records management regulatory material from Title 41 to Title 36, and establish NARA regulations pertaining to Standards of Conduct, Privacy Act, Freedom of Information Act, and related general regulations.

Legal Authority: 44 USC 2104(a) as added by Sec. 102 of PL 98-497; 44 USC 2901 to 2909; 40 USC 486(c)

CFR Citation: 41 CFR 101-11.202; 36 CFR Chapter XII

Abstract: The head of each Federal agency is required to make and preserve records containing adequate and proper documentation of the organization, functions, policies, decisions, procedures, and essential transactions of the agency. The introduction of modern technology into Federal records systems presents problems in meeting this requirement because of the erasable storage media and complex storage formats. The Administrator of General Services is required to provide guidance and standards to agencies and has delegated the responsibility to the

Archivist of the United States. Thus the National Archives and Records Service is reviewing the regulations regarding proper and adequate documentation to determine if they are sufficient to insure proper retention and retrievability of the information until its authorized disposition under an approved records control schedule. If this review determines agencies need different or new guidance, consideration is being given to providing such information through the FPMR Bulletin Structure.

CFR Citation: 45 CFR 620, (New)

Abstract: This regulation is to effectuate Title IX of the Education Amendments of 1972, as amended, which prohibits discrimination on the basis of sex in connection with education programs and activities receiving Federal financial assistance from the National Science Foundation. Costs, if any, should be nominal since most NSF recipients are also covered by HHS regulations. Potential benefits are to ensure that any educational program or activity receiving financial assistance from NSF does not, on the basis of sex (1) exclude any person from participation in, (2) deny any person the benefits of, or subject any

such person to discrimination under that program or activity.

CFR Citation: 45 CFR 650

Abstract: The Bayh-Dole Act (34 USC 200 et seq) was recently amended by title V of PL 98-620 (98 Stat. 3364, 3368). The Department of Commerce is preparing a Government-wide implementing regulation. When that regulation is completed, the Foundation's Patents regulation (45 CFR 650) will be conformed to it. Because the revision to the NSF Patents regulation will merely echo a Government-wide regulation on which the public will have had no opportunity to comment, the Foundation expects

Federal Regulations; OMB Directives included in the Semiannual Agenda of Upcoming Activities

AGENCY: Office of Management and Budget.

ACTION: Publication of semiannual agenda.

summany: The Office of Management and Budget (OMB) is publishing its semiannual agenda of upcoming activities on OMB Circulars and Office of Federal Procurement Policy Letters (OFPP Policy Letters). This action is in accordance with OMB's internal procedures for implementing Executive Order No. 12291. OMB directives are issued under authority derived from several sources including: Subtitles I, II, and V of Title 31, United States Code, Executive Order No. 11541, and other specific authority as cited. The agenda includes actions on issuances which are not regulations, but which are of public interest.

OMB Circulars and OFPP Policy Letters are directives that communicate significant government-wide policy of a continuing nature. For purposes of this agenda, we have included Circulars and Policy Letters which are designed to implement, interpret, or prescribe law or policy, or describe the procedure or practice requirements of an agency. Excluded are directives that outline procedures to be followed in connection with the President's budget and legislative programs, and directives that affect only the internal functions, management, or personnel of Federal agencies.

CFR Citation: Not applicable

Abstract: In accordance with statutory requirements, the Office of Management and Budget has issued a number of policies regarding the management of Federal information resources such as computers and personal records. Implementation of the Paperwork Reduction Act, 44 USC 35, requires that the policies be brought up-to-date. integrated and made uniform. The Assistant Secretaries for Management group made a similar recommendation. The objective of this initiative is to develop a government-wide policy structure that will provide positive incentives for the efficient and effective management of Federal information resources.

Regulatory Agenda

AGENCY: Office of Personnel Management.

ACTION: Semiannual agenda of regulations.

SUMMARY: The following Office of Personnel Management regulations are scheduled for review or development from April 1, 1985 through March 31, 1986. This agenda carries out OPM's responsibilities to publish a semiannual agenda under E.O. 12291, Federal Regulation, and the Regulatory Flexibility Act (5 U.S.C. chapter 6). This publication in the Federal Register does not impose a binding obligation on the

Office of Personnel Management with regard to any specific item on the agenda. Regulatory action in addition to the items listed is not precluded.

Abstract: The Privacy Act (5 U.S.C. 552a) requires agencies to issue regulations to implement the Act. OPM's regulations also require that agencies follow OPM's rule for those records maintained by them that are under OPM's control. These regulations have remained unchanged since 1979 and, as OPM intends to issue FPM guidance on matters currently nappropriate for issuance in the regulations, need revision both to reflect any changes resulting from case law or in OPM policy and to remove material that is more appropriate for FPM issuance.

Abstract: Clarification of the policy and appeal procedures used in developing and implementing employment practices in the recruitment, measurement and selection of individuals for appointments and promotion within the competitive service. The proposed amendments would remove a non-statutory appeal procedure which was created to provide a simple, streamlined administrative review procedure but which has, instead, become a timeconsuming, convoluted process. Additionally, the proposed changes would avoid a duplicative enforcement procedure currently subject to review by OPM and MSPB, which is, more properly, within the sole jurisdiction of the EEOC.

REMOVAL FROM THE SENIOR EXECUTIVE SERVICE; GUARANTEED PLACEMENT IN OTHER PERSONNEL SYSTEMS

Priority: Agency Determination

Legal Authority: 5 USC 3595; 5 USC 3596

CFR Citation: 5 CFR 359

Abstract: Interim regulations to add a new subpart to implement Pub. L. 97-35, August 13, 1981, as amended by Pub.L. 97-346, October 15, 1982, and Pub. L. 98-615, November 8, 1984, which added provisions to Title 5 to govern SES reduction-in-force actions affecting career executives. Regulations are needed to cover certain areas not in the law, such as notification to employees and retention of records, and to implement the provisions in the law dealing with OPM's responsibility to help place career executives identified for reduction in force and with "fallback" rights following a RIF.

PAY UNDER THE GENERAL SCHEDULE; DETERMINING RATE OF BASIC PAY

Priority: Agency Determination

Legal Authority: |5 USC 5305(a); |5 USC 5334(a); |5 USC 5338; EO 11721

CFR Citation: 5 CFR 531, Subpart B

Abstract: Under current regulations, agencies may use an employee's highest previous rate as a Federal employee, updated to account for intervening pay adjustments, as the basis for paying a higher rate than otherwise would be required by law or regulation upon promotion, demotion, reassignment, transfer, or reemployment -- without regard to the recency of the employee's previous Federal work experience. Proposed regulations would limit the use of an employee's highest previous rate by establishing a reasonable relationship between the recency of an employee's previous work experience and the current employment situation. In addition, proposed regulations would revise the current regulations to conform to the principles of the Performance Based Incentive System and correct certain longstanding basic pay administration problems. Revision may also include technical and conforming changes in 5 CFR Parts 530 and 536.

Priority: Agency Determination

Legal Authority: 5 USC 5334(a); 5 USC 5338; 5 USC 5365

CFR Citation: 5 CFR 531; 5 CFR 536

Abstract: Under current regulations, numerous pay administration problems exist in movements between Federal pay systems. For example, the method of determining entitlement to grade retention in movements between pay systems results in unnecessary expenditures of Federal funds and false expectations for affected employees. Proposed regulations would revise definitions of "promotion" and "demotion" to improve pay administration and minimize the number of employees entitled to grade retention in movements between pay systems. Revisions may also include technical and conforming changes in 5 CFR Parts 210, 351, and 532.

PAY UNDER THE GENERAL SCHEDULE; PAY ADJUSTMENTS FOR SUPERVISORS

Priority: Agency Determination

Legal Authority: 5 USC 5333(b)

CFR Citation: 5 CFR 531, Subpart C

Abstract: Under current regulations, General Schedule supervisors of wage employees may receive an adjustment in basic pay to exceed the rate paid wage employees under their supervision. This adjustment, however, is permanent. No reduction is permitted even if the conditions prompting the adjustment no longer exist. Proposed regulations would require a downward adjustment when conditions no longer warrant a higher rate, as suggested by the Comptroller General in a 1976 decision.

PAY ADMINISTRATION, ADJUSTMENT OF WORK SCHEDULES FOR RELIGIOUS OBSERVANCES

Priority: Agency Determination Legal Authority: 5 USC 5550a CFR Citation: 5 CFR 550, Subpart J

Abstract: Under current law, Federal employees may request adjustment of work schedules if personal religious beliefs require abstention from work. The interim regulations published in 1978 are too broad and do not provide agencies with the authority and guidance necessary for proper administration of the law. Final regulations will (1) define key terms in the law, (2) establish administrative procedures for processing employee requests and for adjusting employee work schedules, and (3) provide administrative procedures for the proper payment and/or crediting of compensatory overtime work and compensatory time off for religious observances.

PAY ADMINISTRATION (GENERAL); SEVERANCE PAY

Priority: Agency Determination

Legal Authority: 5 USC 5595; EO 11228

CFR Citation: 5 CFR 550, Subpart G

Abstract: Under current regulations, the Federal Government spends too much on severance pay because of (1) lax controls over contractors in contractingout situations, (2) a difference in eligibility requirements for discontinued service retirement and severance pay. and (3) a loophole that allows individuals to collect both severance pay and pay from a contractor if they go to work with the contractor more than 90 days after separation from Federal employment. Final regulations would place reporting requirements on Federal agencies in contracting-out situations, make the discontinued service retirement and severance pay eligibility requirements parallel, and terminate severance pay for those who accept contract employment within 52 weeks of separation.

CFR Citation: 5 CFR 630, Subparts A to E

Abstract: Revision of annual and sick leave regulations is necessary to update, improve, and refine the current regulations to ensure appropriate and consistent application of leave administration policies within all Federal agencies. Proposed rules would (1) add new rules to improve leave administration, (2) revise the current rules for clarification and consistency. and (3) reorganize the sections with the subparts in a more logical sequence. These and other changes, such as regulating a consistent and equitable method of liquidating leave indebtedness and revising the requirement to forgive leave indebtedness, would resolve some troublesome leave issues, improve leave administration, and result in cost savings.

ORETIREMENT; DEFINITIONS

Priority: Agency Determination

Legal Authority: 5 USC 8347(a)

CFR Citation: 5 CFR 831, Subpart A

Abstract: Many of the definitions used in administering civil service retirement programs are drawn from different sources (i.e., various laws, court decisions, and Comptroller General decisions). There is no comprehensive list of definitions of retirement terms to which OPM can refer agencies and employees. Publication of a general definitions section would simplify administration of the retirement program by providing a list of definitions to which agencies and employees can refer for accurate and complete information on retirementrelated terms.

Semiannual Regulatory Agenda

PANAMA

PANAMA CANAL COMMISSION

35 CFR Ch. I

Unified Agenda of Federal Regulations

AGENCY: Panama Canal Commission.

ACTION: Publication of semiannual agenda of regulations.

SUMMARY: The purpose of this agenda is to report the proposed rulemaking activities of the Panama Canal Commission. This information will allow the public to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT:

For information about a particular regulatory project, contact the person listed in the subheading "Agency Contact" for that project. For general information, contact Michael Rhode, Jr., Secretary, Panama Canal Commission, Suite 312, Pennsylvania Building, 425 13th Street, N.W., Washington, D.C. 20004, (202) 724-0104; or John L. Haines, Jr., Esquire, General Counsel, Panama Canal Commission, APO Miami 34011.

SUPPLEMENTARY INFORMATION:

Executive Order 12291, Federal Regulation, and the Regulatory Flexibility Act, 5 U.S.C. 601, et seq. require that executive agencies publish in the Federal Register a semiannual notice of regulations which are under development or review or for which action has been completed. The Panama Canal Commission agenda contains certain regulations which are limited in public impact, but they are included to increase public awareness of Commission activities and to allow for increased public participation in the agency's regulatory review and development process. This agenda was prepared under the guidelines established by OMB Bulletin No. 85-6.

DATED: February 15, 1985. Michael Rhode, Jr.,

Secretary, Panama Canal Commission.

DANGEROUS CARGO

Legal Authority: 22 USC 3811 Panama Canal Act of 1979

CFR Citation: 35 CFR 113, (Revision); 35 CFR 101, (Revision); 35 CFR 103, (Revision); 35 CFR 107, (Revision); 35 CFR 107, (Revision); 35 CFR 111.23, (Revision)

Abstract: Many of the International Maritime Conventions concerning hazardous cargoes, tank ships, gas carriers, training and other maritime matters have been adopted by the United States and other maritime nations using the Panama Canal. New hazardous cargoes are being added to the trade. The existing regulations should be revised. Revisions would substitute the provisions of certain international conventions. Using international standards would improve safety through ease of compliance and enforcement.

Priority: Agency Determination

Legal Authority: 5 USC 5514; PL 97-365 Debt Collection Act 1982, 96 Stat.1751, Oct. 25, 1982

CFR Citation: 35 CFR 256, (New)

Abstract: The Debt Collection Act of 1982 authorizes the Federal Government to collect debts owed to it by its own current and retired military and civilian employees through the use of a salary offset. The Act requires each Federal agency to promulgate regulations to effect this collection. This regulation contains the requisite safeguards, including the right to a hearing, to insure that employees are protected from unwarranted seizure of their property.

RULES FOR MEASUREMENT OF VESSELS

Legal Authority: 22 USC 3791 Panama Canal Act of 1979

CFR Citation: 35 CFR 135

Abstract: In July 1982 forty-eight nations, representing more than eighty percent of world shipping, began implementing a new, uniform method for tonnage determination in accordance with the International Convention on Tonnage Measurement of Ships, 1969. The present Panama Canal measurement system is based upon the old national tonnage measurement systems. To continue the present Panama Canal System may require that new ships be measured twice, once under the new system and again under the now out-dated national system. No timetable for rulemaking has been established. This proposal is still under study by the Panama Canal Commission. If the Commission Board of Directors approves a proposed plan, the Commission will pursue a change in the measurement system before April 1986. Actual implementation of the new system would be subsequent to that time.

PEACE CORPS

22 CFR Ch. III

Executive Order 12291, Federal Regulations, Semiannual Agenda of Regulations

AGENCY: Peace Corps.

ACTION: Publication of semiannual agenda.

summary: This agenda announces the regulations that Peace Corps will have under development during the 12 month period from April 1, 1985 through March 31, 1986. The purpose for publishing this agenda is to give notice of any regulatory activity by the Agency in

order to allow the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT:

The public is encouraged to contact the Agency official listed for the particular agenda item. For other information concerning Peace Corps regulations or this semiannual agenda contact Robert Martin, Associate General Counsel, Peace Corps, 806 Connecticut Avenue, N.W., Washington, D.C. 20526, (202) 254-3114.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291, Federal Regulation, and the Regulatory Flexibility Act (5 U.S.C. 605) executive agencies are required to publish in the Federal Register semiannual regulatory

agendas in April and October of each year.

The regulations being considered by Peace Corps are not "major" rules within the meaning of E.O. 12291 and no Regulatory Impact Analysis is required. Peace Corps has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public; and that the regulations will not have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Analysis is required under 5 U.S.C. 602.

RESTRICTIONS ON THE PLACEMENT AND MAINTENANCE OF NEWSPAPER VENDING MACHINES

Priority: Agency Determination
Legal Authority: 40 USC 875(5)

CFR Citation: 36 CFR 911

Abstract: The Pennsylvania Avenue Development Corporation (PADC) is responsible for rejuvenating Pennsylvania Avenue into an attractive and pleasant physical setting which offers comfortable places for residents and visitors to stroll, rest, sit and talk, eat, and shop. The PADC recognizes the value of allowing access to the Pennsylvania Avenue Development area for the sale and distribution of publications. However, the unregulated use of newspaper vending machines presents inconvenience and safety hazards, constituting a public nuisance as well as being unsightly. The proposed regulations are designed to eliminate these problems by imposing reasonable time, place, and manner restrictions on the use of newspaper vending machines.

Pension Benefit Guaranty Corporation

Semiannual Regulatory Agenda

PBGC

PENSION BENEFIT GUARANTY CORPORATION

29 CFR Ch. XXVI

Agenda of Regulations Under Development

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Agenda of regulations.

SUMMARY: This document sets forth the Pension Benefit Guaranty Corporation's regulatory agenda issued under Executive Order 12291 and the Regulatory Flexibility Act. The agenda lists regulations that are currently under development or that PBGC expects to have under development during the next twelve months and regulations that are currently under review for possible amendment. The effect of this agenda is to advise the public of PBGC's current and future regulatory activities.

ADDRESS: Corporate Policy and Regulations Department (611), Pension Benefit Guaranty Corporation, 2020 K Street, N.W., Washington, D.C. 20006.

FOR FURTHER INFORMATION CONTACT: For further information on the agenda in general, contact Renae R. Hubbard, Special Counsel, Corporate Policy and Regulations Department, 202-254-6476. For information about a specific regulation project listed on the agenda, contact the person designated in the agenda for that regulation.

SUPPLEMENTARY INFORMATION: Under the President's Order on Federal Regulation, Executive Order 12291, 46 FR 13193, each agency is required to publish in April and October an agenda of regulations currently or soon to be under development. The Executive Order requires that the agenda also include those currently effective regulations that are being reviewed by the agency pursuant to the Executive Order. The Regulatory Flexibility Act, 5 U.S.C. 601, Pub. L. 96-354, 94 Stat. 1164, has a similar agenda requirement. Under that law, the agenda must list any regulation that is likely to have a significant economic impact on a substantial number of small entities.

The Office of Management and Budget has issued guidelines (OMB Bulletin No. 85-6) prescribing the form and content of the regulatory agenda. Under those guidelines, the agenda must list all regulatory activities being conducted or reviewed in the next twelve months and provide certain specified information on each regulation. Most of the items on this agenda are current or projected rulemakings. Three items are existing regulations that PBGC has under review pursuant to the Executive Order.

The guidelines also require that "priority regulations" be identified. Priority regulations are those designated for priority development and review by the agency head or those that are "major rules" under the Executive Order. PBGC has determined that all the regulatory activities listed in this agenda are necessary to the effective implementation of the insurance

program and, therefore, each is considered a "priority regulation."

Finally, the guidelines require a description of the potential costs and benefits of each regulation. The regulations listed on the agenda fall into three general categories. Some lessen statutory requirements, thereby lowering costs to the public and minimizing burden on plans and plan sponsors. Others simply implement statutory requirements and, although costs may be imposed because of these statutory requirements, the public is benefited by clear and unambiguous rules that lessen the probability of disputes, litigation and public confusion. Others of the regulations in the agenda reallocate costs necessarily imposed by the statute so that, although certain contributing employers may experience greater costs, others will experience an equivalent reduction in costs resulting in a net effect of zero. Where applicable, additional costs and benefits are stated separately in the item relating to the particular regulation.

Unless otherwise indicated, all citations in the agenda are to sections of the Employee Retirement Income Security Act of 1974, Pub. L. No. 93-406, 88 Stat. 829, as amended by the Multiemployer Pension Plan Amendments Act of 1980 ("the Multiemployer Act"), Pub. L. No. 96-364, 94 Stat. 1208 ("ERISA"), 29 U.S.C. 1001 et seq. (1982).

ARBITRATION OF DISPUTES IN MULTIEMPLOYER PLANS

Priority: Agency Determination

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1321(a)(2) ERISA

CFR Citation: 29 CFR 2641

Abstract: Section 4221 of ERISA provides that any dispute between an employer and the sponsor of a multiemployer plan regarding the determination of the employer's withdrawal liability to the plan shall be resolved through arbitration. Section 4221(a)(2) of ERISA provides that an arbitration proceeding under this section shall be conducted in

accordance with fair and equitable procedures prescribed by the PBGC. The regulation will set forth those procedures. This regulation is needed to provide the rules of procedure under which an arbitration proceeding will be conducted. PBGC expects that the rule will minimize costs on plan sponsors and contributing employers because it provides a clear set of rules designed to clarify the Act's provisions and the responsibilities of the respective parties.

POWERS AND DUTIES OF PLAN SPONSORS OF PLANS TERMINATED BY MASS WITHDRAWAL: NOTICES OF BENEFIT REDUCTIONS AND SUSPENSIONS

Legal Authority: 29 USC 1302(b)(2) ERISA; 29 USC 1441(c) ERISA; 29 USC 1441(d) ERISA

CFR Citation: 29 CFR 2675

Abstract: Section 4281 of ERISA contains rules relating to the administration and payment of benefits under multiemployer plans that have terminated by mass withdrawal. Under certain circumstances, the plan sponsor is required to amend the plan to eliminate benefits not eligible for PBGC's guarantee under Section 4022A. In addition, if the terminated plan becomes insolvent, the sponsor is required to suspend payment of any benefits that are in excess of those guaranteed under Section 4022A. The PBGC is authorized to modify the statutory duties of the plan sponsor. including the duty to provide participants and beneficiaries with notice of benefit reductions, and is required to prescribe rules that ensure that plan participants and beneficiaries receive adequate notice of the benefit suspensions. This regulation will prescribe the requirements for these two notices, and will also modify the statutory rules concerning when a plan sponsor must make determinations of plan solvency. This regulation will benefit multiemployer plans by reducing the number of notices that would otherwise be required under ERISA, thus reducing plan costs. In addition, the regulation will (cont)

These benefits cannot be quantified. While providing the notices required by the regulation will obviously entail a cost to plans, the aggregate cost will be low: PBGC estimates that fewer than 10 plans per year will terminate by mass withdrawal, and only a very few of those will ever be required to reduce or suspend benefits.

Abstract: Section 4245(e) of ERISA requires the plan sponsor of a multiemployer plan, upon determining that the plan may become insolvent, to give notice of that fact to the PBGC. contributing employers, affected employee organizations and plan participants. In addition, the plan sponsor must inform those parties of the plan's resource benefit level for the insolvency year. Section 4245(e)(4) of ERISA requires that the notices be given in accordance with regulations prescribed by the PBGC. This regulation will establish the procedures for issuing and the contents of the insolvency notices. The early notice of potential plan insolvency to the collective bargaining parties will enable the parties, if they so choose, to negotiate additional contributions in order to avoid insolvency and the consequent benefit suspensions. This is of benefit to plan participants and beneficiaries. although it is not possible to quantify that benefit.

REDUCTION OR WAIVER OF COMPLETE WITHDRAWAL LIABILITY

Priority: Agency Determination

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1387(a) ERISA

CFR Citation: 29 CFR 2647

Abstract: Section 4207(a) of ERISA requires the PBGC to establish rules for reducing or waiving the liability of an employer who has completely withdrawn from a multiemployer plan and subsequently resumes covered operations or renews the obligation to contribute under the plan. This regulation will prescribe the circumstances under which an employer's liability will be reduced or waived and the rules for computing the employer's liability for a complete or partial withdrawal after it has reentered the plan. This regulation will benefit multiemployer plans by encouraging some employers who have withdrawn from these plans to renew their participation in the plans. By the same token these employers will benefit by having some or all of their withdrawal liability waived. While the plans will incur the cost of foregoing collection of some of the withdrawal liability owed them, the assumption underlying this statutory provision is that these costs will be offset by the contributions employers will make to the plans after their reentry. PBGC is unable to quantify these benefits and costs, because it cannot predict the number of employers who will avail themselves of this rule.

Abstract: The rules for determining an employer's withdrawal liability do not necessarily allocate a plan's total unfunded vested benefits because of the rules reducing or eliminating withdrawal liability, such as the de minimis rule. Therefore, if all or substantially all the employers in a plan withdraw, there may be large unallocated amounts that would constitute a potential claim on the insurance system. In order to avoid this result, section 4219(c)(1)(D) requires the determination or redetermination of withdrawal liability, in order to fully allocate a plan's unfunded vested benefits, upon either the termination of the plan through the withdrawal of every employer, or the withdrawal of substantially all the employers pursuant to an agreement or arrangement to withdraw. This regulation will set forth rules implementing this requirement. This regulation primarily benefits the multiemployer insurance program and the plans that are required to pay premiums under it, by insuring that in the event of a mass withdrawal (or the withdrawal of substantially all the employers pursuant to an agreement to withdraw), the liability for all unfunded vested benefits is allocated to the (cont)

VALUATION OF PLAN ASSETS AND PLAN BENEFITS FOLLOWING MASS WITHDRAWAL

Priority: Agency Determination

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1441(b) ERISA

CFR Citation: 29 CFR 2676

Abstract: A plan that has terminated by mass withdrawal is required under section 4281(b) of ERISA to perform an annual valuation of the plan's nonforfeitable benefits and assets (including outstanding claims for withdrawal liability). This valuation is to be done in accordance with PBGC regulations. In addition, when a plan experiences a mass withdrawal, section 4219(c)(1)(D) requires the plan sponsor to allocate fully the plan's unfunded vested benefits to all withdrawing employers. In order to do this allocation, the plan sponsor must first value the plan's benefits and assets. This regulation will prescribe the rules for these valuations. The regulation on valuing outstanding claims for withdrawal liability listed on previous PBGC agendas (RIN 1212-AA17) has been merged into this regulation.

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1341a ERISA; 29 USC 1441(d) ERISA

Abstract: Section 4041A of ERISA provides rules with respect to the termination of multiemployer plans and the payment of benefits under those plans. Under section 4041A(f)(2), PBGC is authorized to prescribe rules for the administration of those plans that are appropriate to protect the interests of plan participants and beneficiaries or to prevent unreasonable loss to the insurance system. Under section 4281(b), the plan sponsor of a plan that has terminated by mass withdrawal is required annually to determine the value of the plan's nonforfeitable benefits and assets. If the value of the benefits exceeds the value of the assets, the sponsor must amend the plan to eliminate benefits not eligible for PBGC's guarantee under section 4022A(b), to the extent necessary to insure that the plan assets are sufficient to pay all nonforfeitable benefits. This determination of sufficiency is to be made in accordance with rules prescribed by PBGC. This regulation would establish the rules for administering plans that have terminated by mass withdrawal, including the rules for determining sufficiency in the circumstances described above. Abstract: This regulation will set forth alternative approaches that multiemployer plans may use in reallocating otherwise nonassessable withdrawal liability to employers in the plan. Plans currently using the presumptive method or the modified presumptive method must reallocate certain of these amounts because of the provisions in the Deficit Reduction Act of 1984 (DEFRA) concerning retroactive withdrawal liability. Under this regulation, a plan using the presumptive method will be permitted to adopt an amendment either to allocate, in the plan year in which DEFRA was effective, the unamortized balance of amounts otherwise allocable to employers that withdrew before DEFRA, or to treat the last plan year ending before DEFRA's effective date as the initial year for purposes of computing annual changes. The regulation also will permit a plan using the modified presumptive method to adopt an amendment that maintains the allocation fraction that the plan used before DEFRA. This regulation is intended to ease the administrative costs that the recomputations required by DEFRA would otherwise impose on affected multiemployer plans.

NOTICE OF INTENT TO TERMINATE FOR NON-MULTIEMPLOYER PENSION PLANS

Priority: Agency Determination

Legal Authority: 29 USC 1302; 29 USC

CFR Citation: 29 CFR 2616

Abstract: Section 4041(a) of ERISA requires that a plan administrator file with the PBGC a notice that the plan is to be terminated. This rule would amend PBGC's regulation on Notice of Intent to Terminate for Single-Employer Plans, 29 CFR Part 2616, to provide that a notice or action document shall be deemed filed on the date on which it is received by the PBGC. The current regulation provides that a document is generally deemed filed on the date of the U.S. Postal Service postmark. Confusion has resulted because of the widespread use of private postage meters and the fact that the date on which a document is placed in a mailbox may not correspond with the U.S. Postal Service postmark. This amendment also would clarify the procedures for filing a notice of intent to terminate when a plan administrator chooses to use an alternative procedure for demonstrating sufficiency under PBGC's regulation on Determination of Plan Sufficiency and Termination of Sufficient Plans, 29 CFR Part 2617. This amendment, which will minimize confusion over the correct date and manner of filing, will be issued in conjunction with the amendment to 29 CFR Part 2617.

Priority: Agency Determination

Legal Authority: 29 USC 1302; 29 USC 1341; 29 USC 1344

CFR Citation: 29 CFR 2617

Abstract On January 28, 1981, PBGC issued a final rule on Determination of Plan Sufficiency and Termination of Sufficient Plans, requiring administrators of plans that are not "clearly insufficient" to follow a specified procedure for demonstrating whether the plan is sufficient. Pursuant to this procedure, the plan administrator must, inter alia, value the plan's assets and liabilities as of a proposed distribution date and submit the valuation data to the PBGC. In light of its experience in processing plans under this regulation, the PBGC has concluded that for some plans the data submission requirement is unnecessary. Accordingly, PBGC now plans to amend that regulation to set forth, as an alternative method for demonstrating sufficiency, the submission of an

enrolled actuary's statement certifying that the value of plan assets determined in accordance with the regulation equals or exceeds the value of plan benefits determined in accordance with the regulation. This amendment sets forth a simplified optional procedure for demonstrating sufficiency and may reduce costs for terminating plans. VALUATION OF PLAN BENEFITS IN NON-MULTIEMPLOYER PLANS

Priority: Agency Determination

Legal Authority: 29 USC 1302; 29 USC 1341; 29 USC 1344; 29 USC 1362

CFR Citation: 29 CFR 2619

Abstract: This rule would amend PBGC's regulation on Valuation of Plan Benefits in Non-Multiemployer Plans, 29 CFR Part 2619. That regulation sets forth the rules for valuing benefits in terminating plans that are covered by the insurance program under ERISA, which valuation is needed to determine if plan assets are sufficient to provide for plan benefits and to properly allocate assets to those benefits. After review of this regulation pursuant to Executive Order 12291, the PBGC is

amending the rules for valuing benefits payable as lump sums upon termination. The effect of this amendment is to prescribe the range of interest rates that may be used to value lump sums that are paid in lieu of annuities. The amendment, in the form of an interim final rule, is needed to protect recipients of lump sum distributions from loss of benefit value resulting from the use of inappropriate interest rates to compute the lump sum amounts.

Abstract: The PBGC's regulation on Valuation of Plan Benefits in Non-Multiemployer Plans, 29 CFR Part 2619, prescribes actuarial assumptions and methods to be used in valuing benefits in terminated single-employer pension plans. The PBGC intends to amend this regulation to adopt the approach to valuation employed in proposed regulation on valuation of benefits in multiemployer plans terminated by mass withdrawal, 29 CFR Part 2676 that was published on February 19, 1985 (50 FR 6956), in order to conform more precisely to generally accepted actuarial practice. The proposed amendment would enable PBGC valuations to more accurately reflect interest and other assumptions that underlie the insurance annuity market place.

Abstract: Section 4044 of ERISA provides rules for the allocation of assets in a terminating single-employer plan to benefits in priority categories 1 through 6. The PBGC's regulation on Allocation of Assets interprets those rules and describes procedures for the allocation and distribution of plan assets to participants in the terminating plan. Section 301 of the Retirement Equity Act of 1984 provides that an amendment that eliminates an early retirement benefit or retirement-type subsidies, or an optional benefit form will be treated as an impermissible reduction in accrued benefit under certain conditions. The PBGC has initiated a review of its Allocation of Assets regulation in order to determine whether an amendment is needed for guidance in the proper allocation of these "section 301 accrued benefits."

Abstract: The PBGC's regulation on Employer Liability prescribes rules for the determination and payment of employer liability that is due under ERISA if a plan lacks sufficient assets to pay for guaranteed benefits. Employer liability is due as of the date of plan termination, but often is not paid in a timely fashion. The PBGC has initiated a review of this regulation in order to determine what, if any, amendments could be adopted to provide employers with greater incentive to make timely payments of employer liability owed to the PBGC.

COMPLETED RULEMAKINGS SUPPLEMENTAL GUARANTEE PROGRAM

Legal Authority: 29 USC 1302(b)(3) ERISA: 29 USC 1322a(g)(2) ERISA

CFR Citation: 29 CFR 2690 to 2699

Abstract: Section 4022A(g)(2) of ERISA requires PBGC to issue regulations establishing a supplemental program to

guarantee benefits under multiemployer plans that would otherwise be guaranteed but for the limitations in section 4022A(c) of ERISA. Participation by plans in this supplemental program is optional. ERISA requires that the supplemental guarantee program be entirely self-supporting. The information PBGC has indicates there is very little public interest in this program.

Therefore, PBGC has determined that the program is financially unfeasible, and accordingly this project has been withdrawn.

RULES DEFINING THE "BUILDING AND CONSTRUCTION INDUSTRY"

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1383(b) ERISA

CFR Citation: 29 CFR 2646

Abstract: Section 4203(b) of ERISA contains special withdrawal rules applicable to the building and construction industry. Because ERISA does not define certain terms that are critical to the special rules, the PBGC issued an advance notice of proposed rulemaking. The notice was published in order to obtain the views of the public on whether a regulation is needed and on what it might contain. Because there are conflicting views among the public as to the need for this regulation, and because of the difficulty in developing appropriate definitions, the PBGC has decided that it will not proceed with this regulation.

TRANSFERS OF LIABILITIES TO SINGLE-EMPLOYER PLANS: WAIVER OF MULTIEMPLOYER PLAN'S CONTINGENT LIABILITY

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1412(c) ERISA

CFR Citation: 29 CFR 2679

Abstract: Under section 4232(c), a multiemployer plan that transfers liabilities to a single-employer plan is contingently liable to PBGC, up to the amounts specified in section 4232(c), if the single-employer plan terminates within five years after the transfer. PBGC is authorized, however, to waive the contingent liability if it determines that its interests and the interests of plan participants and beneficiaries are adequately protected. This regulation will provide procedures for applying to PBGC for a waiver and standards under which waivers will be granted. Because of the small number of waiver requests received to date. PBGC has determined that this project is not a high priority, and that limited staff resources can be better applied to other projects. Accordingly, this regulation is withdrawn. To the extent that waiver procedures and standards are later shown to be needed, they will be incorporated into the regulation on Transfers From Multiemployer Plans to Single-Employer Plans, RIN 1212-AA20.

CFR Citation: 29 CFR 2623

Abstract: The PBGC issued a final regulation to set forth rules designed:

(a) to reduce benefit overpayments

made to plan participants after the date of plan termination by requiring plan administrators to reduce benefit payments to the estimated level of Title IV benefits payable; (b) to define the circumstances under which the PBGC will recover overpayments from plan participants; and (c) to describe the method(s) by which the PBGC will recover overpayments. The regulation applies only to single-employer plans. This regulation is needed to establish rules and procedures for the prompt reduction of benefits after the date of plan termination in order to minimize overpayments to participants and to establish a formal procedure for PBGC recovery of overpayments to participants. This regulation will provide guidance to plan administrators and participants and minimize costs to the insurance system. No new costs will be added to plan sponsors because PBGC presently requests plan administrators to cut back benefits after termination to estimated guaranteed benefits. The effect of the rule in this respect will be simply to provide clear (cont)

1. PART 220 DISABILITY DETERMINATIONS

Legal Authority: 45 USC 231f(b)(5) CFR Citation: 20 CFR 220 Abstract: The Board's regulations with respect to disability determinations have not been updated for several years and they are, in certain respects, obsolete. When revised, this regulation

should ease the administration of disability benefits and result in greater consistency in disability determinations.

2. PRIMARY INSURANCE AMOUNT DETERMINATIONS

Legal Authority: 45 USC 231f(b)(5)

CFR Citation: 20 CFR 225

Abstract: The computation of benefits under the Railroad Retirement Act of 1974 is quite complex and is not easily understood by beneficiaries. This proposed regulation would explain primary insurance amount determinations in a manner that will enable claimants and beneficiaries to more easily understand this phase of benefit computations.

Abstract: The Railroad Retirement Solvency Act of 1983 amended section 10(d) of the Railroad Unemployment Insurance Act to prohibit borrowing by the railroad unemployment insurance account from the Railroad Retirement Account after September 30, 1985. Without such borrowing authority and in the absence of corrective legislation. the railroad unemployment insurance system will not have sufficient funds after September 30, 1985, to pay full benefits. SELECTIVE SERVICE SYSTEM

32 CFR Ch. XVI

Regulatory Agenda

AGENCY: Selective Service System.

ACTION: Regulatory agenda.

SUMMARY: The purpose of this agenda is to report the proposed rulemaking

activities of the Selective Service System that might affect the processing of registrants under the Military Selective Service Act (50 U.S.C. App. 451 et seq.). This information will allow the public to participate in the System's decision-making at an early stage.

FOR FURTHER INFORMATION CONTACT: Henry N. Williams, General Counsel, Selective Service System, Washington, D.C. 20435, telephone [202] 724-1167. SUPPLEMENTARY INFORMATION: The agenda is published in accord with the requirements of E.O. 12291. Selective Service Regulations appear in 32 CFR Chapter XVI.

DATED: February 15, 1985. Thomas K. Turnage, Director of Selective Service.

The agenda follows:

SELECTIVE SERVICE SYSTEM (SSS)

Current and Projected Rulemakings

SELECTIVE SERVICE REGULATIONS; DEFERMENT OR EXEMPTION FROM MILITARY SERVICE

Legal Authority: 50 USC App. 451 et seq Military Selective Service Act; EO 11623

CFR Citation: 32 CFR Chapter XVI

Abstract: Various sections in 32 CFR Chapter XVI will be revised to increase clarity or expression and make them consistent with 32 CFR Part 1656 which was added at 48 FR 16675 (April 19, 1983). 32 CFR Parts 1662 and 1665 were published as final rules at 47 FR 7223 (February 18, 1982). The remainder of 32 CFR Chapter XVI (except 32 CFR Part 1660 which appears in 32 CFR Part 1660 (July 1, 1981)) was published as final rules at 47 FR 4640 (February 1, 1982).

Semiannual Regulatory Agenda

SBA

SMALL BUSINESS ADMINISTRATION

13 CFR Ch. I

Improving Government Regulations; Semiannual Agenda

AGENCY: Small Business Administration.

ACTION: Publication of the semiannual agenda of regulations under review or development by the Small Business Administration.

summary: This is SBA's 12th semiannual agenda of regulations. Although not a regulatory Agency, SBA has attempted to draft agendas that met both the criteria and the spirit of the regulatory review process. This agenda is published pursuant to Executive Order 12291 and the Regulatory Flexibility Act, 5 U.S.C. 601 et seq., Pub. L. 96-354, effective January 1, 1981.

FOR FURTHER INFORMATION CONTACT:

For further information on agenda items, the public is encouraged to contact the individual Agency official listed for the particular item.

For information concerning SBA overall Regulatory Review and Development Program or general semiannual agenda questions, contact Martin D. Teckler, Deputy General Counsel, Small Business Administration, 1441 L Street, N.W., Washington, D.C. 20416, 202/653-6642.

SUPPLEMENTARY INFORMATION: The SBA agenda will contain many regulations which are limited in public impact, but they are included to increase public knowledge of all SBA regulatory activities and allow for increased public participation in the review and development process.

Public comments on SBA's previous agendas have been general, and all-were positive. None were directed at specific contents, nor were any changes suggested or recommended.

The agenda format has three parts. Part I, Current and Projected Rulemakings, includes rulemaking currently underway and scheduled to be completed shortly. Part II, Existing Regulations Under Review, includes existing regulations being reviewed within the Agency to determine whether to propose modifications through rulemaking. Part III, Completed Actions, includes regulations completed or withdrawn, and reviews completed since the preceding agenda.

Publication of this agenda does not impose any binding obligation on SBA with regard to any specific item in the agenda. Additional regulatory action not listed on the agenda is not precluded.

Regulatory Agenda

AGENCY: Tennessee Valley Authority.

ACTION: Regulatory agenda.

SUMMARY: As a nonregulatory agency, TVA originates very few regulations and thus does not ordinarily have agenda items to announce. However, TVA has one regulation under development and is therefore publishing a regulatory agenda in voluntary compliance with Executive Order No. 12291.

FOR FURTHER INFORMATION CONTACT: For further information please contact the person listed.

PROTECTION OF ARCHAEOLOGICAL RESOURCES

Legal Authority: 16 USC 470aa to 470ll CFR Citation: 18 CFR 1312

Abstract: The planned regulations will implement provisions of the Archaeological Resources Protection Act of 1979 by providing protection of archaeological resources on public lands in TVA custody and control. TVA will seek to protect such resources through permits authorizing excavation

or removal of resources, through civil penalties for unauthorized excavation or removal through preservation of archaeological resource collections and data, and through assuring confidentiality of information about resources when disclosure would threaten the resources. The planned regulations will supplement existing uniform regulations by assigning specific responsibilities within TVA.

Veterans Administration

Semiannual Regulatory Agenda

VA

VETERANS ADMINISTRATION 38 CFR Ch. I

Agenda of Federal Regulations

AGENCY: Veterans Administration.
ACTION: Publication of agenda of regulations.

summary: This agenda announces the regulations that the Veterans Administration will have under review, development or revision during the 12 month period from April 1985 to April 1986. The purpose in publishing this Agency's regulatory development activities is to allow all interested persons the opportunity to participate in the rulemaking process.

ADDRESSES: Interested persons are invited to comment on the regulations

listed in the agenda by contacting the individual agency contact listed for each regulation, or by writing to: Paperwork Management and Regulations Service (731), Veterans Administration, 810 Vermont Avenue, N.W., Washington, D.C. 20420.

FOR FURTHER INFORMATION CONTACT: Nancy McCoy (202) 389-2340.

SUPPLEMENTARY INFORMATION:

Executive Order 12291, Federal Regulation, and the Regulatory Flexibility Act (Pub. L. 96-354) require that executive agencies publish in the Federal Register in April and October of each year, an agenda of regulations under development and review.

The Veterans Administration has no regulations considered major under the terms of E.O. 12291; however all of this agency's proposed rules and current rules under review, except those

considered to be internal agency policy management or routine regulations, have been listed in accordance with section 5.(a) of the executive order. This agenda incorporates those categories of information required pursuant to 5 U.S.C. 602(a) and 610(c) (Regulatory Flexibility Act).

The Veterans Administration has found that all rules listed in this agenda, if promulgated, will not have a significant economic impact on a substantial number of small entities as they are defined in 5 U.S.C. 601 - 612.

This agenda has been prepared in accordance with OMB Bulletin 85-6. DATED: February 21, 1985.

By direction of the Administrator. Dominick Onorato,

Associate Deputy Administrator for Information Resources Management.

2. CONSIDERATIONS APPLICABLE IN DETERMINING ELIGIBILITY FOR DOMICILIARY CARE

Legal Authority: 38 USC 610(b); 38 USC 601(7)

CFR Citation: 38 CFR 17.48(c)(1)

Abstract: The existing regulation now defines the domiciliary program as the provision of a home with medical services as needed to veterans who have a chronic disability and who are unable to earn a living. The proposed change would clarify the mission of the domiciliary program as an integral part of the provision of health care services

by the VA by refocusing the definition from the provision of housing to the provision of continuing medical and rehabilitative services at a less intensive level than that provided in a hospital or nursing home, but at a higher level than that available in a residential setting.

Abstract: This law authorizes the VA to furnish assistive devises to overcome the handicap of deafness, including telecaption television decoders, to any veteran who is profoundly deaf and is entitled to compensation on account of hearing impairment. As for telecaption TV decoders, VA policy previously limited the provision of this device to veterans who suffered an aberrant or morbid mental condition as a result of deafness. CFR Citation: 38 CFR 36.4216; 38 CFR 36.4331

Abstract: Present regulations authorize the suspension of lenders and their principals and officers for practices detrimental to the best interests of veterans or the Government. In some cases, however, individual employees of lenders are found to have committed fraud or engaged in other improprieties. The amendment would authorize suspension of these employees from further participation in the Loan Guaranty Program.

Abstract: The regulations governing measurement of courses have assumed that when a college is accredited by a regional accrediting association, the accreditation extends to all the college's courses. This is not always the case. Consequently, when regulation users attempt to apply these regulations, they become confused. This proposal will rewrite the regulations to take into account the fact that some regional accrediting associations accredit colleges at various degree levels (associate degree, bachelor's degree, etc.).

Abstract: The pilot program is directed to evaluating the effectiveness of a vocational training and related services in restoring veterans to gainful employment and realizing cost benefits. During the period February 1, 1985, through January 31, 1989, veterans awarded pension may be eligible for up to 24 months or more of vocational training to prepare for and enter employment. Under this program every veteran under age 50 who begins to receive a pension award on or after February 1, 1985, will participate in a

vocational evaluation to be arranged by the VA. Veterans who are age 50 and older and are awarded pension after February 1, 1985, may apply for an evaluation of their ability to profit from vocational training. Vocational training for up to 24 months or more and up to 18 months of employment services will be provided for program participants. A veteran will continue to receive pension during the period of training and employment services. Pension will be reduced or terminated following adjustment in employment when work income exceeds the annual income limitation applicable to pension.

Legal Authority: PL 98-543, Sec 111

CFR Citation: 38 CFR 21

Abstract: The pilot program is directed at evaluating the effectiveness of a program of employment and or vocational rehabilitation services in enabling veterans in receipt of disability ratings by virtue of individual unemployability to become employed. During the period from February 1. 1985, through January 31, 1989, the veteran with a total disability rating due to IU (Individual Unemployability) who wishes to return to work will be protected for 12 consecutive months of employment. The VA will provide vocational rehabilitation and/or employment services to assist veterans to train for or to secure employment. A veteran with an IU rating prior to February 1, 1985, may choose to use these employment services or be considered for training under the VA vocational rehabilitation program. In either case, the veteran's IU rating remains protected for 12 months if he or she secures employment. For veterans

receiving an IU rating from February 1, 1985, and through January 31, 1989, an evaluation to determine if a vocational goal is feasible is required, and if it is, lack of participation will be considered in the veteran's next review of eligibility.

63. INVENTIONS BY EMPLOYEES OF VETERANS ADMINISTRATION AS COINVENTORS UNDER FUNDING AGREEMENTS

Legal Authority: 35 USC 200 to 207 CFR Citation: 38 CFR 1.635 to 1.643

Abstract: Under affiliation agreements between VA Medical Centers and local Colleges or Universities, VA employees and University employees are sometimes coinventors. Universities have requested VA to assign its interest in any such inventions to the University. Pub. L. No. 96-517 authorizes the VA to so assign its interest in certain circumstances, provided the invention was made under a funding agreement between the agency and the coinventing entity. These regulations will set forth the procedure and criteria for determination of patent right ownership in these situations. No costs will be imposed on the public. The public will benefit from consolidation of patent rights on one entity because this facilitates licensing and marketing of the invention, and thereby makes the invention available for public use.

Unified Agenda of Federal Regulations

AGENCY: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Semiannual agenda.

summary: This agenda provides summary descriptions of regulations being developed by the Civilian Agency Acquisition Council and the Defense Acquisition Regulatory Council, in conformance with Executive Order 12291, Federal Regulation. This agenda is being published to allow interested persons an opportunity to participate in the rule making process.

The FAR Secretariat has attempted to list all regulations pending at the time of publication except for minor and routine or repetitive actions, but unanticipated requirements may result in the issuance of regulations that are not included in this agenda. There is no legal significance to the omission of an item from this listing. Also, the dates shown for the steps of each action are estimated and are not commitments to act on or by the dates shown.

FOR FURTHER INFORMATION CONTACT: Roger M. Schwartz, Director, FAR

Secretariat, (202) 523-4755.

SUPPLEMENTARY INFORMATION: DoD, GSA, and NASA under their several statutory authorities jointly issue and maintain the Federal Acquisition Regulation (FAR) and prescribe the FAR system. Revisions to the FAR are made through periodic issuance of Federal Acquisition Circulars (FAC's). None of the regulations listed in this agenda are considered major under Executive Order 12291, Federal Regulations.

Commodity Futures Trading Commission

Semiannual Regulatory Agenda

COMMODITY FUTURES TRADING COMMISSION

17 CFR Ch. I

Regulatory Flexibility Agenda

AGENCY: Commodity Futures Trading Commission.

ACTION: Publication of regulatory flexibility agenda.

Trading Commission, in accordance with the requirements of the Regulatory Flexibility Act, is publishing a semiannual agenda of significant rules which the Commission expects to propose or promulgate over the next year. The Commission welcomes comments from small entities and others upon the subject area of the agenda.

ADDRESS: Comments should be sent to: Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581, Attention: Secretariat.

FOR FURTHER INFORMATION CONTACT: Harold L. Hardman, Esquire, Office of the General Counsel, Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581 (202) 254-9880.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act, 5 U.S.C. 601, et seq. ("RFA"), sets forth a number of requirements for agency rulemaking. Among other things, the RFA requires that:

- (a) During the months of October and April of each year, each agency shall publish in the Federal Register a regulatory flexibility agenda which shall contain:
- A brief description of the subject area of any rule which the agency expects to propose or promulgate which is likely to have a significant economic impact on a substantial number of small entities;
- (2) A summary of the nature of any such rule under consideration for each subject area listed in the agenda pursuant to paragraph (1), the objectives and legal basis for the issuance of the rule, and an approximate schedule for completing action on any rule for which the agency has issued a general notice of proposed rulemaking; and
- (3) The name and telephone number of an agency official knowledgeable concerning the items listed in paragraph (1).

5 U.S.C. 602(a). Accordingly, the Commission has prepared an agenda of significant rules which it presently expects may be considered during the course of the next year. The agenda lists all significant rules which may be considered by the Commission within the next year, irrespective of their potential impact on small entities.

The Commission's agenda represents its best estimate at this time of

significant rules which will be considered sometime over the next twelve months. In this regard, section 602(d) of the RFA, 5 U.S.C. 602(d), provides: "Nothing in [section 602] precludes an agency from considering or acting on any matter not included in a regulatory flexibility agenda, or requires an agency to consider or act on any matter listed in such agenda." In addition to publishing the regulatory flexibility agenda, the Commission also makes available to the public, on a monthly basis, a calendar listing rules that the Commission intends to consider that month.

The Commission is publishing its
April 1985 Regulatory Flexibility Agenda
as part of the April 1985 Unified Agenda
of Federal Regulations. The Unified
Agenda of Federal Regulations is
coordinated by the Office of
Management and Budget pursuant to
Executive Order 12291. While
participation by executive agencies in
that Agenda is mandatory, independent
agencies, such as the Commission,
participate in the Unified Agenda on a
voluntary basis.

The Commission's April 1985 Regulatory Flexibility Agenda is set forth below.

Issued in Washington, D.C., on February 27, 1985, by the Commission. Jean A. Webb,

Secretary of the Commission.

Current and Projected Rulemakings

2	Regulation of Leverage Transactions	3038-AA04

4	Minimum Financial and Related Reporting Requirements for Futures Commission Merchants	3038-AA10

¹Other than the Commission rules currently under review in conjunction with the Commission's pending and anticipated rulemakings as discussed above, the Commission does not intend to conduct any reviews of its existing regulations during the next year. In this regard, pursuant to the plan established by the Commission pursuant to section 610 of the RFA, 5 U.S.C. 610, for a ten year periodic review of its rules, the Commission will commence review of its rules in November, 1985. 46 FR 29952 [June 4, 1981].

We note that the Commission has devoted significant resources to several studies mandated by Congress in the Futures Trading Act of 1982. See The Futures Trading Act of 1982, Pub. L. No. 97-444, 205(4) (trading activities of large hedgers in cattle,

hog and pork belly markets). 236(a) (effects on economy of trading futures markets by persons possessing material nonpublic information), and 237 (regulatory experience of National Putures Association), 96 Stat. 2300, 2324-25, and 2325-28 (1983). Some of these studies have resulted in suggestions for the issuance or revision of Commission rules.

²The Commission has published its definitions of small entity to be used by the Commission in connection with rulemaking proceedings. 47 FR 18618 (Apr. 30, 1982). Pursuant to those definitions, the Commission is not required to list many of the agenda items contained in this regulatory flexibility agends. See 5 U.S.C. 602(a)(1). Moreover, the Commission has previously certified, pursuant to

section 605 of the RFA. 5 U.S.C. 605, that certain items contained in this agenda will not have a significant economic impact on a substantial number of small entities. Accordingly, listing of an item in this regulatory flexibility agenda should not in any event, be taken as a determination that a rule, when proposed or promulgated, will in fact require a regulatory flexibility analysis. However, the Commission hopes that the publication of an agenda which includes significant rules, regardless of their potential impact on small entities, may serve the public generally by providing an early and meaningful opportunity to participate in and comment on the formulation of new or revised regulations.

Current and Projected Rulemakings

1. REGULATIONS PERMITTING THE GRANT, OFFER AND SALE OF OPTIONS ON PHYSICAL COMMODITIES (DEALER OPTIONS)

Legal Authority: 7 USC 6c(b) Commodity Exchange Act, Sec 4c(b); 7 USC 6c(d) Commodity Exchange Act, Sec 4c(d); 7 USC 12a(5) Commodity Exchange Act, Sec 8a(5)

CFR Citation: 17 CFR 1; 17 CFR 3; 17 CFR 32

Abstract: Congress has directed the Commission to issue regulations permitting grantors and futures commission merchants to grant, offer and sell so-called "dealer options" on certain physical commodities subject to certain conditions specified by statute and such other uniform and reasonable requirements as the Commission may prescribe. At present, the only persons who may lawfully grant dealer options are United States domiciles who, on May 1, 1978, were in the business of buying, selling, producing or otherwise using that commodity. The Commission has reproposed rules, principally concerning registration of dealer option grantors, requirements for the segregation of customer funds, disclosure to customers and prospective customers, and minimum financial requirements. The Commission intends to re-evaluate the proposed rules in light of regulatory changes that have occurred since 1980 and expects to decide whether to adopt or repropose rules in late 1985.

Abstract: On January 16, 1984, the Commission adopted interim final rules which establish a comprehensive regulatory scheme applicable to certain leverage transactions. 49 FR 5498 (Feb. 13, 1984). The regulations, among other things, impose registration, financial, segregation, disclosure and recordkeeping requirements upon persons engaged in the business of offering and selling to the public leverage contracts for the delivery of certain commodities. The regulations generally became effective on April 13, 1984. Commission rules 31.1 and 31.2, which impose temporary moratoria on the entry of new persons or firms into the leverage business, remain in effect. Subsequently, the Commission solicited public comment concerning whether and how the interim rules could be amended to encompass the marketing of certain "short sales" of leverage transactions to the public. The Commission has determined to make such amendments to the interim rules. On January 2, 1985, certain of these

amendments which are technical in nature were published in final form without further notice and comment procedures. 50 FR 22. At that time, other more substantive amendments also were (cont)

CFR Citation: 17 CFR 15; 17 CFR 16; 17 CFR 17; 17 CFR 18; 17 CFR 21

Abstract: The Commission has proposed a rule which would require exchanges to collect, process and forward to the Commission, in machine readable form, information which the Commission currently collects from futures commission merchants and foreign brokers on series '01 reports and form 102. The rule is intended to enhance effective market surveillance programs by the exchanges and to alleviate, to some extent, the duplicative reporting burden currently imposed on some exchange member firms.

Legal Authority: 7 USC 6d Commodity Exchange Act, Sec 4d; 7 USC 6f Commodity Exchange Act, Sec 4f; 7 USC 12a Commodity Exchange Act, Sec 8a

CFR Citation: 17 CFR 1.17

Abstract: The Commission has proposed amendments to certain of its minimum financial and related reporting requirements for futures commission merchants ("FCMs"), as well as the basic financial reporting form for FCMs, Form 1-FR. One proposed amendment would alter the minimum dollar amount of adjusted net capital which must be maintained by FCMs. The Commission has also proposed a further amendment to the minimum financial regulations regarding the treatment of undermargined accounts. In addition, the Commission has proposed one specific capital charge relating to concentration of positions, and has invited further comment to assist it in the development of further appropriate minimum financial regulations concerning concentration of positions.

5. SPECULATIVE POSITION LIMITS

Legal Authority: 7 USC 6a Commodity Exchange Act, Sec 4a

CFR Citation: 17 CFR 1; 17 CFR 150

Abstract: Section 4a of the Commodity Exchange Act was amended recently to provide that it is a violation of the Commodity Exchange Act for any person to violate any bylaw, rule, regulation, or resolution of any contract market which fixes speculative position limits. Rules relating to Commission set speculative position limits will be considered in light of these amendments to the Act. In addition, the Futures Trading Act of 1982 amended Section 4a of the Act, 7 U.S.C. Sec. 6a (1982), to give the Commission additional authority with respect to speculative position limits.

CFR Citation: 17 CFR 3; 17 CFR 4

Abstract: In connection with the Commission's reauthorization in 1982, the Senate Committee on Agriculture, Nutrition and Forestry recommended that the Commission should generally exempt certain otherwise regulated entities, that met certain criteria, from regulation as a commodity pool operator ("CPO") unless these entities have other attributes or features that would warrant their regulation as a CPO. These entities include an entity regulated under the Investment Company Act of 1940, an insurance company, a bank or trust company acting in its fiduciary capacity and subject to regulation by any state or the United States, and a defined benefit plan that is subject to the Employee Retirement Income Security Act of 1974 and is insured by the Pension Benefit Guaranty Corporation. See S. Rep. No. 97-384, 97th Cong., 2d Sess. 60 (1980).

7. REGULATIONS GOVERNING THE OFFER AND SALE OF FOREIGN FUTURES CONTRACTS IN THE UNITED STATES

Legal Authority: 7 USC 6(b) Commodity Exchange Act, Sec 4(b)

CFR Citation: Not yet determined

Abstract: Section 4(b) of the Commodity Exchange Act, as amended by the Futures Trading Act of 1982, authorizes the Commission to adopt rules and regulations proscribing fraud in the offer and sale of foreign futures contracts in the United States and requiring minimum financial standards, the keeping of books and records, the safeguarding of customer funds and the registration with the Commission of any person located in the United States who engages in the offer and sale of such contracts. The Commission has published an advance notice of proposed rulemaking to assist in determining the need for a more formal regulatory program to implement the provisions of Section 4(b) of the Act.

CFR Citation: 17 CFR 1; 17 CFR 33

Abstract: The Commission is proposing to amend Commission regulation 33.4(a)(2), which currently provides that a contract market applying for designation to trade commodity option contracts must require full payment of option premiums by the contract market's clearing organization. Under the proposed rule amendment, a contract market could choose instead to adopt rules permitting its members to make a deposit with respect to the option premium, subject to certain proposed requirements. In addition, the Commission is proposing to amend regulations 1.3, 1.12 and 1.17 to reflect in its minimum financial requirements for futures commission merchants the margin treatment which may be accorded option positions under proposed amendments to regulation 33.4(a)(2).

CFR Citation: 17 CFR 1.62

Abstract: Persons acting as floor brokers on a contract market are required to register as such with the Commission pursuant to section 4e of the Act. However, the Commission has

found numerous instances in which persons apparently have acted as floor brokers without being registered as such. The Commission believes that contract markets can, as part of their own membership registration procedures and without significant additional burden, affirmatively assist the Commission to ensure that their members who engage in brokerage are registered with the Commission. The Commission thus is proposing to require that each contract market adopt a rule which provides that before a person may execute orders for others on the floor of that contract market, the person must be registered with the Commission as a floor broker. The comment period for this proposed rule ended on January 16, 1985.

CFR Citation: 17 CFR 16; 17 CFR 17; 17 CFR 18; 17 CFR 21

Abstract: The Commission may propose changes concerning its rules for reporting by contract markets, members of contract markets, futures commission merchants, foreign brokers, and large traders. The primary purpose of the proposed amendments would be to facilitate the collection and processing of data and to clarify the type of

information that the Commission requires. Specifically, the proposed rule changes would include the following: Amendments to Part 16 which would require contract markets to provide options large trader information by expiration month and by strike price; Amendments to Part 17 which would require contract market members. future commission merchants, and foreign brokers to supply futures large trader data on Commission compatible machine readable data media. In addition, foreign brokers would be required to transmit reports on its Form 40; and Amendments to Part 21 which would require that certain information obtained on special call by the Commission be reported on machine readable media.

CFR Citation: 17 CFR 1

Abstract: The Commission has proposed to adopt regulation 1.59 which would require designated selfregulatory organizations to adopt rules that prohibit their employees from trading certain futures or options contracts which are related to their employment responsibilities and from divulging material, nonpublic information obtained as a result of employment at the self-regulatory organization. It also would be a violation of proposed regulation 1.59 for an employee to divulge material, nonpublic information obtained by reason of employment at a selfregulatory organization. Finally, the proposed regulation would require exchanges to adopt rules prohibiting members of their governing boards from trading in certain markets prior to the announcement of market regulatory decisions.

CFR Citation: 17 CFR 1

Abstract: The Commission has proposed an amendment to its regulation 1.35 (g) which would require that the time of trade execution be recorded to the nearest minute by each party to all transactions executed on the contract markets. The amendments would require that this trade execution time also appear on the trade register. which the contract markets are required to maintain pursuant to Commission regulation 1.35(e). The proposed amendments also would require that a mechanical or electronic time recordation system be used by the parties to each trade, although the proposed amendments also provide that, as an interim measure, other than mechanical or electronic means may be employed to capture the trade execution time to the nearest minute. The amendments are intended to enhance the audit trail capabilities of the contract markets, thus improving the ability to detect and prosecute trade practice abuses.

Consumer Product Safety Commission

Semiannual Regulatory Agenda

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Ch. II

Regulatory Flexibility Act; Semiannual Regulatory Flexibility and Unified Agendas

AGENCY: Consumer Product Safety Commission.

ACTION: Publication of regulatory flexibility and unified agendas.

SUMMARY: The Regulatory Flexibility
Act (RFA) requires each Federal agency
to publish twice each year a regulatory
flexibility agenda listing for a 12-month
period rules expected to be proposed or
promulgated which may have a
significant economic impact on a
substantial number of small entities. In
this document, the Commission
publishes its ninth semiannual
regulatory flexibility agenda.

Additionally, although not required to do so, the Commission has elected to comply voluntarily with those provisions of Executive Order 12291 which require executive agencies to publish an agenda of regulatory actions under development or review during the succeeding 12 months by the agency and which further provide that such an agenda may be incorporated with an agency's regulatory flexibility agenda published in accordance with the RFA.

DATE: The Commission welcomes comments from small entities, including small businesses, small organizations, and small governmental units, upon each subject area of the agenda. Written comments concerning the agenda should be received in the Office of the Secretary by June 29, 1985.

ADDRESS: Comments on the regulatory flexibility agenda should be sent to the Office of the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207, telephone [301] 492-6800, and should be titled "Regulatory Flexibility Agenda."

FOR FURTHER INFORMATION CONTACT: For further information on the agenda in general, contact: Iris R. Liskey, Office of Program Management, Consumer Product Safety Commission, Washington, D.C. 20207, telephone [301] 492-6554. All inquiries from the press and broadcast media should be directed to Lou Brott, Office of Public Affairs, Consumer Product Safety Commission, Washington, D.C. 20207, telephone (202) 634-7780. For further information regarding a particular item on the agenda, consult the individual listed in the column headed "Contact" for that particular item.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act (5 U.S.C. 601 et seq.), contains several provisions intended to reduce unnecessary and disproportionate regulatory requirements on small businesses, small governmental organizations, and other small entities. Section 602 of the Act (5 U.S.C. 602) requires each agency to publish twice each year a regulatory flexibility agenda containing a brief description of any rule expected to be proposed or promulgated which may have a "significant economic impact" on a "substantial number" of small entities. The agency must also provide a summary of the objectives and legal basis for each agenda item and a schedule for acting on each item, as well as the name and address of the agency official knowledgeable about the items listed. Further, agencies are required to provide notice of their agendas to small

entities and solicit their comments by direct notification or by inclusion in publications likely to be obtained by such entities.

In addition, President Reagan's Executive Order 12291 requires executive agencies to publish, twice each year, a regulatory agenda of proposed regulations under development or review and further states that such an agenda may be incorporated with an agenda published under the RFA. While the Commission, as an independent regulatory agency, is not required to follow Executive Order 12291, the Commission is complying voluntarily with those provisions concerning publication of a regulatory agenda.

The ninth semiannual regulatory flexibility agenda, published below, lists for a 12-month period anticipated regulatory activities under development or review. These include all such activities, not only those which may have a significant economic impact on a substantial number of small entities.

The agenda contains a brief description and summary of each regulatory activity, including the objectives and legal basis for each; an approximate schedule of target dates, subject to revision, for the development or completion of each activity; and the name and telephone number of a knowledgeable agency official concerning particular items on the agenda. All agency contacts have the same address: Consumer Product Safety Commission, Washington, D.C. 20207.

DATED: March 27, 1985. Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

CONSUMER PRODUCT SAFETY COMMISSION (CPSC)

Current and Projected Rulemakings

1. CONSUMER PRODUCT SAFETY STANDARD FOR "CHAIN SAWS AND THEIR COMPONENT AND REPLACEMENT PARTS"

Priority: Major

Legal Authority: 15 USC 2058(a) CPSA

CFR Citation: 16 CFR Chapter II

Abstract: The Commission staff has continued working with industry to

develop a voluntary standard to address kickback injuries associated with chain saws. Recently a committee of the American National Standards Institute (ANSI) and representatives of the Portable Power Equipment Manufacturers Association (formerly the Chain Saw Manufacturers Association) completed work on requirements to reduce kickback injuries which will be submitted to ANSI for final approval and publication as an ANSI standard.

In the Federal Register of May 5, 1982, the Commission published an advance notice of proposed rulemaking to begin a proceeding for development of a mandatory consumer product safety standard to reduce risks of kickback injuries associated with chain saws.

If the recently developed requirements are approved and published as an ANSI voluntary standard, the Commission staff will evaluate the effectiveness of the standard and the extent to which the chain saw industry conforms to that standard. (cont)

2. UPHOLSTERED FURNITURE CIGARETTE FLAMMABILITY STANDARD

Priority: Major

Legal Authority: 15 USC 1193 FFA; 15 USC 1194 FFA

CFR Citation: 16 CFR 1633

Abstract: On August 15, 1984, the staff briefed the Commission on results of testing by the Commission's laboratory to evaluate resistance to cigarette ignition of upholstered furniture from current production. The samples tested by the Commission's laboratory were made in conformance with recently adopted changes to the Voluntary Action Program of the Upholstered Furniture Action Council for production of furniture with improved resistance to cigarette ignition. The staff reported that significant improvements had been made to cigarette ignition resistance of upholstered furniture and discussed areas in which further improvements may be possible. Cooperative efforts are being continued with industry to further improve the cigarette ignition

resistance of upholstered furniture. In 1981 the Commission voted to defer mandatory regulatory action on upholstered furniture in order to work with manufacturers participating in the Voluntary Action Program of the Upholstered Furniture Action Council (UFAC). This program may eliminate the need for a mandatory standard.

3. PETITION CP 82-6. PETITION TO INITIATE A MANDATORY STANDARD TO LIMIT THE FORMALDEHYDE THAT COULD BE RELEASED FROM PRESSED WOOD PRODUCTS MADE WITH UREA-FORMALDEHYDE RESINS

Legal Authority: 5 USC 553(e) Administrative Procedure Act; 15 USC 2051 Consumer Product Safety Act; 15 USC 2058 Consumer Product Safety Act

CFR Citation: Not yet determined

Abstract: During FY 1983, the Commission's work in this project focused on developing information on consumer exposure to formaldehyde from pressed wood products in conventional homes, as well as developing improved formaldehyde measurement methods that could be used by manufacturers for quality control purposes. In correspondence received August 19, 1982, the Consumer Federation of America (CFA) petitioned the Commission to institute a mandatory product safety standard to limit the amount of formaldehyde that could be released from pressed wood products made with urea-formaldehyde resin. Work on this petition has been included within the Commission's ongoing priority project on pressed wood products. A staff briefing package on the status of this project and recommendations pertaining to the CFA petition will be forwarded to the Commission in FY 1985 for their consideration.

4. FLAMMABILITY CLASSIFICATION REGULATIONS

Legal Authority: 15 USC 1261(I) FHSA; 15 USC 1269(a) FHSA

CFR Citation: 16 CFR 1500.3(b)(10); 16 CFR 1500.3(c)(6); 16 CFR 1500.43

Abstract: On April 26, 1984, the Commission published in the Federal Register a proposal to amend its regulations for classifying extremely flammable, flammable and combustible hazardous substances which release ignitible vapors. These flammability classifications are used for regulatory purposes, including hazard labeling. The amendments change the definition of these classifications and specify a different test method for determining the classification of these substances. If issued on a final basis, the changes would bring the Commission's procedures into general conformity with the practices of other federal agencies and voluntary standards setting organizations.

CFR Citation: Not yet determined

Abstract: Hazard information shows that asbestos presents a risk of cancer and respiratory disease. During FY 1985, the Commission will decide whether additional regulatory activity, including an ANPRM, may be appropriate. In July 1983, the Commission received the report of the Chronic Hazard Advisory Panel (CHAP) on Asbestos. The CHAP was convened in January 1983, based on a Commission decision of March 1982. The Commission is continuing to test selected consumer products for release of asbestos fibers and is a charter member in the Federal Asbestos Task Force.

Legal Authority: 15 USC 2076(e) CPSA

CFR Citation: Not yet determined

Abstract: In correspondence dated December 1, 1982, Dr. Jesse Aronstein petitioned the Commission to issue a regulation that would require the labeling of electrical wiring connectors of the constrained-spring twist-on type to advise consumers that a fire hazard may result if such connectors are used with aluminum wiring. If the Commission grants the petition, it will begin a rulemaking proceeding to issue the rule requested by the petition.

Abstract: For more than ten years a regulation has existed under the Federal Hazardous Substances Act that was an "interim" regulation. Caps producing sound levels in the range of 138-158 decibels have been banned, but are exempt from the ban if they are properly labeled and if firms producing them report to the Commission on programs to reduce the sound levels. The Commission will be considering whether to revoke the exemption and thus ban the caps or to expand the exemption to allow their marketing without any restrictions. Any action will be based on as-yet-undetermined analyses of the various costs and benefits associated with these two

approaches or any other approaches that the Commission might pursue.

Farm Credit Administration

Semiannual Regulatory Agenda

FARM CREDIT ADMINISTRATION 12 CFR Ch. VI

Unified Agenda of Federal Regulations

AGENCY: Farm Credit Administration.

ACTION: Department Unified Agenda of Regulations and review list.

SUMMARY: The Farm Credit
Administration, as an independent
regulatory agency in voluntary
compliance with Executive Order 12291,
sets forth the following agenda of
regulations which it will have under
development and review during the
period of April 1985 through October
1985.

FOR FURTHER INFORMATION CONTACT: Dorothy J. Acosta, Associate General Counsel, Office of General Counsel,

Farm Credit Administration, 1501 Farm Credit Drive, McLean, VA 22102-5090 (703-883-4020).

[/03-003-4020].

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act (5 U.S.C. 601, et seq.), contains several provisions intended to reduce unnecessary and disproportionate regulatory requirements on small entities. Farm Credit Administration ("FCA") regulations which apply to Farm Credit System banks and associations do not and will not have a substantial impact on small entities. None of the entities regulated by the FCA fall within the definition of small entities in the Regulatory Flexibility Act. While many associations through which banks lend

are smaller in size than their banks, they are not independently operated, as they are closely supervised by the banks, which must approve most of their operating policies. The associations rely exclusively on their supervising banks for their source of funds. Furthermore, the associations do not compete with each other since, as with their supervising banks, each serves only a particular geographic area.

While FCA is an independent Agency exempt from Executive Order 12291, we believe that participating in this joint publication will further the public interest by including FCA in a single source of information concerning current and projected rulemaking and reviews of existing regulations.

Donald E. Wilkinson, Governor.

Legal Authority: PL 92-181; 12 USC 2183(b)

CFR Citation: 12 CFR 611.1130; 12 CFR 611.1140

Abstract: The Farm Credit Administration will, on a priority basis, expand its existing regulation dealing with involuntary liquidation. Present regulations provide general authority for the Governor to declare an association insolvent and place it in the hands of a receiver or conservator under such terms as the Governor may prescribe on a case-by-case basis. The new regulations will address such topics as: who may act as receiver; the powers and duties of a receiver; the standards for the exercise of the Farm Credit Administration's discretion; procedural questions; jurisdictional questions and priority of claimants against the associations.

Semiannual Regulatory Agenda

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Ch. I

Unified Agenda of Federal Regulations

AGENCY: Federal Communications Commission.

ACTION: Publication of the Unified Agenda of Federal Regulations.

SUMMARY: The Commission publishes the Unified Agenda of Federal Regulations to provide the public with adequate notice of all major and other significant proceedings under development or review. The agenda also provides the CFR Citations and Legal Authorities which govern these proceedings. This is in accordance with Executive Order 12291 and OMB Bulletin No. 85-6. In addition, the agenda, in compliance with the Regulatory Flexibility Act of 1980 (Pub. L. 96-354) includes notations on the applicability of the Regulatory Flexibility Act to each item. The Unified Agenda will be published in the Federal Register in April and October of each vear.

DATE: This information is current as of April 1985.

ADDRESS: Federal Communications Commission, 1919 M Street, N.W., Washington, D.C. 20554. FOR FURTHER INFORMATION CONTACT: Claudette Pride, Management Planning and Program Evaluation Office, (202) 632-3906.

SUPPLEMENTARY INFORMATION:

Unified Agenda of all major and other significant proceedings

The Commission encourages public participation in the FCG rule making process. To help keep the public informed of significant rule making proceedings, the Commission has prepared an agenda of important proceedings now in progress. OMB will publish the Unified Agenda in the Federal Register in April and October of each year.

The following terms may be helpful in understanding the status of the proceedings included in this report:

A docket number - is assigned to a proceeding if the Commission has issued either a Notice of Proposed Rule Making or a Notice of Inquiry in regard to the matter under consideration. Since January 1, 1978, the Commission has used docket numbers which consist of the last two digits of the calendar year in which the docket was established plus a sequential number which begins at 1 with the first docket initiated during a calendar year (e.g. Docket 80-1 or Docket 83-1). The abbreviation for the responsible Bureau usually precedes the docket number, as in "Docket 79-164." When a docket number consists of only

five digits (e.g. Docket 29622), this indicates that the docket was established before January 1, 1978.

Notice of Inquiry (NOI) - issued by the Commission when it is seeking information on a broad subject or trying to generate ideas on a given topic. A comment period is specified during which all interested parties may submit comments.

Notice of Proposed Rule Making (NPRM) - issued by the Commission when it is proposing a specific change to the FCC Rules and Regulations, Before any changes are actually made, interested parties may submit written comments on the proposals.

Memorandum Opinion and Order (MO&O) - issued by the Commission to deny a petition for rule making, conclude an inquiry, modify a decision, or deny a petition for reconsideration of a decision.

Rule Making (RM) Number - assigned to a proceeding after the appropriate Bureau/Office has reviewed a petition for rule making, but before the Commission has taken action on the petition.

Report & Order (R&O) - issued by the Commission to state a new or amended rule or state that the FCC Rules will not be changed.

William J. Tricarico,

Secretary, Federal Communications Commission.

CFR Citation: 47 CFR 1.1621(b); 47 CFR 1.1622; 47 CFR 1.1623

Abstract: The FCC is considering inclusion of women as a group entitled to preferences when initial licensing in the mass media services is by lottery. The only service in which lotteries are currently used is low power television ("LPTV"). Such preference might be awarded either through inclusion of women in the "minority groups" currently entitled to the minority preference, or by creation of a special diversity preference for women. Approximately 11,000 applications for LPTV licenses are presently on file. Establishment of the preference would provide some advantage to small entities with majority female ownership seeking such licenses. Similarly, some small entities which are not majorityowned by women might be disadvantaged relative to femalecontrolled applicants.

Priority: Undetermined

Legal Authority: 29 USC 794; 47 USC 4(i); 47 USC 303(r)

CFR Citation: 47 CFR 1.1601 to 1.1699

Abstract: As originally enacted in 1974, Section 504 of the Rehabilitation Act prohibited discrimination on the basis of handicap in federally assisted programs. The Amendment of 1978 extended the nondiscrimination mandate of Section 504 to programs and activities conducted by federal agencies. Under Executive Order 12250. the Attorney General is authorized to coordinate the implementation. To assist agencies in developing rules to implement the 1978 Amendment, the Department of Justice drafted a prototype which our proposed rules follow to prohibit discrimination on the basis of handicap on FCC programs.

Semiannual Regulatory Agenda

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Ch. III

Semiannual Agenda of Regulations

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Publication of semiannual agenda of regulations.

SUMMARY: The Federal Deposit
Insurance Corporation ("FDIC") is
hereby publishing items for the April
1985 Regulatory Agenda. The agenda
contains information about FDIC's
current and projected rulemakings,
existing regulations under review, and
completed rulemakings.

FOR FURTHER INFORMATION CONTACT: Persons identified under regulations

listed in the agenda. The address for all FDIC staff identified in the agenda is Federal Deposit Insurance Corporation,

550 17th Street, N.W., Washington, D.C. 20429.

supplementary information: Twice each year, the FDIC publishes an agenda of regulations to inform the public of its regulatory actions and to enhance public participation in the rulemaking process. Publication of the agenda is in accordance with both the Regulatory Flexibility Act (5 U.S.C. 601 et seq.) and the FDIC statement of policy entitled "Development and Review of FDIC Rules and Regulations" (44 FR 31007, May 30, 1979; 44 FR 32353, June 6, 1979; 44 FR 76858, December 28, 1979; 49 FR 7288, February 28, 1984).

FDIC amends its regulations under the general rulemaking authority prescribed in section 9 of the Federal Deposit Insurance Act (12 U.S.C. 1819) and under specific authority granted by the Act and other statutes.

The FDIC is voluntarily including its agenda in the "Unified Agenda of Federal Regulations." While the FDIC is

an independent agency exempt from coverage by Executive Order 12291, it believes that its participation in this joint publication will further the public interest by including in a single source information concerning FDIC current and projected rulemaking and reviews of existing regulations. This agenda conforms to the standardized format of the "Unified Agenda."

Interested persons may petition the FDIC for the issuance, amendment or repeal of any regulation by submitting a written petition to the Executive Secretary, Federal Deposit Insurance Corporation, Washington, D.C. 20429. Petitioners should include complete and concise statements of their interest in the subject matter and reasons why the petitions should be granted.

DATED: February 25, 1985.

Federal Deposit Insurance Corporation. Hoyle L. Robinson,

Executive Secretary.

1. BROKERED DEPOSITS, LIMITATIONS ON DEPOSIT INSURANCE

Priority: Agency Determination

Legal Authority: 12 USC 1819 Federal Deposit Insurance Act; 12 USC 1813 Federal Deposit Insurance Act; 12 USC 1817 Federal Deposit Insurance Act; 12 USC 1821 Federal Deposit Insurance Act; 12 USC 1822 Federal Deposit Insurance Act

CFR Citation: 12 CFR 330

Abstract: On June 20, 1984, the United States District Court for the District of Columbia entered an Order declaring the Final Rule published by the FDIC at 49 FR 13003 (April 2, 1984) on limiting insurance coverage for brokered deposits to be unlawful, enjoining the Rule's implementation and directing that the Order be published. The FDIC published the Order, as directed by the Court, at 49 FR 27294 (July 3, 1984). On lanuary 30, 1985, the U.S. Court of Appeals upheld the U.S. District Court's ruling that the FDIC did not have authority to limit insurance coverage on brokered deposits. The FDIC is considering recommending to the Justice Department that the case be appealed to the Supreme Court.

CFR Citation: 12 CFR 338

Abstract: The FDIC has proposed amending its Fair Housing regulation, 12 CFR 338, to revise the recordkeeping exemption threshold. The FDIC now requires metropolitan banks with more than \$10 million in assets to keep log sheets of home loan applications. The proposed rule would end the log sheet requirement for log sheet banks that have \$50 million or less in assets and have received fewer than 25 home loan applications in the prior calendar year. Raising the threshold should improve the efficiency and effectiveness of consumer affairs examiners through more productive use of examination time and, additionally, should reduce the recordkeeping burden on banks.

6. NONDISCRIMINATION ON THE BASIS OF HANDICAP

Legal Authority: 29 USC 504 Rehabilitation Act of 1973; 12 USC 1819 Federal Deposit Insurance Act

CFR Citation: 12 CFR 352

Abstract: The FDIC is developing a regulation that forbids the FDIC, in administering its programs and activities, to discriminate on the basis of handicap against qualified handicapped persons. The regulation will require the FDIC to make reasonable accommodations to ensure that qualified handicapped individuals may participate in FDIC programs or activities. The regulation will address employment of, and communication with, qualified handicapped persons, as well as FDIC program accessibility. The regulation will apply only to the FDIC and not to insured nonmember banks.

Legal Authority: 12 USC 1819 Federal Deposit Insurance Act; 12 USC 1817 Federal Deposit Insurance Act; 12 USC 1818 Federal Deposit Insurance Act

CFR Citation: 12 CFR 344

Abstract: Part 344 of the FDIC's regulations requires insured State nonmember banks effecting securities transactions for customers to maintain chronological and account records of transactions and underlying order tickets reflecting specified information, provide customers with timely specified information, and establish written policies and procedures applicable to the securities activities performed for customers. The regulation serves to assure that customers are provided with adequate information about their securities transactions effected by the bank and that banks are maintaining adequate business records. It was issued through the Federal Financial Institutions Examination Council on an interagency basis in 1979. All three Federal bank regulatory agencies have almost identical regulations. After several years of experience with these regulations, some changes may be

desirable. The three banking agencies, as a joint effort under the Examination Council, are reviewing these regulations to determine the specific changes to be proposed.

COMPLETED RULEMAKINGS 11. CREDIT CARD AGREEMENTS AND CHECK GUARANTEES

Legal Authority: 12 USC 1819 Federal Deposit Insurance Act; 12 USC 1816 Federal Deposit Insurance Act

CFR Citation: 12 CFR 332; 12 CFR 337

Abstract: The FDIC has amended Part 332 of its regulations ("Powers Inconsistent With Purposes of Federal Deposit Insurance Law") which formerly prohibited an insured nonmember bank from guaranteeing the obligations of third parties. Specifically, this amendment is in the form of an exemption designed to allow banks to do two things: (1) to issue check guaranty cards, and (2) to sponsor customers in credit card agreements with other banks.

The exemption will allow banks to enter into these undertakings as long as they meet certain criteria pertaining to safety and soundness, in conformance with Part 337 of the FDIC regulations ("Unsafe and Unsound Banking Practices"). The language of these two exemptions is broad enough to include arrangements that have similar characteristics, but have been termed differently.

CFR Citation: 12 CFR 337

Abstract: The FDIC has determined that it is not unlawful under the Glass-Steagall Act for an insured nonmember bank to establish or acquire a bona fide subsidiary that engages in securities activities nor for an insured nonmember bank to become affiliated with a company engaged in securities activities if authorized under state law. At the same time, however, the FDIC has found that some risk may be associated with those activities. In order to address that risk the FDIC has amended its regulations to (1) define bona fide subsidiary, (2) require notice of intent to invest in a securities subsidiary, (3) limit the permissible securities activities of insured nonmember bank subsidiaries, and (4) place certain other restrictions on loans, extensions of credit, and other transactions between insured nonmember banks and their subsidiaries or affiliates that engage in securities activities.

CFR Citation: 12 CFR 325

Abstract: The FDIC has adopted a regulation concerning Capital Maintenance. The FDIC is required to analyze capital adequacy in taking action on various types of applications, such as mergers and branches and in the conduct of its various supervisory activities related to the safety and soundness of individual banks and the banking system. Additionally, as a condition of federal deposit insurance all insured banks must remain in a safe and sound condition, including maintaining capital adequacy. The regulation: (a) defines capital; (b)

establishes minimum standards for adequate capital; (c) establishes standards to determine when an insured bank is operating in an unsafe and unsound condition by reason of the amount of its capital; and (d) establishes procedures for issuing a directive to require an insured state nonmember bank to achieve and maintain a minimum capital ratio.

CFR Citation: 12 CFR 346

Abstract: The FDIC made changes to its International Banking Act regulations. The changes pertained primarily to asset pledge and asset maintenance requirements and included a new section dealing with concentrations of transfer risk. In addition to the changes concerning acceptable assets, the asset pledge provision was changed in regard to the amount required; and the allowance of a credit for any other pledge-like transaction to a state or the Comptroller of the Currency was eliminated. A minimum capital equivalency ledger account evidencing funding of the branch by the parent bank replaced the former asset maintenance rule. The new rule emphasizes the FDIC's intent that there be an equivalent for capital in insured branches. Certificates of deposit

without a valid waiver of offset agreement now require adjustments to the capital equivalency ledger account and may not be included in the asset pledge. Regulatory limitations for concentrations of transfer risk to the home country and to any other single country, respectively, by an insured branch were added to the regulation.

Priority: Agency Determination

Legal Authority: 12 USC 1817; 12 USC 1818; 12 USC 1819; 12 USC 1820

CFR Citation: 12 CFR 304

Abstract: The Federal Deposit Insurance Corporation ("FDIC") has adopted a final regulation requiring each FDIC-insured bank with combined fully insured brokered deposits and fully insured deposits placed directly by depository institutions in excess of either the bank's total capital and reserves or five percent of the bank's total deposits to report holdings of such deposits to the FDIC for every month in which such excess exists. The purpose of this regulation is to provide the FDIC with more frequent information on each FDIC-insured bank's involvement with insured brokered deposits and insured deposits of depository institutions. With this monthly information the FDIC

hopes to mitigate somewhat the harms caused by such deposits by determining what banks are using brokered funds and to what use those funds are being put.

CFR Citation: 12 CFR 303; 12 CFR 308

Abstract: The FDIC has amended its regulations to authorize its Board of Review to issue a directive to a nonmember banking institution that fails to maintain capital at or above the minimum capital requirement established by FDIC, and to issue civil money penalties for failing to comply with such a directive in violation of the International Lending Supervision Act of 1983; and to enter into certain written agreements; and delegates authority to FDIC's Executive Secretary to issue an order to terminate, by consent, the deposit insurance of a bank that has ceased to accept deposits other than trust funds. The amendment redesignates the legal officer with certain authority to take specified action in certain enforcement proceedings. Finally, the amendment corrects certain technical errors and omissions in FDIC's rules of practice and procedures and conforms those rules with the amendment to Part 303.

Abstract: The FDIC has adopted an amendment to the capital equivalency ledger account provision contained in section 346.20 of its regulation. The changes were made to correspond with the provisions of FDIC's recently adopted capital maintenance regulation, 12 CFR 325. Two changes were made: the minimum required sum to be maintained in the capital equivalency ledger account was raised to six percent, rather than five percent of the branch's liabilities and, in addition, no deduction will be required for assets classified as "Doubtful."

CALCULATION OF CASH WORKING CAPITAL ALLOWANCE FOR PUBLIC UTILITIES

Priority: Agency Determination

Legal Authority: 16 USC 79 to 828c

CFR Citation: 18 CFR 35

Abstract: Proposed rule would provide that a public utility that files electric rate schedules may include in rate base no cash working capital allowance, unless it is demonstrated that the payment of certain current operating expenses by that utility is not, on the average, closely timed with the receipt of revenues from ratepayers, producing a significant "lead" or "lag" in revenue collection in relation to the payment of expenses. The new section would prescribe the expense elements includable in cash working capital, the parameters of the presumption against a cash working capital allowance, and the nature of the studies that may be submitted in support of, or in opposition to, any request for a cash working capital allowance. MONITORING FAIR LENDING PRACTICES

Legal Authority: 12 USC 2901; 15 USC 1691; 42 USC 3601 to 3619; 42 USC 1981; EO 11063; 14 USC 1437; 12 USC 1725; 12 USC 1726; 12 USC 1730; 12 USC 1464; Reorg. Plan No. 3 of 1947

CFR Citation: 12 CFR 528.6

Abstract: The Board is proposing to amend its Loan Application Register and Data Submission Report currently required to be maintained by all institutions that are members of the Federal Home Loan Bank System, for the purposes of monitoring fair lending practices. The proposed amendments would provide for efficient monitoring pursuant to Title VIII of the Civil Rights Act of 1968, the Equal Credit Opportunity Act, and the Community Reinvestment Act, while reducing paperwork of regulated institutions.

Abstract: The proposal is intended to establish uniform rules for securities offerings applicable to all institutions whose accounts are insured by, or who are applying for insurance from, the Federal Savings and Loan Insurance Corporation, and to relieve current restrictions on securities activities by such institutions at their offices. The current lack of uniform rules puts institutions in danger of inadvertently violating the disclosure-oriented antifraud provisions of the Securities Act of 1933 and the Securities Exchange Act of 1934, and the use of inadequate or misleading disclosures by individual institutions could have a significant adverse impact on the capability of other thrift institutions to raise capital and could result generally in illiquid and disorderly markets for the securities of insured institutions.

The alternatives under consideration are: (1) do nothing (no adoption of rules); (2) adopt unique disclosure rules for thrifts; or (3) adopt SEC-like rules (as proposed-public market recognition and comparability).

CONSUMER PROTECTIONS; UNFAIR AND DECEPTIVE TRADE PRACTICES

Legal Authority: 12 USC 1437; Reco. Plan No. 3 of 1947

CFR Citation: 12 CFR 535, (New)

Abstract: The Board is statutorily required, with certain exceptions, to promulgate rules for thrifts similar to the consumer protection rules issued by the Federal Trade Commission. The Commission has published a rule, effective March 1, 1985, which prohibits the use of four consumer contract provisions and finds two other contract provisions to be unfair and deceptive. The Board therefore proposed a similar rule. Alternatives to its adoption would be to do nothing, based on a finding that one or more of the practices are not unfair or deceptive to thrifts' customers, or to modify the proposed rule in connection with the practices of thrifts. The proposal would require thrifts to review their contract forms to eliminate use of certain provisions and might add to the cost of credit; the benefit to consumers would be the elimination of purportedly egregious credit practices.

FEDERAL MARITIME COMMISSION

46 CFR Ch. IV

Unified Regulatory Agenda

AGENCY: Federal Maritime Commission.

ACTION: Unified Agenda of Federal Regulations.

SUMMARY: Pursuant to section 5 of E.O. 12291 and the Regulatory Flexibility Act (5 U.S.C. 601 et seq.) the Commission anticipates having under consideration during the period from April 1, 1985, to March 30, 1986, actions in the areas listed below.

FOR FURTHER INFORMATION CONTACT:

For further information concerning

Commission rulemaking proceedings or the status of any matter listed below, contact: John Robert Ewers, Director, Office of Regulatory Overview, 1100 L Street, N.W., Washington, D.C. 20573, [202] 523-5866.

supplementary information: Section 602 of the Regulatory Flexibility Act (5 U.S.C. 602) requires the publication of an agenda of items for which regulatory agencies may propose or promulgate a rule which is likely to have a significant economic impact on a substantial number of small entities. Section 5 of Executive Order 12291 also requires executive agencies to publish a regulatory agenda; the Commission voluntarily complies with this section. The agendas include information on

regulatory activities being conducted or reviewed during the succeeding 12 months by the Commission.

The following is the Commission's Unified Regulatory Agenda. The agenda does not necessarily include petitions for rulemakings which are under staff review.

In addition, the Commission is publishing a compilation of the status of pending rulemaking proceedings and a listing of rules that have become final since the publication of the most recent regulatory agenda (October 1984). This list will be made available to the press and interested groups.

Priority: Agency Determination

Legal Authority: 5 USC 553; 46 USC app 1715; 46 USC app 1716

CFR Citation: 46 CFR 572.104(ff)

Abstract: This proposed rule with request for public comment would clarify the status of certain transshipment agreements where one party operates in the foreign commerce of the United States, and therefore is subject to the Shipping Act of 1984, and another party that operates in the

United States domestic offshore trades and is still subject to the Shipping Act, 1916. The proposed rule would consider the domestic segment of such arrangements involving a through movement of cargo via transshipment in the foreign commerce of the United States to also be in the foreign commerce of the United States and therefore subject to the Shipping Act of 1984.

CFR Citation: 46 CFR 572

Abstract: These interim and final rules implement those sections of the Shipping Act of 1984 that govern agreements by or among ocean common carriers and other persons subject to the Act in the foreign commerce of the United States. The final rules will indicate the extent to which the authority conferred by agreements involving concerted activity needs to be express and specific, as to leave no doubt as to the activities being specifically authorized, including any limitations or restrictions upon such activities. Included in the rules are provisions that 1) define an 'agreement", 2) set forth those types of

agreements that are within the scope of the Act, 3) require parties to an agreement to file a copy of the agreement and other information, 4) establish procedures for Commission review and exemption and 5) for the filing of minutes and other reports.

Semiannual Regulatory Flexibility Agenda

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Semiannual agenda.

SUMMARY: The Board is issuing this Agenda under the Regulatory Flexibility Act and the Board's Statement of Policy Regarding Expanded Rulemaking Procedures. The Board anticipates having under consideration regulatory matters as indicated below during the period from April 1 through October 1, 1985. The next Semiannual Agenda will be published in October 1985.

DATE: Comments about the form or content of the Agenda may be submitted any time during the next six months.

ADDRESS: Comments should be addressed to William W. Wiles, Secretary of the Board, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

FOR FURTHER INFORMATION CONTACT: A staff contact for each item is indicated with the regulatory description below.

SUPPLEMENTARY INFORMATION: The Board is publishing its April 1985
Agenda as part of the April 1985 Unified Agenda of Federal Regulations, which is coordinated by the Office of Management and Budget under Executive Order 12291. Participation by the Board in the Unified Agenda is on a voluntary basis.

The Board's Agenda is divided into three sections. The first, Current and

Projected Rulemakings, reports on regulatory matters that have been proposed and are under Board consideration, and other regulatory matters (designated by a plus sign (+)) the Board may consider for public comment during the next six months. The second section, Existing Regulations Under Review, reports on any major regulatory reviews under the Board's Regulatory Improvement Project that are scheduled for the next 12 months. A third section, Completed Rulemaking, reports on regulatory matters the Board has completed or is not expected to consider further.

A dot () preceding an entry indicates a new matter that was not a part of the Board's previous Agenda, and which the Board has not completed.

Barbara R. Lowrey,

Associate Secretary of the Board.

1. REGULATION: B - EQUAL CREDIT OPPORTUNITY (DOCKET NUMBER: R-0473)

Legal Authority: 15 USC 1691b Equal Credit Opportunity Act

CFR Citation: 12 CFR 202

Abstract: In March 1985, the Board published for comment proposed revisions to Regulation B (cite not yet available). The proposal stems from the Board's commitment to review its regulations every five years. The review of Regulation B focussed on how the regulation could be clarified, and whether any burdens on creditors could be reduced without diminishing consumer protections.

The proposal contains some technical changes, including a streamlined procedure dealing with incomplete applications and a broader selection of sample forms for informing applicants of the reasons for a credit denial. The proposal also would change the data notation requirements applicable to residential mortgage transactions and revise the definition of "applicant" to give a guarantor (who already has certain protections under Regulation B) legal standing in the courts when there is an alleged violation of the regulation. The Board is also publishing for comment an official staff commentary that would replace existing staff and Board Interpretations.

The proposal would apply to all creditors equally. Small (cont)

2. + REGULATION: F - SECURITIES OF STATE MEMBER BANKS

Legal Authority: 15 USC 78(I) Securities Exchange Act of 1934

CFR Citation: 12 CFR 206

Abstract: The Board will consider issuing for comment a proposal to amend Regulation F to conform that regulation with a series of recent changes in the securities disclosure regulations of the Securities and Exchange Commission. Pursuant to section 12(i) of the Securities Exchange Act of 1934, the Board is required to periodically update its securities disclosure regulations to make them substantially identical to comparable regulations of the Securities and Exchange Commission or to publish reasons why they should not be so revised.

Adoption of the proposal is not expected to have a significant economic impact on a substantial number of small member banks, since only a few banks are subject to the Board's regulation and the revisions of the

disclosure requirements are not likely to be severe.

CFR Citation: 12 CFR 207

Abstract: The Board will consider proposing for public comment an amendment to Regulation G that would provide an exemption for lenders subject to that regulation who make loans to qualified employee stock option plans (ESOPs). If adopted by the Board, the exemption would parallel one already provided to lenders subject to Regulation U (Credit by Bankers for the Purpose of Purchasing or Carrying Margin Stocks). Currently, Regulation G

lenders must comply with the margin requirements if they make loans to ESOPs and secure that loan by margin stock. It is not anticipated that the proposal would have a substantial impact on a significant number of small firms.

Abstract: The Board will consider issuing for public comment proposed amendments to Regulation I intended to clarify certain issues that have arisen regarding Federal Reserve payments mechanism activities. The amendments would include (1) permitting the owner or other subsequent holder injured by a Reserve Bank's alleged failure to exercise ordinary care in handling a check to bring suit against the Reserve Bank; (2) establishing a two-year limitation for actions against a Reserve Bank for alleged mishandling of the collection checks or processing wire transfers and for actions against payor institutions for failure to follow the notification of nonpayment requirement; (3) permitting Reserve Banks to require any prior endorser to defend a suit even if the Reserve Bank has not been sued directly; (4) authorizing depository institutions to deposit with Reserve Banks for collection checks drawn on

5. REGULATION: K - INTERNATIONAL BANKING OPERATIONS (DOCKET NUMBER: R-0498)

Legal Authority: 12 USC 3901 et seq International Lending Supervision Act, 1983

CFR Citation: 12 CFR 211

Abstract: In February and March 1984, the Board adopted regulations implementing the International Lending Supervision Act of 1983 (Title IX, Pub. L. 98-181) with respect to maintenance of reserves against certain international assets, disclosure of information on international assets, and accounting rules for fees on certain international loans. In publishing these regulations the Board requested comment on whether and to what extent the Act should apply to U.S. branches, agencies, and commercial lending company subsidiaries of foreign banks. By action of February 13, 1984 (49 FR 5587, 5591). the Board left open the comment period on this issue in order to allow for further public comment.

If the Board determines to propose regulations affecting foreign banks under the Act, such regulations would not have a significant economic impact on a substantial number of small businesses since the rules would affect only international banks.

Legal Authority: 12 USC 601 to 604a; 12 USC 611 et seq; 12 USC 1841 et seq

CFR Citation: 12 CFR 211

Abstract: In June 1984, the Board proposed for comment revisions to its Regulation K governing the international operations of U.S. banking organizations (49 FR 26002, June 25, 1984). The review and proposed revision of the regulation were undertaken pursuant to a provision of the International Banking Act of 1978 which requires a review every five years of the rules governing Edge Corporations.

The proposed regulation presents several alternatives designed to enable Edge Corporations to provide a broader range of banking services than is currently permitted in order to improve the competitive position of Edge Corporations. This rule incorporates.

7. REGULATION: Q - INTEREST ON DEPOSITS (DOCKET NUMBER: R-0514)

Legal Authority: 12 USC 371b CFR Citation: 12 CFR 217

Abstract: In March 1984, the Board proposed amendments to its rules concerning advertising interest on deposits to incorporate a policy

statement concerning advertisements for split rate time deposits and for deposits used as Individual Retirement Account (IRA) investments (49 FR 11642, March 27, 1984). Under the proposal, in the case of a split rate account where a schedule of fixed rates to be paid is established in advance and the first rate to be paid is higher than subsequent rates, the Board would regard any advertisement of a rate as misleading unless the advertisement includes each rate to be paid in equal size type together with a conspicuous statement as to how long each rate will be in effect and a conspicuous statement of the average effective annual vield. In addition. advertisements should refer to IRAs as

advertisements should refer to IRAs as "tax deferred" and not as "tax exempt" or "tax free." The proposal would not adversely affect small businesses because no additional reporting or recordkeeping requirements are imposed.

The Board will review the public comments and is expected to take further action during the next six months.

8. • + REGULATION: Q - INTEREST ON DEPOSITS

Legal Authority: 12 USC 371b CFR Citation: 12 CFR 217

Abstract: In March 1984, the Board proposed amendments to its rules concerning advertising interest on deposits to incorporate a policy statement regarding advertisements for split-rate time deposits and for deposits used as Individual Retirement Account investments. (See entry RIN: 7100-AA36). In response to comments received in that proceeding, the Board may consider whether to propose amending Regulation Q further in order to update and incorporate all the Board's existing requirements governing advertisement of interest on deposits.

The Board might also request comment on whether additional requirements are necessary to provide depositors with accurate and adequate information in advertisements or at the time of opening an account. It has been suggested by some that such new requirements should be imposed to enable depositors to evaluate the many deposit options now available as a result of deregulation of interest rates. If the Board proposes any new rules. they are not likely to be severe nor to require reporting or recordkeeping. Therefore, it is expected that any such proposals would not have a significant adverse effect on small entities.

Legal Authority: 15 USC 78g Securities Exchange Act of 1934, as amended; 15 USC 78w Securities Exchange Act of 1934, as amended

CFR Citation: 12 CFR 220

Abstract: In February 1985, the Board proposed for comment an amendment to Regulation T that would set the initial margin requirement for the writing of options on equity securities at the same level as the maintenance margin that is required by the national securities exchange or association and that has been approved by the Securities and Exchange Commission (50 FR 5766, February 12, 1985). Currently, the margin requirement for these instruments is set at 30 percent of the value of the underlying securities plus any unrealized loss or minus any unrealized gain. If adopted, the margin for writing options on equity securities will be similar to that of the writing of other options, that is, the initial margin will be identical to that of the

Securities and Exchange Commission approved maintenance margin. It is not anticipated that this proposal would have a significant impact on a substantial number of small firms. The Board will review the comments and is expected to take further action within the next six months.

Abstract: In 1985, the Board may review a proposal submitted on behalf of a banking institution calling for an amendment to Regulation U that would permit banks to extend credit for options transactions in the same manner that broker-dealers may do so under Regulation T (Credit by Brokers and Dealers). In particular, the petitioner has requested the Board to change, if necessary, what is perceived to be a regulatory disparity between the treatment of banks and broker-dealers with respect to the financing of options transactions.

It is not anticipated that this proposal would affect a significant portion of the overall lending activities of a substantial number of small firms.

Legal Authority: 12 USC 1843(c)(8) Bank Holding Company Act

CFR Citation: 12 CFR 225

Abstract: In March 1984, the Board proposed for public comment an amendment to Regulation Y that would list certain additional nonbanking activities as generally permissible for bank holding companies under section 4(c)(8) of the Bank Holding Company Act and that may be applied for under the procedures of that section (49 FR 9215, March 12, 1984). The activities proposed to be included in Regulation Y for the first time include: 1. commodity trading advisory services; 2. check guaranty services; 3. consumer financial counseling; 4. armored car services; 5. tax planning and tax preparation; and 6. operating a credit agency and credit bureau.

Consumer financial counseling and check guaranty services have been permitted previously by Board order on individual applications.

In addition the Board has proposed to expand the activities of property appraisal and providing advice in connection with future commission merchant activities. These activities have been included previously in the list of permissible activities (cont)

Legal Authority: 12 USC 1843(c)(8) Bank Holding Company Act

CFR Citation: 12 CFR 225

Abstract: In November 1983, the Board published for comment a proposal to eliminate the requirement in Regulation Y that bank holding companies engaging in credit life and credit accident and health insurance underwriting provide rate reductions or increased policy benefits in order to engage in this activity (48 FR 53125. November 25, 1983.) The Board took this action as a result of the suggestions of several commenters to the Board's recent revision of Regulation Y, who advocated elimination of the rate reduction requirement from the regulation. These commenters stated that in their view the requirement puts bank holding companies at a competitive disadvantage with respect to other providers of this service, and that they knew of no significant

evidence that the performance of this activity has resulted in the adverse effects on the public considered by the Board in its 1972 decision approving this activity. It is expected that adoption of this proposal would lead to a relaxation of the regulatory burden on bank holding companies which engage in this activity.

The Board will review the public comments and is expected to take further action within the next three months.

Legal Authority: 12 USC 1843 Bank Holding Company Act; 12 USC 1844(b) Bank Holding Company Act

CFR Citation: 12 CFR 225

Abstract: A provision of Regulation Y permits a state bank subsidiary of a bank holding company to engage through a nonbank subsidiary in any activity that is permissible under state law for the bank subsidiary itself, subject to the same limits as if the bank engages in the activity directly. (A similar rule applies to national bank subsidiaries regarding activities permissible for such banks under federal law.) The Board received comments on this provision in connection with its general request for comments in May 1983 regarding the proposed revision of Regulation Y. Some of the commenters challenged the Board's authority to issue this provision, although it has been part of Regulation Y since 1971. In taking final action on the revision of Regulation Y. the Board deferred consideration of the

comments on this provision and allowed the existing rule to remain in effect in the interim (49 FR 794, January 5, 1984).

The Board plans to review this provision of the regulation in the near future. A determination to reverse the rule could have an adverse impact on many small banks that are subsidiaries of holding companies because they might be required to (cont)

The Board has not proposed a specific regulation at this time, and has only requested comment on the general question of whether, and in what direction Board regulation in this area is appropriate. In the event the Board determines to propose a regulation in this area, the public will be invited to comment on the regulation. Comment in this area was requested in response to enactment of a number of state laws that have recently authorized state banks to conduct a broad array of nonbanking activities that previously were not authorized for state banks or bank holding companies, including real estate investment activities. Legal Authority: 12 USC 1841 et seq Bank Holding Company Act

CFR Citation: 12 CFR 225

Abstract: In January 1985, the Board requested public comment as to whether the Board should permit bank holding companies that own nonbank banks to provide internal administrative services to, and establish management interlocks with, those nonbank banks (50 FR 2057, January 15, 1985). ("Nonbank banks" are institutions that are chartered as banks but which either do not accept demand deposits or do not make commercial loans.) The Board took this action to resolve a number of questions that had been raised regarding the appropriate scope of relationships between nonbank banks and their affiliates. It is likely that any action the Board might take would primarily affect larger bank holding systems and would relax a requirement or prohibition.

CFR Citation: 12 CFR 208, Appendix A; 12 CFR 225, Appendix A; 12 CFR 263

Abstract: In July 1984, the Board proposed for comment amended Capital Adequacy Guidelines for bank holding companies and State member banks as well as a regulation embodying procedures to enforce these Guidelines (49 FR 30317, July 30, 1984). This proposal is designed to implement the requirement in the International Lending Supervision Act of 1983 that the Board "cause banking institutions to achieve and maintain adequate capital." The proposal seeks to establish uniform minimum capital levels for all federally regulated banks (in conjunction with the Federal Deposit Insurance Corporation and the Comptroller of the Currency). The proposal would also raise the minimum capital requirements for larger regional and multinational state member banks and bank holding companies, and would establish a uniform minimum capital level for large and small banks and bank holding companies. The impact on small institutions would be a

slight easing of minimum primary capital requirements.

17. ● +REGULATION: Z - TRUTH IN LENDING

Legal Authority: 15 USC 1604, as amended Truth in Lending Act

CFR Citation: 12 CFR 226

Abstract: Regulation Z currently requires that creditors provide information to consumers regarding variable rate features in credit transactions. In the last several years, adjustable rate mortgages have become increasingly common and complex, and concern has been expressed in Congress and elsewhere as to whether Truth in Lending disclosures adequately convey to consumers the terms and potential costs of these mortgages. The Board, as the agency charged with implementing the Truth in Lending Act, is considering whether to propose more extensive disclosure of the variable rate feature in order to provide consumers with the information needed for informed credit decisions, in keeping with the purpose of Truth in Lending. It is likely that any proposed amendment would involve an expansion of section 226.18(f) of the regulation, which outlines the required variable rate information, and that such an amendment might be limited to mortgage transactions. The Board is also concerned about the creditor burdens associated with compliance with the variable rate regulations of several federal agencies and will

consider what actions could be taken to minimize (cont)

18. REGULATION: AA - UNFAIR OR DECEPTIVE ACTS OR PRACTICES (DOCKET NUMBER: R-0006)

Legal Authority: 15 USC 57a Federal Trade Commission Act

CFR Citation: 12 CFR 227

Abstract: The Federal Trade
Commission (FTC) Act requires that
whenever the FTC enacts a rule
covering unfair or deceptive acts or
practices, the Federal Reserve Board
must, within 60 days of the rule's
effective date, promulgate a
substantially similar rule governing
banks. The Board may decline to issue
such a rule only if the Board determines
that such acts or practices of banks are
not unfair or deceptive or that
implementation of the rule with respect
to banks would seriously conflict with
essential monetary and payment
systems policies of the Board.

In March 1984, the FTC published a trade regulations rule known as the Credit Practices Rule (49 FR 7740, March 1, 1984), which will prohibit certain provisions that sometimes appear in consumer credit contracts to aid in the collection of unpaid debts. It

will also impose certain specific disclosure and contractual requirements on creditors. The rule will go into effect on March l, 1985 and will apply only to non-financial institution creditors.

When the FTC first published the proposed Credit Practices Rule in 1975, the Board published a substantially similar (cont)

The Board will review the public comments and is expected to take further action within the near future.

19. ● + REGULATION: AA - UNFAIR OR DECEPTIVE ACTS OR PRACTICES

Legal Authority: 15 USC 57a Federal Trade Commission Act

CFR Citation: 12 CFR 227

Abstract: In November 1984, the Federal Trade Commission (FTC) published a final trade regulation rule on the sale of used motor vehicles, known as the "Used Car Rule," (49 FR 45692 November 29, 1984), effective May 9, 1985. In adopting the Used Car Rule, the FTC specifically excluded banks and other financial institutions

from the rule's "dealer" definition. This conclusion was based upon the determination that banks do not engage in the sale of used motor vehicles in a retail sales environment, and, absent such an environment, the risk of the deceptive practices found to be characteristic of used car sales presentations was substantially diminished.

The FTC Act, generally, requires the Federal Reserve Board to issue a substantially similar rule to prohibit substantially similar acts or practices of banks within 60 days of the effective date of an FTC rule covering unfair or deceptive acts or practices. The Act provides that the Board may decline to issue a rule if the Board determines that such acts or practices of banks are not unfair or deceptive or that (cont)

The Board is currently examining the rule, the FTC's conclusion, and its responsibilities under the FTC Act to determine whether any action by the Board would be necessary or appropriate. To the extent that the Board takes any action, it is unlikely that the action would have a significant impact on a substantial number of small entities.

20. REGULATION: EQUAL EMPLOYMENT OPPORTUNITY (DOCKET NUMBER: R-0527)

Legal Authority: 12 USC 248(I) Federal Reserve Act, Sec 11(I)

CFR Citation: 12 CFR 268

Abstract: In August 1984, the Board issued for public comment proposals to revise and expand its Equal Employment Opportunity regulation for the following purposes: (1.) to conform the regulation in so far as possible to existing regulations of the Equal **Employment Opportunity Commission** governing the substantive rights of employees and applicants for employment with Federal agencies; (2.) to designate clear responsibility for equal employment opportunity functions in light of changes in the Board's organizational structure; and (3.) to prohibit discrimination against the handicapped in programs and activities conducted by the Board.

It is not expected that this proposal would have a significant economic impact on a substantial number of small entities as it focuses primarily on Board personnel and management policies and practices.

The Board will review the public comments and is expected to take further action during the next six months.

21. PROPOSALS TO REDUCE RISK ON LARGE DOLLAR TRANSFER SYSTEMS (DOCKET NUMBER: R-0515)

Legal Authority: 12 USC 221 et seq

Abstract: In April 1984, the Board requested public comment on several proposals to reduce risks on largedollar wire transfer systems (49 FR 13186, April 3, 1984). The Board took this action in response to its concern that developments that might arise in connection with such networks could destabilize financial markets and the economy. The proposals, if adopted,

would likely apply only to financial institutions, although customers of such institutions may be affected indirectly. Because large-dollar funds transfer systems are typically used frequently only by the largest financial institutions, it is not anticipated that these proposals, if adopted, would have a significant economic impact on a substantial number of small entities.

The Board will review the public comments and is expected to take further action within the next three months.

Legal Authority: 12 USC 3501 Financial Regulation Simplification Act of 1980; 5 USC 605 Regulatory Flexibility Act

Abstract: The Board's Regulatory Improvement Project involves, among other things, a substantive, zero-based review of all Federal Reserve regulations that affect the public to determine: (1) the fundamental objectives of the regulation and the extent to which it is meeting current policy goals, (2) nonregulatory alternatives that would accomplish the objectives, (3) costs and benefits of the regulation, (4) unnecessary burdens imposed by the regulation, and (5) the clarity of the regulation. The Project also participates in the development of proposals listed in this agenda to ensure that the objectives of the Project are met.

Since publication of the last semiannual Agenda, specific revision of Regulation B ("Equal Credit Opportunity") has been proposed. (See Entry RIN 7100-

Legal Authority: 15 USC 1693b Electronic **Fund Transfer Act**

CFR Citation: 12 CFR 205

Abstract: In January 1984, the Board published for comment two proposed amendments to Regulation E [49 FR 2204, January 18, 1984). The first proposal would bring within the definition of an electronic fund transfer, and thus within the coverage of the Electronic Fund Transfer Act and the regulation, transfers resulting from point-of-sale debit card transactions that are processed electronically but do not involve an electronic terminal at the point of sale. In addition, it would provide additional time in these cases for error resolution.

The second proposal would give financial institutions the option to disclose charges for electronic fund transfers -- on periodic statements either on a transaction-by-transaction basis, or as a total sum. After considering the public comments the Board, in October 1984, adopted the second proposal as proposed and the first proposal with some changes (49 FR 40794, October 18, 1984). As adopted, the first proposal brings within the definition of an electronic fund transfer all transfers resulting from debit card transactions; extends the time periods for error resolution for all point-of-sale transactions; (cont)

CFR Citation: 12 CFR 210

Abstract: In February 1985, the Board adopted a proposal to improve the process by which checks are returned. The Board has amended Subpart A of Regulation J to require the paying bank to provide timely notice to the depository institution at which the check was originally deposited that the check is being returned unpaid (50 FR 5734, February 12, 1985). The Federal Reserve Banks will enhance the notification service they currently provide to assist paying banks in meeting this requirement, and also will make an enhanced notification service available to depository institutions for checks collected outside the Federal Reserve. The proposal that was

adopted is a change in an earlier Board proposal issued in May 1981 and adopted in part by the Board in August 1981 (46 FR 42059, August 19, 1981). At that time the Board deferred action on three proposals: two have been incorporated in the proposal that was adopted and the other (an amendment incorporating provisions for collecting coupons and other securities similar to provisions regarding the payment and return of cash items) has been deferred pending further study. Legal Authority: 12 USC 1861 Bank Service Corporation Act

Abstract: The October 1984 Agenda referred to a possible proposal to amend Regulation Y by adding authority for member banks to invest individually or jointly in bank service corporations under an amendment to the Bank Service Corporation Act made by section 709 of the Garn-St Germain Depository Institutions Act of 1982. The Board's staff has been processing applications under this Act by adapting

existing procedures to these applications and believes that the Board may adequately continue to do so without need for further regulation. Therefore, an amendment to Regulation Y is no longer being considered.

Legal Authority: 15 USC 1604, as amended Truth in Lending Act

CFR Citation: 12 CFR 226

Abstract: In January 1984, the Board published for comment a proposed amendment to Regulation Z, which would clarify that all credit cards issued for use in transactions that are generally exempt from Regulation Z are still subject to the Regulation Z provisions that prohibit the unsolicited issuance of credit cards and that limit the cardholder's liability for unauthorized use to a maximum of \$50 (49 FR 2210, January 18, 1984). Following review of public comments, the Board in November 1984 adopted the proposal in substantially the form proposed (49 FR 46989, November 30, 1984).

The vast majority of the credit cards that are affected by this amendment are telephone credit cards; therefore, the entities most affected will be in the telecommunications industry. However, cards issued for use with other types of exempt transactions (such as those issued for use with fixed credit lines over \$25,000 that are not secured by real estate or a dwelling) are also subject to the provisions on issuance and liability for unauthorized use. Semiannual Regulatory Agenda

FEDERAL TRADE COMMISSION 16 CFR Ch. I

Semiannual Regulatory Agenda

AGENCY: Federal Trade Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The following agenda of Commission proceedings is published in accordance with the Federal Trade Commission Improvements Act of 1980, Pub. L. 96-252 and the Regulatory Flexibility Act, Pub. L. 96-354. Each projected event reflects the FTC staff's assessment of events that it expects will occur in the listed proceedings during the coming year. No Commission determination on the need for or the

substance of a trade regulation rule or any other procedural option should be inferred from the projected events included in this agenda.

Several agenda items concern proceedings that may affect a substantial number of small businesses as that term is used in the Regulatory Flexibility Act. Whether any such proceeding will result in a rule which is likely to have a significant economic impact on such entities depends upon final Commission determinations on the need for or on the substance of a trade regulation rule.

Except for notice of completed actions, the information in this agenda represents judgments of the FTC staff, based upon information now available. These views should not be regarded as a

final staff position, nor should they be attributed to the Commission itself. The Commission will address the issues presented on the rulemaking record in the final consideration of each proceeding.

Agenda items include the projected timing of any future Commission action. In most instances the dates of future events are listed by month, not a specific day. Further details may be obtained from the agency contact responsible for a particular proceeding. Discovery of new information, changes in circumstances, or in the law may alter the information set forth in this agenda.

By direction of the Commission. Emily H. Rock, Secretary.

1. OPHTHALMIC PRACTICE RULES (FORMERLY EYEGLASSES II)

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 456, (Revision)

Abstract: The staff of the FTC's Bureau of Consumer Protection has identified several state and private restrictions on the delivery of eye care goods and services which may decrease consumer access to vision care services, increase the cost of those services, and impede the growth of alternative methods of organizing eye-care practices. The principal question the Commission is exploring is the impact of such restrictions on the price, quality and availability of vision care. The Commission's investigation has sought, through the development of empirical market research, to determine whether higher prices result from these restrictions and, if so, whether offsetting consumer benefits also result. The primary impact of a rule on small businesses could stem from the increased competition in the vision care industry which can be anticipated as a result of deregulatory effect of the rule. Rule provisions removing certain restraints on commercial ophthalmic practice could enhance competition by permitting small entities (i.e., optometrists and opticians) to engage in alternate modes of practice; or to expand, should they desire to do so. The affirmative requirements of a rule could impose additional (cont)

2. HEALTH SPAS

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 443, (New)

Abstract: The rule proposed at the outset of this proceeding would require that health spa membership contracts provide consumers with a right to cancel and receive a full refund during a three-day cooling-off period. If a seller's facilities are not yet fully operational, the consumer would have ten days to cancel after notice that the spa facilities are fully operational. After

this period, the consumer would have a right to cancel by paying up to a 5 percent cancellation fee plus a prorated portion of the contract price. Other provisions of the proposed rule would prescribe the form of the cancellation notices, limit contracts to two years, and prohibit the receipt of more than 5 percent of the contract price from consumers if a spa is not fully operational and available for use at the time the contract is signed. All industry members would incur costs for printing new contracts in order to comply with the proposed rule. Membership cancellations attributable to the requirements of the proposed rule would adversely affect the cash flow of health spas. Consumers would benefit from the proposed rule's unlimited cancellation rights to the extent they are not currently (cont)

CFR Citation: 16 CFR 440, (New)

Abstract: The proposed regulation currently under consideration would afford hearing aid purchasers a right to cancel the transaction within 30 days of purchase subject only to specified cancellation charges. Staff has explored alternative rule proposals that would require hearing aid dispensers to disclose whether they offer a trial period or would contain specific advertising prohibitions. In addition, staff has explored case by case enforcement and other alternatives to a Commission rule. If a trial period is required, the costs of the rule would be the dispenser's loss on the returned aid and the administrative expense of complying with the rule. This loss would be mitigated, among other things, by a cancellation fee and by the opportunity to re-sell the used aid. The greatest impact would be felt by dealers who do not currently offer customers trial periods with the sale of a hearing aid, particularly dealers with a high percentage of dissatisfied customers. Many dealers now offer trials. For those dealers the rule would be expected to have little impact beyond the administrative cost of complying with the rule, or any mandated changes in cancellation fees or other charges associated (cont)

The benefit would be to protect consumers from deceptive and unfair sales practices, and from the risk that a hearing aid will not significantly enhance hearing. The purposes of this rule would be to prevent deceptive and unfair sales practices in the sale of hearing aids and to give consumers contractual remedies against the risk that a hearing aid device will provide no significant benefit to the user. Since most hearing aids are sold by small businesses, the rule is expected to affect a large number of small businesses. Should some costs of implementing the rule be passed from dispensers to manufacturers of hearing aids (e.g., return of aids rejected by customer), there would be some impact on small manufacturers of aids as well.

Priority: Undetermined

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 433

Abstract: The objective of the proposed amendment is to ensure that a purchaser's duty to pay is not separated from sellers' duty to perform when consumer sales are financed by third party creditors or purchase money lenders. The original rule requires sellers to ensure that credit contracts used in consumer installment sales and purchase money loans contain a provision that makes any holder of the contract subject to all legal claims and

defenses related to the sale transaction which the buyer may have against the seller. The proposed amendment would extend to creditors the obligation to ensure that credit contracts contain the required provision. Benefits from the proposed amendments may include improvement in the retail market due to increased scrutiny by creditors of the sellers with whom they do business and availability to consumers of additional claims and defenses against creditors. Some creditors may have increased costs associated with screening contracts and monitoring the reputations of retailers with whom they deal. Alternatives considered by the Commission include: rejection of the amendment; postponement of decision pending additional information on

5. AMENDMENT TO LABELING AND ADVERTISING OF HOME INSULATION RULE

Legal Authority: 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 460.10; 16 CFR 460.18; 16 CFR 460.19; 16 CFR 460, Appendix B

Abstract: The Commission's home insulation trade regulation rule became effective on September 29, 1980. Among other things, it requires advertisers to disclose specific additional information in advertisements or other promotional materials when they make energy savings claims about an insulation product or refer to the product's thickness, R-Value or price. The Commission temporarily stayed the effective date of those disclosure requirements as they applied to television ads pending completion of these amendment proceedings. The Commission has announced its intention to reopen the rulemaking proceeding to consider whether it should amend the rule's disclosure requirements insofar as they apply to television advertising. (ANPR, 46 FR 47236, Sept. 25, 1981.) The TV ad disclosure requirements in the rule benefit consumers by ensuring that they have an opportunity to understand and evaluate claims that may otherwise lead to misguided purchasing decisions. The major cost to consumers is the possible displacement of other valuable information in advertisements by the required disclosures. The major cost to industry members is the (cont)

6. MOBILE HOME SALES AND SERVICE

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 47(a) Federal Trade Commission Act

CFR Citation: 16 CFR 441, (New)

Abstract: Almost all mobile homes are sold with a manufacturer's warranty but many buyers may not receive adequate and timely service under the warranty. The rule would address possibly inadequate performance of mobile home warranties through a number of possible remedies: setting specific service deadlines, prohibiting exclusion of set-up and transportation from warranty coverage, requiring written service agreements between warrantors and their service agents, and requiring maintenance of service records. Compliance costs estimated by staff will be approximately \$145 per home for most firms affected, and could be less, depending on what provisions are actually adopted. An estimated 20% of buyers would benefit by saving about \$242 for warranty repairs they would otherwise not get; another 15% of buyers would have service time cut by an estimated 4 months. The incidence

of warranted defects could be reduced, increasing the useful life of homes. Buyers could also receive better financing terms due to lowering the incidence of defects that diminish resale value. Consumers might benefit from better information, if warranties accurately reflected what service is included (cont)

The proposed rule will have an impact on 200 mobile home manufacturers and 12,000 mobile home dealers, most of which are small businesses. There are alternatives to rule provisions. Instead of specific time deadlines for warranty repairs, manufacturers and dealers could set their own deadlines as long as they are disclosed in their warranties; instead of requiring manufacturers to disseminate consumer questionnaires, to monitor effectiveness of factory and dealer warranty repairs, manufacturers could select their own monitoring devices; some responsibilities and duties of the manufacturers may not be needed (e.g., pre-occupancy inspection, set-up and transportation damage).

Priority: Undetermined

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 438, (New)

Abstract: In 1979, the Second Circuit Court of Appeals set aside the rule as originally issued by the Commission,

citing problems with some of the remedies that the rule provided to purchasers of proprietary vocational training. The Staff has prepared recommendations as to how the Commission should respond to the Court's decision. Alternatives under consideration include a rule that would give schools the option of providing either a strict pro rata refund remedy or a track record disclosure, a rule requiring some refunds but not on a strict pro rata basis, and a rule with no refund requirements at all. Alternatives to rulemaking include case-by-case enforcement, and FTC intervention before other state and federal agencies having jurisdiction over vocational schools to prevent deceptive practices. The rule may benefit consumers by enabling them to avoid expenditures on inappropriate courses and increasing the effectiveness of the vocational school industry in training and placing people in productive jobs. The coolingoff track record disclosures and refund components of the rule variations under consideration would impose real social costs on schools covered (cont)

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 46(g) Federal Trade Commission Act

CFR Citation: 15 CFR 457, (New)

Abstract: Standards for products ranging from nuts and bolts to computers are set by trade associations, professional societies, testing laboratories, and other private sector groups. They are relied on by consumers, building code officials, government agencies, and others for regulatory and procurement purposes. These standards can provide significant benefits, such as lowering the cost of communications between buyers and sellers; improving the transfer of technology; encouraging efficiencies in design, production, and inventory; and assuring the safety, fitness, energy efficiency, or other aspects of product performance. However, substantial injury to competition and consumers can occur if standards or certification actions block the use of superior or lower cost technology, inflate product prices, or deceive consumers about the quality or safety of a product. In the proceeding, the Commission is examining whether a rule, guide, or other enforcement action is needed to address these competitive and consumer injuries. The Commission is particularly interested in the impact on injurious practices of other events, such as promulgation of OMB Circular A-119 and recent court (cont)

Priority: Undetermined

Legal Authority: 15 USC 68b(d); 15 USC 70i

CFR Citation: 16 CFR 300; 16 CFR 303

Abstract: The Wool Products Labeling Act of 1939 requires all wool products to bear a label showing the percentage of wool, recycled wool, and non-wool fibers contained in the product and the name of the manufacturer or other distributor. The Textile Fiber Products Identification Act requires each household textile product to bear a label showing the percentage of each fiber contained in the product, the name of the manufacturer or distributor, and the country of origin if the product was manufactured principally in a foreign country. Each Act prohibits misbranding and false advertising of the fiber content of covered products and, in the case of textile products, requires that the appropriate generic name be used for all fibers. Each Act

and accompanying rules are designed to

protect producers and consumers from being deceived by misbranding and false advertising of covered products. Since the rules closely follow statutory requirements, most of the costs imposed on affected industry members may not be attributable to the rules. Legal Authority: 15 USC 2302(b)(1)(A): 15 USC 2309(a) Magnuson-Moss Warranty--FTC Improvements Act

CFR Citation: 16 CFR 702

Abstract: The Magnuson-Moss Warranty Act (15 U.S.C. 2302(b)(1)(A)) requires that the Federal Trade Commission promulgate a rule to require that the terms of written warranties for consumer products be made available to consumers prior to purchase. The Rule modifications currently being considered are intended to achieve the Congressional objective more effectively by making the Rule requirements more flexible and thus lessening the costs and burdens of compliance while still ensuring consumers access to warranties prior to purchase. The current Pre-Sale Availability Rule requires that retailers of consumer products costing more than \$15 make warranty texts available to consumers prior to purchase by placing the warranty text in one or a combination of four specified locations; (1) on the product, (2) in a binder, (3) on the package, or (4) on a sign. Manufacturers are required to provide materials sufficient for retailers to meet their obligations. The Rule modifications currently under consideration would reduce retailers' obligations by requiring only that warranties accompany the product or be made readily available on request prior to sale. The rule states that it is a violation of Section 5 of the Federal Trade Commission Act for grocery stores to advertise products at a particular price unless such products are in stock and conspicuously and readily available for sale at the advertised price during the effective period of the advertisement. The rule is intended to benefit consumers by ensuring that advertised items are available, that advertisinginduced purchasing trips are not fruitless, and that store prices accurately reflect the prices appearing in the ads. The rule may cause costs to be incurred in maintaining sufficient inventory to meet anticipated demand. and costs associated with the monitoring of price changes, changing marked prices, and training of employees to comply with the rule. Legal Authority: 15 USC 41 et seq Federal Trade Commission Act

CFR Citation: 16 CFR 429

Abstract: The rule states that sellers of consumer goods or services with a purchase price of \$25.00 or more who sell away from their place of business must furnish to the buyer certain information regarding the buyer's right to cancel sales within three business days and must give the buyer a full refund of any down payment upon the buyer's cancellation. The rule requires a seller to furnish the buyer with a complete receipt or copy of a contract, along with a notice informing the buyer of the right to cancel the transaction, to furnish the buyer with a completed Notice of Cancellation. The rule is intended to benefit consumers by permitting them to reflect on their purchase and the terms of any contract. to compare the purchase with offerings of other sellers, and to ascertain the accuracy of any representations made. Legal Authority: 15 USC 41 et seq Federal Trade Commission Act

CFR Citation: 16 CFR 435

Abstract: The Commission's rule concerning mail order merchandise was promulgated on October 22, 1975. The rule requires mail order sellers to possess a reasonable basis for any claims made concerning shipping date or, in the absence of any specifically stated date, to ship the ordered merchandise within thirty (30) days of receipt of an order. In the event of delays in shipment, the rule establishes notification procedures whereby buyers have the option either to agree to the delay or to cancel the order and receive a prompt refund. The Commission's rule is designed to address a number of significant consumer problems described on the record of the rulemaking proceeding, including failure to deliver ordered merchandise. unexplained delays in delivery, failure to make prompt (or any) refunds upon cancellation of an order, and inability to obtain responses to inquiries about pending orders. Priority: Agency Determination

Legal Authority: 15 USC 18a Clayton Ad

CFR Citation: 16 CFR 801; 16 CFR 802 16 CFR 803; 16 CFR 803, Appendix

Abstract: The Premerger Notification Rules and the Antitrust Improvements Act Notification and Report Form were adopted pursuant to Section 7A of the Clayton Act. Section 7A requires firms of a certain size contemplating mergers or acquisitions of a specified size to file notification with the Federal Trade Commission (FTC) and the Department of Justice (DOJ) and to wait a designated period before consummating the transaction. It also requires the FTC, with the concurrence of the Assistant Attorney General for Antitrust, to promulgate rules requiring that notification be in a form and contain information necessary to enable the FTC and DOJ to determine whether the proposed acquisition may, if consummated, violate the antitrust laws. Review of these rules and the

Form focuses on reducing the paperwork burden imposed on the business community. On July 29, 1981, the Commission proposed several changes in the current premerger rules (46 Fed. Reg. 38710). These proposed changes, with some modification, were adopted in July 1983. On July 2, 1982, the Commission requested comments on several approaches to reduce further the burden imposed by the premerger rules and the Form. The staff (cont)

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 419.1

Abstract: The Commission's trade regulation rule concerning games of chance became effective on October 17. 1969. The rule establishes requirements for food and gasoline retailers in conducting and advertising games of chance by requiring disclosure of oddsof-winning and prize information in broadcast and print advertisements, as well as in point of sale information. During January, 1983, the Commission granted a temporary partial exemption to allow supermarkets and gas stations to advertise their games on radio and television without disclosing full information on prizes and odds-ofwinning. In addition, the Commission also published an advance notice of proposed rulemaking on whether to make the broadcast exemption permanent. Finally, the Commission has proposed to reduce the recordkeeping requirements of the rule from three years to one year in keeping with the goals of the Paperwork Reduction Act, and requests public comment on other possible areas where amendments to the rule may be appropriate. Legal Authority: 15 USC 41 et seq Federal Trade Commission Act

CFR Citation: 16 CFR 436

Abstract: The franchise trade regulation rule was adopted in response to evidence of deceptive and unfair practices in connection with the sale of the types of businesses covered by the rule. In some instances prospective franchisees lack a ready means of obtaining essential and reliable information about their proposed business investment. This lack of information reduces the ability of prospective franchisees either to make an informed investment decision or otherwise verify the representations of the business' salespersons. The rule attempts to deal with these problems by requiring franchisors and franchise brokers to furnish prospective franchisees with information about the franchisor, the franchise business and the terms of the franchise agreement. Franchisors and franchise brokers must furnish additional information if they have made any claim about actual or potential earnings, either to the prospective franchisee or in the media. All disclosures must be made (i) before any sale is made and (ii) by means of disclosure documents whose form and content are set forth in the rule. The rule requires disclosure of (cont)

Legal Authority: 42 USC 6294 National Energy Conservation Policy Act; PL 94-163 Energy Policy and Conservation Act, Sec 324, 1975

CFR Citation: 16 CFR 305

Abstract: The Energy Policy and Conservation Act (EPCA) required the Commission to consider labeling rules for the disclosure of energy information, based on standard test procedures prescribed by the Department of Energy, for at least 13 categories of major household appliances. The Commission adopted a labeling rule for seven appliance categories: (1) refrigerators and refrigerator- freezers; (2) freezers; (3) dishwashers; (4) clothes washers; (5) water heaters; (6) room air conditioners; and (7) furnaces. The Commission exempted five other categories of appliances. Following DOE's adoption of final test procedures for central air conditioners (and heat pumps), the Commission initiated a rulemaking to consider including these products. The Commission is also considering including two new types of furnaces in the rule's current coverage of furnaces.

The rule mandates that specific energy costs or efficiency information for covered products be disclosed in catalogs and on a label (fact sheets are required for furnaces). The label must include a highlighted energy cost or efficiency disclosure, a range indicating the highest and lowest energy costs or (cont)

Since the Commission's rule implements the statutory directives in EPCA, most of the costs imposed on industry members may not be attributable to the rule. The rule applies mainly to manufacturers of household appliances, but does impose some burdens on distributors and retailers. Some of these entities may be small businesses pursuant to Section 610 of the Regulatory Flexibility Act; therefore, the Commission will initiate a review of the rule during FY 1984 to determine whether the rule has had a significant economic impact on a substantial number of small entities and, if so, whether the rule should be amended.

CFR Citation: 16 CFR 460

Abstract: The Commission's home insulation trade regulation rule became effective on September 29, 1980. In summary, the major provisions of the rule: (1) prescribe standardized test methods for determining the R-values,

or effectiveness, of home insulation materials; (2) mandate prepurchase point-of-sale disclosures of R-values and related information to consumers on labels and fact sheets; (3) require installers and new home sellers to disclose to consumers information about the insulation installed; (4) require disclosure of R-values or related information in advertisements which make specific claims about home insulation products; and (5) require substantiation and qualifying disclosures in advertisements which make energy savings claims about home insulation products. The rule is designed to enable consumers to evaluate and compare the thermal performance characteristics of these materials, and to ensure that promotional claims for home insulation products will be fair and nondeceptive. The disclosure requirements of the rule may benefit smaller manufacturers and other sellers, whose insulation products often compare favorably on an R-value basis with (cont)

The resulting costs to covered sellers include the costs of conducting tests. preparing test reports, maintaining records, preparing labels and fact sheets, making disclosures in advertisements, and making disclosures in sales contracts or receipts given to consumers. Since the rule applies to all manufacturers, installers and other retail sellers of home insulation products, and to all retail new home and mobile home sellers, it may have a significant economic effect on a substantial number of small entities. To assess the possible impact of the rule on such small entities, the Commission is commencing a review of the rule in accordance with Section 610 of the Regulatory Flexibility Act.

Priority: Undetermined

Legal Authority: 15 USC 2309; 15 USC 2310(a)(2) Magnuson-Moss Warranty--FTC improvements Act

CFR Citation: 16 CFR 703

Abstract: The Magnuson-Moss Warranty act, enacted on January 4, 1975, requires that the Federal Trade Commission promulgate a rule prescribing the minimum requirements for any informal dispute settlement procedure which is incorporated into the terms of a written warranty-subject to the Act. Because warrantors are not required to incorporate such procedures into warranties, the rule applies only to warrantors who voluntarily choose to do so. The present rule sets forth detailed procedural, recordkeeping, and reporting requirements for dispute settlement mechanisms designed to insure their fairness. In accordance with Section 610 of the Regulatory Flexibility Act, The Commission will begin a review of the rule during fiscal 1985 to examine whether the rule has had a significant economic impact on a substantial number of small entities and to assess whether any changes are needed. The review process will focus on whether changes in the rule would advance the Congressional objective of encouraging warrantors to establish informal dispute settlements. The review will also consider possible incentives for additional warrantors to participate in dispute (cont)

Priority: Undetermined

Legal Authority: 15 USC 2801 et seq Petroleum Marketing Practices Act

CFR Citation: 16 CFR 306

Abstract: The Federal Trade
Commission, in accordance with the
Regulatory Flexibility Act and
publication of a Plan for the Periodic
Review of Commission Rules, 46 FR
35118 (July 7, 1981), is soliciting
comments and data on whether the
Octane Certification and Posting Rule,
16 CFR Part 306 ("the Rule"), has had a
significant economic impact on small
entities, and if it has, whether the Rule
should be amended to minimize any
such significant economic impact on
small entities.

The Rule establishes standard procedures for determining, certifying and posting (by means of a label on the fuel dispenser) the octane rating of automotive gasoline intended for sale to consumers. In addition, the Rule contains recordkeeping requirements that require gasoline refiners and importers to retain octane rating test records and gasoline distributors and retailers to retain octane certification records pertaining to the gasoline they sell in commerce for one year.

The Rule is intended to enable consumers to buy gasoline with an octane rating that is high enough to prevent (cont)

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 52 Federal Trade Commission Act

CFR Citation: 16 CFR 454, (New)

Abstract: The proposed rule addressed the advertising and labeling of protein

supplements in three ways. First, there were provisions designed to inform consumers of certain possible health hazards. Second, the rule would have prohibited certain false or deceptive claims. Third, the rule would have required a general disclosure in the advertising and labeling of these products that most Americans receive

all the protein they need from the food they eat. Adoption of the proposed rule may have benefitted the public by reducing the incidence of hazardous, false, or misleading representations concerning the composition, use, and effects of protein supplements. The cost to the public of adopting the rule would have included the cost of changing

labels and costs attributable to advertising disclosures. Large firms make most sales of protein supplements. However, a sizeable number of small firms also produce such products, and would have been subject to the rule. (cont)

CFR Citation: 16 CFR 455, (NEW)

Abstract: On September 14, 1983, pursuant to a joint stipulation between the Commission and the petitioners for review, the Second Circuit remanded

the rule to the Commission. (Miller Motor Car Corp. v. FTC, Nos. 81-4144 et al.) On July 10, 1984, the Commission tentatively adopted a rule that would require dealers to post a window form on used cars sold to consumers which discloses, in plain language, information concerning warranty coverage offered (if any), the meaning of an "As Is" sale (in which neither express warranties nor implied warranties are offered), and other important information. The form also informs consumers that oral promises are difficult to enforce and suggests that consumers ask about independent inspections. Alternatives that were considered included required inspections, voluntary inspections, and a requirement to disclose "known defects." The tentatively adopted rule was published for 30 days of technical comments and substantive comment on survey data that was included in the rulemaking record.

23. AMENDMENTS TO OCTANE POSTING AND CERTIFICATION RULE

Legal Authority: 15 USC 2801 et seq Petroleum Marketing Practices Act

CFR Citation: 16 CFR 306

Abstract: Title II of the Petroleum Marketing Practices Act ("PMPA", Pub. L. 95-297, June 19, 1978) required the Commission to promulgate a rule which establishes standard procedures for determining, certifying and posting, by means of a label on the fuel dispenser, the octane rating of automotive gasoline intended for sale to consumers. The Commission's rule was promulgated on March 30, 1979 and became effective on June 1, 1979. The rule is intended to enable consumers to buy a gasoline with an octane rating that is high enough to prevent inefficient and harmful "engine knock," and to avoid buying gasoline with an octane rating that is too high for their needs. Although compliance imposes costs on affected industry members, the rule's requirements parallel those in PMPA; therefore, the rule adds little, if any, additional cost. The rule requires refiners and importers to retain test records and distributors and retailers to retain octane certification records for one year, to facilitate tracing the source of inaccurate octane representations. While the Commission has attempted to minimize the burden on small business. the staff is considering (cont)

retain the records voluntarily. The rule may have a significant economic impact on a substantial number of small entities. The rule's octane posting requirements apply to all 180,000 retail gasoline dealers, and its certification requirements apply to approximately 20,000 wholesalers and distributors. Staff has determined that the recordkeeping requirements are not a

burden within the meaning of 5 CFR 1320.7(b)(1) implementing the Paperwork Reduction Act because the records are kept in the ordinary course of business to keep track of the source, amount, type, cost, and tax paid relative to gasoline transferred. Therefore, staff has concluded that no amendment to this rule is necessary.

49 CFR Ch. X

[Ex Parte No. 420 (Sub-No. 8)]

Semiannual Regulatory Agenda

AGENCY: Interstate Commerce Commission.

ACTION: Notice of semiannual regulatory agenda to be part of a Unified Agenda of Federal Regulations.

SUMMARY: Pursuant to OMB Bulletin No. 85-6, issued under section 6(b) of E.O. 12291 to implement the provisions of section 5 of the Executive Order concerning Regulatory Agendas, the Commission is publishing an agenda of (1) current and projected rulemakings, and (2) existing regulations being reviewed to determine whether to propose modifications through rulemaking. Listed below are the

regulatory actions to be developed or reviewed during the next 12 months. Following each rule identified is a brief description of the rule including its purpose and legal basis.

FOR FURTHER INFORMATION CONTACT: A contact person is identified for each of the rules listed below.

SUPPLEMENTARY INFORMATION: Two lists of proceedings appear below. The first contains information about subject areas in which the Commission is currently conducting rulemaking proceedings or may institute such proceedings in the near future. The second contains information about existing regulations being reviewed to determine whether to propose modifications through rulemaking.

The agenda identifies regulations likely to have a significant economic impact on a substantial number of "small entities." Accordingly, this information will satisfy the requirements

of section 602 of the Regulatory Flexibility Act, 5 U.S.C. 602.

Finally, this agenda will comprise part of a Unified Agenda of Federal Regulations compiled by the Office of Management and Budget which is to be published in a single issue of the Federal Register in April 1985. The purpose of the Unified Agenda is to provide the public with more comprehensive documentation of the Federal government's current regulatory plans, and to provide a systematic means of monitoring regulatory activity in each agency.

This notice is issued pursuant to 49 U.S.C. 10321 and 5 U.S.C. 553.

Decided: February 20, 1985.

By the Commission, Chairman Taylor, Vice Chairman Gradison, Commissioners Sterrett, Andre, Simmons, Lamboley, and Strenio. James H. Bayne, Secretary.

COSTING METHODOLOGIES FOR THE NORTHEAST CORRIDOR; COMMUTER SERVICE

Legal Authority: PL 97-35, Sec 1163(a) Northeast Rail Service Act of 1981

Abstract: These rules establish an appropriate costing methodology for compensating Amtrak for the use of its trackage in the Northeast Corridor and other areas by commuter rail passenger and freight services. It is based on an avoidable costing methodology concept.

Amtrak is treated as the dominant user and the other users of its properties as the minority users; this is for purposes of assigning joint costs. This proceeding is a continuing matter under the Northeast Rail Services Act of 1981; as such, completion dates are not pertinent.

REASONABLY EXPECTED COSTS

Legal Authority: 49 USC 10705a(b)(2) Staggers Rail Act of 1980

CFR Citation: 49 CFR 1129

Abstract: A railroad may impose a surcharge on traffic originating or terminating on certain light density lines. These surcharges may be applied without Commission interference unless the surcharge increases the carrier's share of joint-line revenues above 110 percent of variable cost plus 100 percent of the carrier's reasonably expected costs of continuing to operate the line itself; i.e., its on-branch costs. These rules establish the methodology for determining "reasonably expected costs." It will benefit the public by permitting shippers a mechanism to monitor and determine the appropriateness of a light density line surcharge. This proceeding is "open" pursuant to the Staggers Rail Act of 1980 and therefore, completion dates are not appropriate.

STANDARDS FOR DETERMINING RAIL SERVICE CONTINUATION

Legal Authority: 45 USC 715(d)(6) Regional Rail Reorganization Act of 1973; 49 USC 10362(b)(6) RR Revitalization & Reg. Reform Act of 1976

CFR Citation: 49 CFR 1125

Abstract: The standards define the terms "revenue attributable to the rail properties," the "avoidable costs of providing service," a "reasonable return on the value," and a "reasonable management fee." When a railroad receives Commission approval to abandon a portion of rail property because it is a burden on interstate commerce, a financially responsible person may offer an operating subsidy (i.e., a rail service continuation payment) to keep the rail line in operation. The standards establish a formula for calculating the estimated first year subsidy payment; the formula utilizes the terms defined above. This standard benefits the public by facilitating the continuation of essential freight service that would otherwise cease; it further provides a mechanism adequately compensating a carrier for the service provided. This proceeding is a continuing matter by statute based upon the Regional Rail Reorganization Act of 1973, modified by the Railroad Revitalization & Regulatory Reform Act of 1976; therefore, completion dates are inappropriate.

Abstract: The Commission is proposing a maximum rail rate policy applicable to captive coal traffic. Under the proposed "constrained market pricing" approach, rail carriers' pricing of market dominant coal traffic would be subject to four upward constraints. First, a coal shipper could not be charged more than the "stand-alone cost" of serving its traffic. Second. captive shippers would not be required to bear the cost of obvious management inefficiencies. Third, carriers which have adequate revenues, as we have defined them, would not be permitted to increase their rates on captive coal traffic. Finally, carriers would generally not be permitted to increase their rates on captive coal traffic by more than 15 percent in a single year (after allowing for inflation).

RAIL GENERAL EXEMPTION AUTHORITY - MISCELLANEOUS PROCESSED AND MANUFACTURED COMMODITIES

Priority: Agency Determination Legal Authority: 49 USC 10505 CFR Citation: 49 CFR 1039

Abstract: 49 USC 10505 requires that the Commission exempt from regulation the movement by rail of traffic for which it finds continued regulation no longer necessary to serve the Nation's transportation policy objectives and to protect shippers from abuse of market power by the railroads. In examining the transportation characteristics and markets of various commodities moying by rail, there appear to be many products for which sufficient competition exists among transportation alternatives so that regulation may no longer be necessary. Exemption of such commodities should provide increased rate and service flexibility for railroads to meet shippers' needs and to compete more effectively for the subject traffic. Anticipated benefits include lower rates and improved service, at a possible "cost" of increased price instability and competition to alternative transport firms.

Semiannual Regulatory Agenda

NCUA

NATIONAL CREDIT UNION ADMINISTRATION

12 CFR Ch. VII

Semiannual Agenda of Regulations

AGENCY: National Credit Union Administration (NCUA).

ACTION: Semiannual agenda of regulations.

SUMMARY: Pursuant to its ongoing policy of reviewing regulations, NCUA is publishing a list of current and projected rulemaking, reviews of existing regulations, and completed actions as of February 8, 1985. NCUA is also including this Agenda in the "Unified Agenda of Federal Regulations."

DATE: This information is current as of February 25, 1985.

Administration, 1776 G Street, N.W., Washington, D.C. 20456.

FOR FURTHER INFORMATION CONTACT: On a particular regulation, contact the person named in the listing for that regulation at the above address.

SUPPLEMENTARY INFORMATION: The purpose of this Agenda is to enable the credit union community and the public to track regulatory development and review at NCUA and to enable interested parties to more effectively participate in that process. The Agenda is divided into three parts describing, respectively, (1) current rulemaking proceedings and regulatory reviews, (2) projected rulemaking and reviews and (3) actions completed since the last Agenda.

The Agenda is published pursuant to the Regulatory Flexibility Act (5 U.S.C. 601 et seq.) and NCUA's statement of policy concerning development and review of regulations (IRPS 81-4, 46 FR 2948).

NCUA will voluntarily include this Agenda in the Office of Management and Budget's next publication of its "Unified Agenda of Federal Regulations." The NCUA Board believes that participation in this joint publication will further the public interest by including NCUA in a single source of information concerning current and projected rulemaking and reviews of existing regulations.

Accordingly, the following updates NCUA's last semiannual agenda.

Approved by the NCUA Board this 25th day of February 1985.

Rosemary Brady.

Secretary of the Board.

Legal Authority: 12 USC 1757(4); 12 USC

CFR Citation: 12 CFR 701.36

Abstract: This regulation requires credit unions to do certain financial planning and reporting prior to investing more than 5 percent of its assets in fixed assets. The regulation was revised to eliminate certain reporting requirements and to clarify and simplify others.

Section (c) of the rule imposes limitations on FCU's with \$1 million or more in assets investing in excess or 5% of shares and retained earnings in fixed assets. Other sections apply to all FCU's and restrict insider dealing and place limits on acquisition for future expansion.

Institutions Act of 1982 requires
updating of this rule. Corporate central
issues, such as chartering guidelines,
bylaws, and operational programs, have
been reviewed independent of this rule.
The rule grants authority to corporate
credit unions to develop new services
for member credit unions in the area of
investments, liquidity management,
payment system and corporate services.

Semiannual Regulatory Agenda

NUCLEAR REGULATORY COMMISSION

10 CFR Ch. I

Regulatory Agenda

AGENCY: Nuclear Regulatory Commission.

ACTION: Semiannual publication of NRC regulatory agenda.

SUMMARY: The Nuclear Regulatory
Commission (NRC) is publishing its
semiannual Regulatory Agenda in
accordance with Pub. L. 96-354, "the
Regulatory Flexibility Act," and
Executive Order 12291, "Federal
Regulations." The Agenda is a
compilation of all rules on which the
NRC has recently completed action or
has proposed, or is considering action.
This issuance updates any action
occurring on rules since publication of
the last semiannual Agenda on October
22, 1984 (49 FR 42478).

ADDRESSES: Comments on any rule in the Agenda may be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch. Comments may also be hand delivered to Room 1131, 1717 H Street, N.W., Washington, D.C. between 8:15 a.m. and 5:15 p.m. Comments received on rules for which the comment period has closed will be considered if it is practical to do so, but assurance of consideration cannot be given except as to comments received on or before the closure dates specified in the Agenda.

The Agenda and any comments received on any rule listed in the Agenda are available for public inspection, and copying at a cost of seven cents per page, at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20555. Single copies of the NRC Quarterly Agenda can be purchased from the NRC/GPO Sales Program, Division of Technical Information and Document Control, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 at a cost of \$6.00 each or \$16.00 for an annual subscription.

FOR FURTHER INFORMATION CONTACT:
For further information concerning NRC rulemaking procedures or the status of any rule listed in this Agenda, contact

John D. Philips, Chief, Rules and Procedures Branch, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Telephone (301) 492-7086. Persons outside the Washington, D.C. metropolitan area may call toll-free: (800) 368-5642. For further information on the substantive content of any rule listed in the Agenda, contact the individual listed under the heading "Agency Contact" for that rule.

SUPPLEMENTARY INFORMATION: Although publication of the Agenda is only required semiannually in April and October, the NRC has chosen to update and publish its Agenda each quarter. However, the information contained in this semiannual publication is updated to reflect any action which has occurred on rules since publication of the last NRC semiannual Agenda on October 22, 1984 (49 FR 42478).

Organization of the Agenda

Rules in this Agenda are divided into two main categories, "Action Completed Rules" and "Current and Projected Rulemakings." Rules in the "Action Completed" category include all rules which have been finally promulgated or withdrawn since publication of the last semiannual Agenda.

"Current and Projected Rulemakings" contain those rules currently under development. This category is subdivided into three sections. Section I includes all rules which have been published in the Federal Register as proposed rules. Section II includes all rules which have been published in the Federal Register as advance notices of proposed rulemaking. Section III includes all unpublished rules on which the NRC expects to take action.

Within each category and section, the rules are ordered from lowest to highest 10 CFR part, and when more than one rule appears under the same part, the rules are arranged within the part according to the date of most recent publication. If a rule contains changes to more than one 10 CFR part, the rule is listed under the lowest affected part.

The information in this Agenda has been updated through March 7, 1985. The date included under the heading "timetable," for next scheduled action indicates the date the rule is scheduled to be published in the Federal Register. The date is considered tentative and is not binding on the Commission or its

staff. This Regulatory Agenda is intended to provide increased notice and opportunity for public participation in the NRC rulemaking process. The NRC may, however, consider or act on any rulemaking even if it is not included in the Regulatory Agenda.

Rulemakings Approved by the Executive Director for Operations (EDO)

The Executive Director for Operations (EDO) initiated a procedure for the review of the regulations being prepared by staff offices that report to him to ensure that staff resources were being allocated to achieve most effectively NRC's regulatory priorities. This procedure requires EDO approval before staff resources may be expended on the development of any new rulemaking. Furthermore, all existing rules must receive EDO approval prior to the commitment of additional resources.

Rules that have received EDO approval to date are identified by the symbol (+) at the beginning of the title. As additional rules receive EDO approval, they will be identified in subsequent editions of this Agenda. Those unpublished rules whose further development has been terminated will be noted in this edition of the Agenda and deleted from subsequent editions. Rules whose termination was directed subsequent to publication of a notice of proposed rulemaking will be removed from the Agenda after publication of a notice of withdrawal.

The NRC Agenda lists 107 rulemaking actions. Of these, no rulemaking items are considered to be priority or major as defined in section 1(b) of Executive Order 12291. In the "Action Completed" category there are 22 completed actions. In the "Current and Projected Rulemaking" category: section I contains 36 proposed rulemakings; section II contains 10 advance notices of proposed rulemakings and section III contains 39 unpublished rulemakings. Nine rules potentially will have a "significant economic impact on a substantial number of small entities" as defined in the Regulatory Flexibility Act.

Dated at Bethesda, Maryland this 7th day of March 1985.

For the Nuclear Regulatory Commission. John Philips,

Acting Director, Division of Rules and Records, Office of Administration.

Current and Projected Rulemakings

PROPOSED RULES

1. PROCEDURES INVOLVING THE EQUAL ACCESS TO JUSTICE ACT: IMPLEMENTATION

Legal Authority: 5 USC 504

CFR Citation: 10 CFR 1; 10 CFR 2

Abstract: The proposed rule provides new provisions intended to implement the Equal Access to Justice Act (EAJA). The provisions would provide for the payment of fees and expenses to certain eligible individuals and businesses that prevail in adjudications with the agency when the agency's position is determined not to have been substantially justified. The basis for these proposed regulations is a set of model rules issued by the Administrative Conference of the United States (ACUS) that have been modified to conform to NRC's established rules of practice. The proposed rule would further the EAJA's intent by insuring the development of government-wide "uniform" agency regulations and by providing NRC procedures and requirements for the filing and disposition of EAIA applications. A final draft rule was sent to the Commission in June 1982, but Commission action has been suspended pending a decision by the Comptroller General on the availability of funds to pay awards to intervenor parties. The decision from the Comptroller General has been rendered and is currently being analyzed.

More recently than the actions just discussed, however, (cont)

2. LICENSING AND REGULATORY POLICY AND PROCEDURES FOR ENVIRONMENTAL PROTECTION; ALTERNATIVE SITE REVIEWS

Legal Authority: 42 USC 2201; 42 USC 4332; 42 USC 5841

CFR Citation: 10 CFR 2; 10 CFR 50; 10 CFR 51

Abstract: The proposed rule would focus on six major issues associated with alternative site selection for nuclear power plants; (1) information requirements, (2) timing, (3) region of interest, (4) selection of candidate sites, (5) comparison of the proposed sites with alternative sites, and (6) reopening of the alternative site decision. The proposed rule would provide procedures and performance criteria for reviewing alternative sites for nuclear power plants under the National Environmental Policy Act of 1969 (NEPA). The proposal is intended to stabilize alternative site review of a license application by codification of the lessons learned in past and recent review of nuclear power plant sites into an environmentally sensitive rule. The proposed rule would develop understandable written NRC review and decision making criteria to permit a rational and timely decision concerning the sufficiency of the alternative site analysis.

Alternatives to this rulemaking would include publishing a policy statement or regulatory guide or withdrawing the proposed rule. Each of these alternatives would be less efficient than completing the rulemaking. The provisions of the proposed (cont)

Confusion and controversy over this issue would be reduced. There would be no significant impact on costs other than savings that would result from greater certainty regarding the Commissions requirements. NRC resources necessary to complete this rulemaking are minimal. Approximately two-man months of staff time will be required to finalize this rule if the Commission decides to complete the rulemaking.

After considering the comments on the proposed rule, the Commission published a final rule on May 28, 1981 (46 FR 28630). That final rule addressed the sixth issue, reopening the construction permit or early site review stages insofar as it relates to operating license proceedings. Finalization of other portions of the proposed rule has been deferred until completion of a comprehensive review of radionuclide source terms from reactor accidents.

3. POSSIBLE AMENDMENTS TO "IMMEDIATE EFFECTIVENESS" RULES

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 2; 10 CFR 50

Abstract: The proposed rule indicates that the Commission is considering five alternative amendments to the "immediate effectiveness" rule for construction permit proceedings. Under the original "immediate effectiveness" rule (36 FR 828, January 19, 1971) construction of a nuclear power plant could begin on the basis of an initial decision by the Atomic Safety and Licensing Board (ASLB) even though that decision was subject to further review by the Commission. The Commission is concerned that the rule often prevented it from reviewing a case until construction was well underway and that this might have (1) allowed commitment of large sums of money to altering sites before a final decision was made on site-related issues and (2) promoted piecemeal review rather than promoting early resolution of all licensing issues to be considered. Present rules provide for limited review of ASLB decisions by the Atomic Safety and Licensing Appeal Board (ASLAB) and the Commission

prior to issuance of construction permits.

This proposed rule would help to determine whether NRC should return to the former "immediate effectiveness" rule or adopt one of the following alternatives:(1) require the ASLAB (cont)

The public comment period on the "Regulatory Reform Proposal Concerning the Rules of Practice and Rules for Licensing of Production and Utilization Facilities" (49 FR 14698) closed June 11, 1984. As a result of staff evaluation of these comments and further staff review of the "immediate effectiveness" issues, a rule is being proposed that will supersede this proposed rule and another entitled, "Commission Review Procedures for Power Reactor Construction Permits; Immediate Effectiveness Rule."

4. MODIFICATIONS TO THE NRC
HEARING PROCESS (LIMITED
INTERROGATORIES AND FACTUAL
BASIS FOR CONTENTIONS)

Legal Authority: 42 USC 2239

CFR Citation: 10 CFR 2

Abstract: The proposed rule would expedite conduct of NRC adjudicatory proceedings by requiring intervenors in formal NRC hearings to set forth the facts on which contentions are based

and the sources or documents used to establish those facts and limit the number of interrogatories that a party may file in an NRC proceeding. The proposed rule would expedite the hearing process by, among other things. requiring intervenors to set forth at the outset the facts upon which their contention is based and the supporting documentation to give other parties early notice of intervenor's case so as to afford opportunity for early dismissal of contentions where there is no factual dispute. Expediting the hearing process should ultimately provide cost savings to all participants in the process. The content of this rule is being considered as part of the regulatory reform rulemaking package. The package was published in the Federal Register on April 12, 1984 (49 FR 14698).

5. COMMISSION REVIEW PROCEDURES FOR POWER REACTOR CONSTRUCTION PERMITS; IMMEDIATE EFFECTIVENESS RULE

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 2

Abstract: The proposed rule would amend the immediate effectiveness rule with regard to rules of practice for granting a power reactor construction permit to conform to those for granting an operating license. It (1) would retain the requirement that the Commission conduct a limited review of an Atomic Safety and Licensing Board's decision to grant a construction permit pending completion of administrative appeals and (2) would delete the requirement that an Atomic Safety and Licensing Appeal Board conduct a similar review. The proposed rule would not affect the separate Appeal Board and Commission appellate reviews of the merits of Licensing Board decisions. It would reduce somewhat the time required for

administrative review of construction permit decisions while retaining direct Commission oversight prior to permit issuance.

The comment period closed November 24, 1982. Nine comments were received. Half of the comments favored the proposed rule while half opposed it. This proposed rule does not preclude further action on five alternatives for amending the "Immediate effectiveness" rule presented in an earlier notice on (cont)

6. HYBRID HEARING PROCEDURES FOR EXPANSIONS OF ONSITE SPENT FUEL STORAGE CAPACITY AT CIVILIAN NUCLEAR POWER REACTORS

Legal Authority: 42 USC 2201; 42 USC 2239

CFR Citation: 10 CFR 2; 10 CFR 72

Abstract: The proposed rule contains two options for implementing the hybrid hearing process in Section 134 of the Nuclear Waste Policy Act of 1982. That section sets forth a hybrid hearing process for certain contested proceedings on applications for a license or a license amendment to

expand the spent nuclear fuel storage capacity at the site of a civilian nuclear power reactor. Either version of the proposed rule would provide for an oral argument in the early stage of the hearing process and would designate only genuine and substantial issues for resolution in an adjudicatory hearing. Option 1 would add a new Subpart K to Part 2. Subpart K would require the use of hybrid procedures in all proceedings to which section 134 applies. It would also change the initial stages of the existing hearing process by allowing a person whose interest is affected to participate as a party and to obtain discovery without the need to plead contentions. Option 2 would permit the use of hybrid procedures at the request of any party to the proceeding. It would be implemented by means of an alternative form of summary disposition under a new Sec. 2.749a. (cont)

Additional Information: ABSTRACT CONT: In all other respects, the existing Part 2 procedures would apply. The Commission sought comments on both proposals to aid in its choice of procedures for the final rule.

The hybrid hearing procedures are intended to simplify and expedite the licensing process for spent fuel storage facility expansions and transshipments. The proposed rule is needed to permit full realization of those statutory purposes. Because section 134 applies by its terms to applications filed after January 7, 1983, a final rule should be developed as soon as practicable. There are no alternatives to rulemaking that would meet the statutory objectives. The rule will simplify and expedite the hearing process resulting in less costly and shorter hearings for license applicants, intervenors, the NRC staff, and the Licensing Boards. Members of the public who seek to participate in NRC licensing proceedings will have an opportunity to request an oral argument

but will be required to make a stronger showing of need in order to require that an adjudicatory hearing be held.

Legal Authority: 42 USC 2201; 42 USC 2231; 42 USC 2241; 42 USC 5841

CFR Citation: 10 CFR 2

Abstract: This proposed rule would amend the Commission's rules of practice by revising NRC procedures contained in Sections 2.804 and 2.805 to clarify the Commission's use of the exceptions to notice and comment rulemaking contained in the Administrative Procedure Act (5 U.S.C. 553(b)). Exception to notice and comment rulemaking may be applied (1) to interpretive rules, general statements of policy, or rules of agency organization, procedure, or practice (5 U.S.C. 553(b)(A)) or (2) when the agency for good cause finds that notice and comment are impracticable, unnecessary, or contrary to the public interest (5 U.S.C. 553(b)(B)). This clarification is necessary in light of the U.S. Court of Appeals for the District of Columbia decision in Union of Concerned Scientists v. Nuclear Regulatory Commission, No. 82-2000 (D.C. Cir. June 30, 1983) which vacated a Commission rulemaking on the **Environmental Qualification of** electrical equipment. The court held that by making the rule immediately effective, instead of providing for notice and comment, the NRC had among other things, violated 10 CFR 2.804 of the Commission regulations which the Court read as a requirement for notice and comment in all (cont)

8. NONDISCRIMINATION ON BASIS OF AGE IN FEDERALLY ASSISTED COMMISSION PROGRAMS

Legal Authority: 42 USC 6101 CFR Citation: 10 CFR 4

Abstract: The proposed rule would implement the provisions of the Age Discrimination Act of 1975, as amended. The proposed amendment makes it unlawful for any recipient of Federal financial assistance to discriminate on the basis of age in programs or activities receiving Federal financial assistance from the NRC. The Act also contains certain exceptions that permit, under limited circumstances, continued use of age distinctions or factors other than age that may have a disproportionate effect on the basis of age. The Act applies to persons of all ages. The proposed rule is necessary to comply with the Age Discrimination Act of 1975, which directs that all Federal agencies empowered to provide Federal financial assistance issue rules, regulations, and directives consistent with standards and procedures established by the Secretary of Health and Human Services (HHS). NRC's proposed and final regulations have been modeled after those HHS guidelines as published in 45 CFR 90. (cont)

Abstract: The proposed rule would add Subpart D to 10 CFR Part 9 to prescribe procedures with respect to the production of documents or disclosure of information in response to subpoenas or demands of courts or other judicial or quasi-judicial authorities in state and Federal proceedings. The proposed rule would clarify the procedures to be followed by Commission employees in responding to demands for testimony. information, or documents and would ensure that the responsibility for determining the response to the demands is placed on the appropriate Commission official.

10. REPORTS OF THEFT OR LOSS OF LICENSED MATERIAL

Legal Authority: 42 USC 2073

CFR Citation: 10 CFR 20

Abstract: The proposed rule would remove a discretionary clause that requires each NRC licensee to report a loss or theft of licensed material only when it appears to the licensee that the loss or theft would pose a substantial hazard to persons in an unrestricted area. The proposed rule would provide increased radiological safety to the public by requiring that all losses or thefts of licensed material be reported to the NRC if the loss exceeds the minimum quantity specified in the regulations. The estimated total annual cost to affected licensees is \$6,000, or approximately \$200 per license. The estimated cost to the NRC is \$2,000 annually.

Abstract: The proposed rule would exempt from licensing and regulatory requirements technetium-99 and low-enriched uranium as residual contamination in any smelted alloy. The proposed rule would remove the Commission's present specific licensing requirement that has the effect of inhibiting trade in and recycling of metal scrap contaminated with small amounts of these radioactive materials. This requirement also prevents recycling by the secondary metals industry of smelted alloys containing these two radioactive materials. The

NRC issued the proposed rule in response to a Department of Energy request. A draft environmental statement for this action has been prepared.

CFR Citation: 10 CFR 30; 10 CFR 40; 10 CFR 50; 10 CFR 51; 10 CFR 70; 10 CFR 72

Abstract: The advance notice of proposed rulemaking sought comment on a proposal to develop a more explicit policy for decommissioning nuclear facilities. The proposal would provide more specific guidance on decommissioning criteria for production and utilization facility licensees and byproduct, source, and special nuclear material licenses. This action is intended to protect public health and safety and to provide the applicant or licensee with appropriate regulatory guidance for implementing and accomplishing nuclear facility decommissioning. Although it is planned to provide additional guidance through regulatory guides, it is necessary to amend the regulations in order to achieve appropriate assurances that funds for decommissioning will be available.

The major cost impact of the proposed rule would involve proper planning at all stages of nuclear facility operation. Proper planning includes providing for (1) financial assurance that funding will be available for decommissioning, (2) maintenance of records that could

13. PATIENT DOSAGE MEASUREMENT

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 35

Abstract: The proposed rule would require that the activity of each radiopharmaceutical dosage be measured before it is administered to a patient. Each of NRC's specific medical licensees is currently required to perform these measurements by a license condition. This action is intended to ensure the consistent application of the requirement and to simplify licensing by replacing the individual license conditions with a single regulatory requirement that

would apply to all current and future medical licensees. Because, the only way to impose a requirement on all medical licensees is by license condition or regulation; no alternative action was considered. The proposed rule will require licensees to measure each dosage and make a record of each measurement. Because, the requirement is currently imposed by license condition, there will not be cost savings or additional burden; however, the industry and NRC will benefit by having a clear, concise requirement in the regulation. The proposed rule is being incorporated into a proposed revision of 10 CFR Part 35 (See RIN-3150-AA73 Medical Use of Byproduct Material).

Abstract: The NRC is amending its regulations in order to implement the provisions of the Convention on the Physical Protection of Nuclear Material. Since NRC is responding to implementing legislation enacted by Congress and signed by the President, no alternatives were considered. The proposed amendments would require (1) the physical protection of transient shipments of special nuclear material of moderate and low strategic significance and irradiated reactor fuel, (2) advance

notification to NRC concerning the export of Convention-defined nuclear materials, and (3) advance notification and assurance of protection to NRC concerning the importation of Convention- defined nuclear materials from countries that are not parties to the Convention, and (4) advance notification and assurance of protection concerning transient shipments of Convention-defined nuclear material shipped between countries that are not party to the Convention. The adoption of the proposed amendments would result in improved security for Convention-defined nuclear material during international transport. (cont)

CFR Citation: 10 CFR 40

Abstract: The proposed rule would revise the Nuclear Regulatory Commission's regulations governing the disposal of uranium mill tailings to conform them to regulations recently

published by the Environmental Protection Agency that set standards for protecting the environment from these wastes. The proposed rule would remove inconsistencies between NRC and EPA requirements and incorporate in NRC regulations the stability, radon release, and other provisions of the EPA standard not related to groundwater. This action is necessary to comply with provisions of the Uranium Mill Tailings Radiation Control Act and the NRC Authorization Act for FY 1983; therefore no alternatives to this action need to be considered. EPA has estimated that compliance with their recently published regulations would cost the uranium milling industry from about \$310 million to \$540 million to dispose of all existing tailings and tailings to be generated by the year 2000. This includes the costs of the groundwater protection provisions which are to be addressed in future NRC rule changes. The EPA regulations are binding on NRC licensees in the interim. Legal Authority: 42 USC 2201; 42 USC 5841; 42 USC 7901 Note

CFR Citation: 10 CFR 40

Abstract: The advance notice of proposed rulemaking seeks comment on NRC's tentative approach to making further amendments to its uranium mill tailings regulations. The contemplated

rulemaking proceeding is intended to incorporate groundwater provisions and other requirements established by the Environmental Protection Agency for similar hazardous wastes into NRC regulations. This action is necessary to make NRC regulations consistent with EPA standards as required by the Uranium Mill Tailings Radiation Control Act, and consequently no alternatives to this action need to be considered. Comments on the ANPRM will help define the nature and scope of the action. EPA has estimated that compliance with their groundwater standards and with the stability, radon release, and other requirements recently promulgated will cost the industry from about \$310 million to \$540 million for all tailings generated by the year 2000. The range depends on the eventual cost of groundwater protection for future tailings. The EPA regulations are binding on NRC licensees in the interim. NRC resources and schedules are still being developed.

17. TECHNICAL SPECIFICATIONS FOR NUCLEAR POWER REACTORS

Legal Authority: 42 USC 2201 CFR Citation: 10 CFR 50

Abstract: The proposed rule would amend current regulations pertaining to technical specifications for nuclear power reactors. Specifically, the proposed rule would (1) establish a standard for deciding which items derived from the safety analysis report must be incorporated into technical specifications, (2) modify the definitions of categories of technical specifications to focus more directly on reactor operations, (3) define a new category of

requirements that would be of lesser immediate significance to safety than technical specifications, and (4) establish appropriate conditions that must be met by licensees to make changes to the requirements in the new category without prior NRC approval.

The changes are needed because of disagreement among parties to proceedings as to what items should be included in technical specifications, and concern that the substantial growth in the volume of technical specifications may be diverting the attention of licensees from matters most important to the safe operation of the plant. Abstract: At a Commission meeting, October 17, 1984, the Commission directed the staff to draft a policy statement on programs for training and qualification in lieu of publishing this proposed "Fitness for Duty" rule and other proposed training and qualification amendments. On December 10, 1984, the NRC decided to separate the policy statement on fitness for duty from the policy statement on training and qualifications. Therefore, this proposed rule is being withdrawn. The policy is being established to allow power reactor applicants and licensees to develop and implement their own fitness-for-duty programs during a 2year period. Nothing in the policy statement limits NRC's authority or responsibility to follow up on operational events or its enforcement authority when regulatory requirements are not met.

The proposed rule would have required licensees to establish and implement controls to provide reasonable assurance that persons with unescorted and escorted access to vital areas of nuclear power plants are fit for duty. The Commission initiated the rule in response to concern by members of the public that nuclear power plant personnel, like airline pilots, should [cont]

CFR Citation: 10 CFR 50; 10 CFR 70; 10 CFR 73

Abstract: When the Commission approved the set of final physical protection requirements for fuel cycle facilities possessing formula quantities (five formula kilograms or more) of strategic special nuclear material (SSNM), they exempted nonpower reactors from these requirements and, instead specified a set of interim requirements. At that time the staff was directed to develop a set of permanent physical protection requirements for this class of nonpower reactors. This rulemaking is needed: (1) to replace current interim regulations and establish permanent physical security requirements for nonpower reactor licensees who possess a nonexempt formula quantity of SSNM, (2) to provide protection against insiders, and (3) to arrange for a response by local law enforcement or other agencies in time to prevent a theft of a formula quantity. The staff is using a performance-oriented regulatory approach which would give affected licensees flexibility in designing costeffective measures for implementing the requirements of the final rule by allowing licensees to take advantage of existing facility design features. Not more than three facilities are expected to have to implement these (cont)

20. CHANGES IN PROPERTY INSURANCE REQUIREMENTS FOR NRC LICENSED NUCLEAR POWER PLANTS

Legal Authority: 42 USC 2201 CFR Citation: 10 CFR 50

Abstract: An advance notice of proposed rulemaking requested comments on the Long Report (NUREG-0891) entitled "Nuclear Property Insurance: Status and Outlook," in order to determine the adequacy of the NRC's property insurance requirements. This report, prepared by Dr. John D. Long, Professor of Insurance at Indiana University, was written as an outgrowth of the Three Mile Island-2 accident after it became apparent that nuclear utilities may need more property insurance than has previously been required. Based on comments responding to the advance notice, the staff prepared a final rule for the Commission's approval. Upon review. the Commission directed the staff instead to develop a proposed rule that would increase the amount of insurance required and to evaluate the legal issues of Federal preemption of state prohibitions against utilities buying certain types of insurance and of a decontamination priority. The staff is

currently reviewing comment letters received in response to the recently published proposed rule.

Abstract: The proposed rule is being initiated by the Nuclear Regulatory Commission to establish requirements for long-term management of its review process for the imposition of new regulatory requirements on power reactors. More specifically, the objective of the rulemaking is to address "backfitting", a process which can include both plant specific changes and generic changes as applied to one or more classes of power reactors. this rulemaking would revise 10 CFR 50.54, 50.109, 2.204, and add a conforming amendment to Appendix O. The rule is intended to reduce costs of "backfitting" for licensees through better management of this review process.

Legal Authority: 42 USC 2201; PL 97-415 CFR Citation: 10 CFR 2; 10 CFR 50

Abstract: The NRC is publishing a single final rule that combines the proposed action of two interim final rules implementing, in part, PL 97-415. Modifications to the final rule are based on further staff review and evaluation of public comments received on the interim rules. The interim final rules were published April 6, 1983 (48 FR 14868). The two rules specify criteria for notice and public comment on, procedures for State consultation on, and standards for making determinations about whether amendments to operating licenses for certain facilities involve no significant hazards considerations. In addition, the rules specify procedures for consultation on these determinations with the State in which the facility of the licensee requesting the amendment is located. The rule permits the Commission to act expeditiously if circumstances surrounding a request for amendment require prompt response and to issue an amendment before holding any required hearing, unless a significant hazards consideration is involved.

Regarding costs for this rule, the NRC receives about 600 amendment requests each year, 98 percent of which are (cont)

Abstract: The Nuclear Regulatory Commission proposes to amend its regulations to (1) require each holder of and each applicant for a license to operate a commercial nuclear power plant to establish and use a systems approach in developing training programs and establishing qualifications requirements for civilian nuclear power plant operators, supervisors, technicians, and, as appropriate, operating personnel; (2) clarify the regulations for the issuance of licenses to operators and senior operators: (3) revise the requirements and scope of written examinations and operating tests for operators and senior operators; (4) codify procedures for the administration of requalification examinations; and (5) describe the form and content for operator license applications. The proposed rule is in response to Section 306 of the Nuclear Waste Policy Act of 1982. A regulatory analysis was performed which shows a

public risk reduction of 268,000 personrem at a cost of \$240.4 million dollars resulting in a value/impact ratio of 1,100 person/rem/ \$million. Coordinated industry objections to the rulemaking were the subject of a Commission meeting on (cont)

Additional Information: ABSTRACT CONT: April 9, 1984. Industry's proposal was for an NRC policy rather than a rule. At a Commission meeting, October 17, 1984, the Commission directed the staff to publish the portion of this proposed rule revising 10 CFR Part 55, "Operators' Licenses," and to draft a Policy Statement on programs for training and qualification of nuclear power plant personnel. The regulatory analysis is being revised to reflect only the costs and benefits of implementing the proposed revision to 10 CFR Part 55 and any significant comments received on the rule and analysis originally prepared. The Policy Statement would replace the portion of this rule adding requirements to 10 CFR Part 50 on training and qualification of plant personnel. The training programs are to be developed and implemented by industry during a two-year period. The policy statement will provide guidance regarding NRC's support of the industry-managed training accreditation program and stating NRC's continuing responsibility to independently evaluate applicant's and licensees' implementation of training improvement programs.

FOR NUCLEAR POWER PLANTS
(PART OF INSIDER PACKAGE)

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50; 10 CFR 73

Abstract: The proposed rule would require nuclear power plant licensees and applicants to establish an access authorization program for individuals requiring unescorted access to the protected and vital areas of nuclear power plants. These amendments represent the culmination of several years of development which included publication of an earlier proposed rule; public hearings; the establishment and recommendations of a Hearing Board; and establishment and recommendations of the NRC Safety/Safeguards Review Committee. Adoption of the amendments as currently proposed will result in increased assurance of the trustworthiness of licensee employees and contractor personnel. Each licensee will be required to submit for Commission approval an Access Authorization Plan which will consist of three major industry-run components: background investigation, psychological assessment, and continual behavioral observation programs.

Other alternatives considered were to maintain the status quo, endorse an ANSI Standard through an NRC Regulatory Guide, impose license conditions, and use staff position papers. The other alternatives were rejected because use of those approaches (cont)

25. PRESSURIZED THERMAL SHOCK

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would codify the NRC staff's recommended near-term actions for protection against pressurized thermal shock (PTS) events. Specifically, the provisions of the proposed rule would establish screening criteria for axial and circumferential welds; require licensees with operating plants to submit data concerning their reactor vessels to the NRC staff for review; require certain licensees to submit an analysis and schedule for implementation of flux-reduction programs; and require certain licensees with operating pressurized water reactors (PWRs) to submit a PTS safety analysis to the NRC staff for review. The issue of pressurized thermal shock arises because in PWRs, transients and accidents can occur that result in severe overcooling (thermal shock) of the reactor pressure vessel concurrent with, or followed by, repressurization. In these PTS events, rapid cooling of the reactor vessel internal surface results in thermal stress with a maximum tensile stress at the inside surface of the vessel. The provisions of the proposed rule would apply only to PWRs. The major considered alternative to the proposed rule was taking no action.(cont)

With the possible exception of a few plants where large flux reduction options may be initiated in the near future, the only significant costs will be future analysis costs for those few plants that are expected to approach

A cost analysis will be prepared for those plant after receipt of the plant specific analysis and the resulting determination of the particular corrective regulatory action necessary and expedient for the plant. It is anticipated that the value of such identified corrective actions will be large in comparison to the relatively low cost of performing the analyses necessary to identify those actions, and therefore the presently proposed rule is justified. An estimate of the cost for performing the plant- specific analyses by the staff is four staff-weeks time 10,000 for each evaluation.

26. PROTECTION OF CONTRACTOR EMPLOYEES

Legal Authority: 42 USC 2236; 42 USC 2282; 42 USC 5851

CFR Citation: 10 CFR 50

Abstract: The proposed rule would require 10 CFR Part 50 licensees, permittees, and applicants to ensure that procurement documents they issue or modify, specify that contractors and subcontractors post a notice to employees related to employee protection. The required notice would contain information notifying employees that an employer is prohibited from discriminating against an employee engaging in protected activities and that an employee may seek a remedy for prohibited discrimination by filing a complaint with the Department of Labor. The proposed amendment would affect licensees, permittees, applicants, and their contractors and subcontractors who are contractually responsible for construction of basic components or production and utilization facilities. Although there is no health and safety reason for addressing the issue, NRC is interested in protecting employees from discrimination. However, because Section 210 of the Energy Reorganization Act does not give the NRC direct authority over contractors and subcontractors and it clearly envisioned that the Department of Labor would be the principal agency in ensuring the rights of nuclear industry (cont)

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would amend the Commission's emergency planning regulations to reflect experience gained since 1980 and reorganize the emergency planning requirements for clarity. Research studies on reactor risk and practical emergency planning experience have led to a refined portrayal of reactor risks and consequences. The proposed rule would require a graduated emergency response capability to reflect a more realistic program for dealing with radiological emergencies at nuclear power plants.

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would require that non-power reactors use only low-enriched uranium fuel (LEU), with certain exceptions. The proposed rule is intended to reduce the highenriched uranium fuel (HEU) in the United States and thereby reduce the potential for theft or diversion. The majority of licensees affected by the proposed rule would be universities operating research and training reactors. To date, four of the 25 affected universities have made the decision to curtail the operation of their research/training reactors. Delay in the implementation of the proposed rule could have an adverse impact on the remaining affected licensees and their decisions regarding continuance or discontinuance of their respective reactor operations.

Other alternatives that have been and will continue to be considered include retaining the status quo and leaving the highly enriched uranium in place while upgrading security over the life of the facility.

The estimated identified and quantifiable costs to the affected licensees range between \$9-12 million. In addition, there will be other identifiable costs that are difficult to assess (cont)

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would consider the need to take into account the complicating effects of earthquakes on emergency preparedness. Existing regulations require that nuclear power plants be designed to safely shut down for most earthquakes. The probability of earthquakes large enough to cause major onsite damage that would result in a significant radiological release from the plant is low; and for large earthquakes, offsite damage could make prior offsite emergency plans premised on normal conditions marginally useful.

One alternative to the proposed rule change would be not to require that the emergency plans specifically address the impact of earthquakes. The staff believes this to be an inappropriate alternative because of the flexibility of existing emergency plans as well as the very low probability of the occurrence of an earthquake of substantial magnitude and a radiological release from the plant. Another alternative would be to adjudicate the issue on a case-by-case basis. The staff believes this to be an inappropriate alternative because it would be extremely time consuming and at the same time would necessitate the unwarranted

30. EXPLANATION TO TABLE S-3 URANIUM FUEL CYCLE ENVIRONMENTAL DATA

Legal Authority: 42 USC 2011; 42 USC 4321

CFR Citation: 10 CFR 51

Abstract: The proposed rule provides a narrative explanation of the numerical values established in Table S-3, "Table of Uranium Fuel Cycle Environmental Data," that appears in the Commission's environmental protection regulations. The proposed rule describes the basis for the values contained in Table S-3, the significance of the uranium fuel cycle data in the table, and the conditions governing the use of the table. The narrative explanation also addresses important fuel cycle impacts (e.g., environmental dose commitments, health effects, socioeconomic impacts) and the cumulative impacts of the nuclear fuel cycle for the whole nuclear power industry so that it may be possible to consider these impacts generically rather than repeatedly in individual licensing proceedings. The proposed rule was published for public review and comment in 1981 (46 FR 15154, March 4, 1981) but the final rulemaking was deferred pending the outcome of a suit (Natural Resources Defense Council, et al. v. NRC, No. 74-1486) in the U.S. Court of Appeals. The U.S. Court of Appeals (D.C. Circuit) decision on April 27,1982 invalidated the entire Table S-3 rule. Abstract: The Nuclear Regulatory Commission (NRC) is publishing amendments related to the disposal of high-level radioactive wastes in geologic repositories within the unsaturated zone. These amendments, in addition to the existing provisions of 10 CFR Part 60 would ensure that the regulations will apply in an appropriate manner to geologic media within either the saturated or the unsaturated hydrogeologic zone. This action is necessary to ensure that the NRC regulations address considerations relevant to all geologic repositories. whether sited in the saturated or the unsaturated zone. The major benefit of the final amendments would be to provide NRC with the maximum flexibility with respect to reviewing license applications for high-level radioactive waste disposal. The cost to NRC would be approximately 1.0 staff

CFR Citation: 10 CFR 60

Abstract: The proposed rule would revise procedures regarding NRC reviews of license applications for disposal of high-level radioactive wastes in geologic repositories. The procedures are being revised principally to conform to the provisions of the Nuclear Waste Policy Act of 1982. Specifically, the proposed rule would clarify that NRC begins its review in this licensing process after DOE provides NRC a site characterization plan and that usual rules of practice apply to licensing of these repositories. It would also provide that the NRC may publish a notice of receipt of a site characterization plan and a notice inviting comments on its analysis of a plan.

The proposed rule would also change some of the procedures for the participation of States and Indian tribes in the licensing process. Without the proposed rule, there would be major incongruities between the Nuclear Waste Policy Act and 10 CFR Part 60. Alternatives to the proposed rule would be changing the Nuclear Waste Policy Act or doing nothing and allowing incongruities to exist, with subsequent risk of litigation against NRC.(cont)

This should not result in any additional costs or expenditures of resources on the part of the public, NRC, or the nuclear waste management system. The public, and especially States and Indian tribes, will benefit from increased clarity in procedures for licensing.

33. MATERIAL CONTROL AND ACCOUNTING REQUIREMENTS FOR LICENSEES POSSESSING FORMULA QUANTITIES OF STRATEGIC SPECIAL NUCLEAR MATERIAL

Legal Authority: 42 USC 2201; 42 USC

CFR Citation: 10 CFR 70

Abstract: The proposed rulemaking would replace existing material control and accounting (MC&A) requirements for fuel cycle facilities that are authorized to possess and use formula quantities of strategic special nuclear material (SSNM).

It would establish a performance oriented regulation that emphasizes timely detection of formula quantity SSNM losses and provides for more conclusive resolution of discrepancies than is currently achievable. Experience with existing regulations has demonstrated weaknesses in the area of alarm resolution principally because of a lack of timely detection of anomalies and poor loss localization capabilities. The rulemaking would alleviate these liabilities by requiring tests on a more timely basis on small plant subdivisions.

An alternative to the rule would be to implement the concepts through license amendments for the four involved licensees; however, such an action would be inconsistent with the Administrative Procedures Act and the direction provided in NRC's Policy and Program Guidance document. The protection of the public health and safety will be enhanced through earlier (cont)

34. MISCELLANEOUS AMENDMENTS CONCERNING PHYSICAL PROTECTION OF NUCLEAR POWER PLANTS (PART OF INSIDER RULE PACKAGE)

Legal Authority: 42 USC 2101; 42 USC

CFR Citation: 10 CFR 73

Abstract: The proposed rule would require in Nuclear Power Plants (1) the designation of vital areas (to allow vital islands), (2) access controls to vital islands, (3) the protection of certain physical security equipment, (4) revised requirements for key and lock controls, and (5) revised searches of handcarried items at protected area entry points. The requirements will clarify policy in these areas and reduce unnecessary burden on the industry while maintaining plant protection. This rule is a revision of the proposed rule entitled "Access Controls to Nuclear Power Plant Vital Areas." Initial development of a final rule produced significant changes, particularly the criteria for personnel access controls to vital areas, resulting in the need to publish a revised proposed rule. This proposed rule and the other components of the insider rule package were reviewed by the NRC Safety/Safeguards Review Committee which considered a number of alternative approaches to vital island configurations and provided recommendations that are reflected in the proposed rule.

Since requirements for protecting vital areas have been in effect for some time, and modifications to those (cont)

35. MODIFICATION OF PROTECTION REQUIREMENTS FOR SPENT FUEL SHIPMENTS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 73

Abstract: The proposed rule would moderate the present interim requirements for the protection of shipments of irradiated reactor fuel cooled for 150 days or more. Recent research shows that the quantity of radioactive material that would be released as a result of successful sabotage is much smaller than was supposed at the time that the interim rule was issued. The alternatives considered during the development of the proposal were: (1) let the current interim requirements continue in force: (2) moderate the current requirements; and (3) eliminate all interim requirements. The alternative of moderating the requirements was selected because the moderated requirements would provide for (1) shipments to be accompanied by an unarmed escort, who may be driver or carrier employee and may have other duties, (2) on-board communications, and (3) immobilization capability for trucked shipments. Present interim requirements will continue to be effective for shipments of irradiated reactor fuel cooled less than 150 days. The benefit of the proposed rule would be the elimination of unnecessarily strict requirements which presently apply to spent fuel shipments. It is estimated that the (cont)

36. SEARCHES OF INDIVIDUALS AT POWER REACTOR FACILITIES (PART OF INSIDER PACKAGE)

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 73

Abstract: The proposed rule would revise the search requirements for individuals entering the protected area of nuclear power plants. Under the proposed requirements, all persons would be subject to equipment searches for firearms, explosives and incendiary devices. Physical searches would be required only when search equipment is not working properly or when the licensee suspects that an individual is attempting to carry into the plant prohibited devices or material. Random searches were considered as an alternative, but were dismissed as being possibly disruptive. Since licensees already possess the necessary equipment, this rule will affect only licensee procedures at negligible additional cost.

Since requirements for searches have been in effect for some time, and modifications to those requirements are needed, alternatives to this rulemaking such as revised guidance would be inappropriate in that they would not carry the force of a regulation. (cont)

37. REGULATORY REFORM OF THE RULES OF PRACTICE AND RULES FOR LICENSING OF PRODUCTION AND UTILIZATION FACILITIES

Legal Authority: 42 USC 2201; 42 USC 2231; 42 USC 5841; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 2; 10 CFR 50

Abstract: This proposed rule would amend thirty-three sections of two parts affecting the hearing process associated with the issuance of all NRC licenses. Streamlining the hearing process would ultimately provide cost savings to all participants in the process. However, intervenors may initially be required to provide more information than is now required at some added expense.

In the screening process, the most significant changes would (1) establish a screening Atomic Safety and Licensing Board (ASLB) to act as a clearing house for all requests for hearings, petitions for leave to intervene, and proposed contentions, (2) require a participant in a hearing to show that he or she has an interest to protect in the proceeding, and (3) require evidence of a factual dispute for a contention to be admitted.

During the conduct of hearings, the most significant changes would (1) not hear discovery requests requiring the staff to support positions other than its own. (2) permit the ASLB to decide the case on the basis of written material, (3) permit the ASLB to appoint a panel of technical experts if needed, (cont)

During the decision-making process, the most significant changes would (1) remove the ASLB as an independent appeal board but place it organizationally directly under the Commission to review, as before, ASLB decisions, and give its recommendations to the Commission, (2) allow and generic issue resolved in an initial licensing proceeding to be codified, allowing a 45 day comment period (3) allow an intervenor to participate in discussing only those items he or she introduced, and (4) reinstate the immediate effectiveness of an ASLB decision on an operating license, construction permit, or work authorization. The proposals, submitted by the Commission's Regulatory Reform Task Force suggest ways to improve the reactor licensing process.

Legal Authority: 42 USC 2201; 42 USC 2231

CFR Citation: 10 CFR 2

Abstract: The role of the NRC staff in initial proceedings was among the issues discussed in an enclosure to a January 2, 1985, memorandum to the

Chairman of the House Subcommittee on Energy and Water Development from Chairman Palladino. This discussion stated that the Commission has decided that the NRC's role in these proceedings should not be changed. Therefore, the action proposed by this advance notice of proposed rulemaking will be terminated. The Commission is considering amending its Rules of Practice concerning what role the NRC staff should have in adjudicatory licensing hearings to most effectively contribute to the protection of the public health and safety. This notice invites public comments and suggestions on four options and related questions, briefly described below. Option 1 would limit staff participation in contested initial licensing proceedings to only those controverted factual issues it disagrees with on a technical basis or rationale. This option is similar to the proposal of a Part 2 unpublished rule (3150-AB08). "Participation of the NRC Staff in Initial Licensing Proceedings," published in NRC's October-December 1984 agenda. Option 4 would expand public involvement in the prehearing stage of initial licensing proceedings, and this option could be used in conjunction with any of the first three options. The staff would subsequently address each substantive issue raised in the Safety Evaluation Report.

Alternatives to rulemaking could include a policy statement or no action, depending on the option chosen. The possible means of addressing this issue through rulemaking are discussed above. CFR Citation: 10 CFR 20

Abstract: Radiation protection philosophy and technology have changed markedly since the present Part 20 was promulgated nearly thirty years ago. Since Part 20 contains the NRC standards for protection against radiation which are used by all licensees and affects exposures of workers and members of the public, it should be the most basic of the NRC regulations. However, because the present Part 20 has become outdated. most radiation protection actions occur through licensing actions independent of Part 20. A complete revision is necessary to provide better assurance of protection against radiation: establish a clear health protection basis for the limits; reflect current information on health risk, dosimetry, and radiation protection practices and experience; provide NRC with a health protection base from which it may consider other regulatory actions taken to protect public health; be consistent with recommendations of world authorities (ICRP); and apply to all licensees in a consistent manner.

Alternatives to the complete revision considered were no action; delay for further guidance; and partial revision of the standards. They were rejected as ignoring scientific (cont)

Benefits would include updating the regulations to reflect contemporary scientific knowledge and radiation protection philosophy; implementing regulations which reflect the ICRP risk-based rationale; reducing lifetime doses to individuals receiving highest exposures; implementing provisions for summation of doses from internal and external exposures; providing clearly identified dose limits for the public; providing understandable health-risk base for protection; and placing constraints on collective dose evaluations at levels where risks are trifles.

Initial estimates of the cost of implementing the revision is about \$23 million the initial year and about \$7 million in subsequent years. This cost does not include any savings which might also be realized by the revision.

CFR Citation: 10 CFR 20

Abstract: The notice of proposed rulemaking seeks comment on a proposal to add amendments to 10 CFR Part 20 that would improve the accuracy and consistency of reported occupational radiation dose measurement by requiring proficiency tests of dosimetry processors who perform dosimetry for NRC licensees.

The proposed amendments would require NRC licensees to have personnel dosimeters (devices carried or worn by each radiation worker to measure radiation exposure received during work) processed by a dosimetry service that is accredited by NBS/NVLAP. The Commission considered five alternatives for establishing a regulatory program intended to improve personnel dosimetry processing. These alternatives included: no change in current requirements; requiring licensees to participate in performance testing without specifying a testing laboratory; requiring licensees to participate in performance testing conducted by an NRC-specified testing laboratory; a request from Congress for the authority for NRC to license personnel dosimetry processors directly; and requiring licensees to obtain dosimetry services from an NRCoperated or contracted dosimetry service. An evaluation of estimated annual costs to the dosimetry processing industry resulting from an NRC rule requiring licensees to utilize dosimetry processors accredited under an NBS/NVLAP program was projected to be about \$717,000. This would result in an estimated net annual increase in the cost of providing monitoring for each worker per year of \$0.51, a 2.1% annual increase. The major benefit of the proposed rule would be increased accuracy and reliability of dose measurement to workers in licensed installations. Other benefits include continued assurance of personnel dosimeter processor competence with minimal NRC staff and resource

allocation; formulation of a program that can easily be utilized by other agencies; value to the industrial licensee through legal credibility of a nationally-recognized accreditation program; and value to the worker through more accurate assignment of dose. The staff is currently analyzing the comments received on the NPRM.

41. EMERGENCY PREPAREDNESS FOR FUEL CYCLE AND OTHER RADIOACTIVE MATERIALS LICENSEES

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 30; 10 CFR 40; 10 CFR 70; 10 CFR 72

Abstract: The proposed rule would require about 130 fuel cycle and other radioactive materials licensees to submit an emergency plan that would among other actions, require the notification of local authorities in case of an accident and that the ligensee recommend protective actions for the public. The proposed rule is intended to further protect the public from accidental exposure to radiation. The affected licensees are those whose possession limits indicate the potential for an accident that could deliver a radiation dose offsite exceeding one rem effective dose equivalent or 5 rems to the thyroid or could cause a soluble uranium inhalation of 9 milligrams (a chemical toxicity hazard).

Based on preliminary data contained in the draft regulatory analysis for this proposed rule, the costs of emergency preparedness are expected to exceed the benefits in terms of protecting public health and safety. However, the proposed requirements may be justifiable in terms of the intangible benefit of being able to reassure the public that if an accident does occur, they will be warned and told what to do to protect themselves.

Radiography licensees account for over 60 percent of the reported overexposures greater than five rems to the whole body. NRC regulations permit industrial radiographers to perform radiography independently. The NRC grants radiography licensees the authority to train and designate individuals competent to act as radiographers. The advance notice of proposed rulemaking sought comment on a proposal that would enable NRC to verify the effectiveness of this training, thereby assuring that all radiographers possess adequate training and experience to operate radiographic equipment safely.

Following a series of public meetings, many comments were received. The thrust of the comments was that current training programs and examination procedures administered by licensees were adequate for determining the competence of individuals to be industrial radiographers. Abstract: The advance notice of proposed rulemaking seeks comment on several questions concerning the acceptance criteria for Emergency Core Cooling Systems (ECCS) in light-watercooled nuclear power plants. Specifically, some of the questions to be commented on are (1) under what circumstances should corrections to ECCS models be used during licensing reviews without necessitating complete reanalysis of a given plant or an entire group of plants; (2) what would be the impact of the proposed procedureoriented and certain specific technical rule changes; and (3) how should safety margins be quantified. The Commission is considering changing certain technical and nontechnical requirements within the existing ECCS rule. The technical changes would include consideration of new research information. The nontechnical changes would be procedure-oriented and would, among other things, allow for corrections to be made to vendor ECCS analysis codes during the construction

review and during construction of the plant. (cont)

44. DESIGN AND OTHER CHANGES IN NUCLEAR POWER PLANT FACILITIES AFTER ISSUANCE OF CONSTRUCTION PERMIT

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 50

Abstract: The proposed rule will prescribe improved approaches for reducing and better controlling the level of change in reactor design and construction. These approaches will be based on recommendations found in NUREG-1055, "Improving Quality and the Assurance of Quality in the Design and Construction of Nuclear Power Plants" (QA Report), which the NRC submitted to Congress in April 1984. The QA Report, prepared by the NRC's Office of Inspection and Enforcement (IE), cited deficiencies in the management of design changes as a key factor contributing to significant quality problems in reactor design and construction that have occurred in the past several years. The QA Report recommended that the NRC consider requiring more complete designs prior to the beginning of construction and the adoption, as a discipline, of change management (known generically as

configuration management) as approaches to overcoming the design management deficiencies. Since this rulemaking deals with issues closely related to design completion and control of changes, responsibility for this rulemaking was transferred from the NRC's Office of Nuclear Regulatory Research to IE in September 1984.(cont)

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2232; 42 USC 5842

CFR Citation: 10 CFR 50; 10 CFR 51; 10 CFR 100

Abstract: This rulemaking is intended to review and revise the Commission's siting regulations to reflect experience gained since the Commission's current reactor siting regulations were published on April 12, 1962 (27 FR 3509). Many developments in this period including work to establish a Commission safety goal and the review of reactor accident source terms, have brought into the question both the existing regulations and their technical support. This rulemaking will resolve those questions. In the present circumstances a lack of applications for new plants argue that these changes are not needed. However, the new information that is now available and

the lead time between the decision to site and the time when a reactor begins producing power commercially make it prudent for the Commission to address these changes in a timely manner. The alternatives to rulemaking in this case are restricted to no action. If action is taken based on the new and more reliable data now becoming available, the regulations themselves must be changed. Intermediate remedies such as policy statements and regulatory guides would not have adequate authority to supplant existing regulations. (cont)

A proposed rule will be structured to achieve resolution of these comments and reflect recent information from the reactor accident source term review and the trial implementation period for the Safety Goal. These revised regulations will make the siting and review of power reactor sites more predictable through application of clearer requirements. There is no indication that the criteria would increase costs or have a significant adverse affect on safety. On the contrary clear requirements will allow for more informed and more efficient siting decisions. This rulemaking would require additional NRC resources of approximately two man years and minimal contract support. This rulemaking is presently in hold pending completion of the reactor accident source term review. A schedule for resumption of this activity is to be presented to the Commission in March.

Abstract: The advance notice of proposed rulemaking was published to solicit public comment on the need for a reassessment of the Commission's criteria for the siting of nuclear power plants. The Commission determined that this action was necessary as a result of experience gained with application of current criteria and the rapid advancement in the state of the art of earth sciences. The NRC staff was particularly interested in finding out about problems that have arisen in the application of existing siting criteria. The public was invited to state the nature of the problems encountered and describe them in detail. The public was also asked to submit proposed corrective actions. Two petitions for rulemaking filed with the Commission, PRM-50-20 and PRM-100-2 will be addressed as part of this rulemaking.

47. REVISED RULES OF PRACTICE FOR DOMESTIC LICENSING PROCEEDINGS

Legal Authority: 42 USC 2201; 42 USC 2231; 42 USC 2241; 42 USC 5841; 5 USC 552

CFR Citation: 10 CFR 0; 10 CFR 1; 10 CFR 2; 10 CFR 9; 10 CFR 50

Abstract: The Nuclear Regulatory
Commission is proposing an
amendment that would revise its
procedural rules governing the conduct
of all adjudicatory proceedings, with
the exception of export licensing
proceedings. The proposed rule would
comprehensively restate current
practice, retitle the hearing office, and
revise and reorganize the Commission's
procedural rules. The changes set out in
this proposed rule are intended to
enable the Commission to render

decisions in a more timely fashion and reduce the burden and expense to the parties participating in the proceedings.

48. JURISDICTION OF ADJUDICATORY BOARDS

Legal Authority: 42 USC 2201; 42 USC 2241

CFR Citation: 10 CFR 1; 10 CFR 2

Abstract: The final rule would amend the Statement of Organization and Rules of Practice to make explicit the jurisdiction of NRC's adjudicatory boards in certain ancillary licensing matters which may arise in the course of an operating license proceeding for a nuclear power reactor. The amendments clarify the board's authority to decide issues related to a license application for the receipt of cold fuel at a reactor site prior to issuance of an operating license.

This proposed rulemaking would reduce NRC costs by eliminating the requirement that a separate adjudicatory board reconvene to rule on whether an applicant may receive cold fuel. This action would, thereby, provide the licensee a slight time savings in obtaining an operating license.

49. SEPARATION OF FUNCTIONS AND EX PARTE COMMUNICATIONS IN ON-THE-RECORD ADJUDICATIONS

Legal Authority: 5 USC 554; 5 USC 557

CFR Citation: 10 CFR 2

Abstract: The proposed rule would amend the Commission's rules of practice regarding the separation of functions and ex-parte communications in on-the-record adjudications. The proposed rule would allow the Commission greater flexibility in communicating with its staff by relaxing the restrictions on Commission-staff communications in initial licensing cases. The proposal would permit Commissioners to consult with staff members who were not personally involved in the proceeding and who did not consult privately with interested persons outside the agency. The proposed rule is intended to provide the Commission with better access to the expertise of its staff. It would conform the Commission's rules to those of the Administrative Procedures Act. It would also supersede a prior proposed rule entitled "Ex Parte Communications and Separation of Adjudicatory and Non-Adjudicatory Functions" published in the Federal Register on March 7, 1979 (44 FR 12428).

The issues encompassed in this rule were considered in the "Regulatory Reform Proposal Concerning the Rules of Practice and Rules for Licensing of Production and Utilization Facilities" (49 FR 14698). As a result of staff evaluation of comments (cont)

Abstract: The proposed rule will revise existing regulations to cover specific licensing requirements for the storage of spent nuclear fuel and high-level radioactive waste in a monitored retrievable storage installation (MRS). This revision, required by the Nuclear Waste Policy Act, is intended to ensure that the Commission has in place the appropriate regulations to fulfill the requirements contained in the Nuclear Waste Policy Act of 1982 concerning the licensing of facilities which could be part of the MRS program. Paragraph (2) of Section 141 of the NWPA provides that any monitored retrievable storage installation pursuant to Section 141 shall be subject to licensing by the Commission. The Commission could await further development of the MRS option before proposing its MRS rules. However, this approach could result in unnecessary delay in reviewing a license application if congress authorizes construction of an MRS. The Department of Energy (DOE) is required to complete a detailed study of the need for and feasibility of a MRS installation. In a proposal to be submitted to Congress on or before June 1, 1985, DOE must include the establishment of a federal program (cont)

CFR Citation: 10 CFR 4; 10 CFR 11; 10 CFR 21; 10 CFR 25; 10 CFR 30; 10 CFR 31; 10 CFR 32; 10 CFR 34; 10 CFR 35; 10 CFR 40; 10 CFR 50; 10 CFR 60; 10 CFR 61; 10 CFR 70; 10 CFR 71; ...

Abstract: This proposed rule would establish a specific retention period for certain NRC-required records. It would also provide a uniform standard acceptable to the NRC for the condition of a record throughout a specified retention period. Further, the rule would establish throughout NRC regulations, with some exceptions, uniform retention periods of three years, five years, ten years, and the life of a license. This rule would bring NRC regulations into compliance with the Office of Management and Budget's (OMB) regulation (5 CFR 1320.6) that requires a specified retention period for each required record. It also implements NRC's 1982 commitment to OMB to establish a record retention period of determinable length for each required record. Amending twenty-one parts of NRC regulations to specify clearly what records to retain, how long to retain them, and the condition of a record useful for NRC inspection, will be mutually beneficial to applicants and licensees and to the NRC Recordkeeping labor for NRC's approximately 6,700 licensees who would be affected by the rule can be divided into four functions: (1) preparing the report, (2) storing the report, (3) maintaining the report (cont)

An estimated 466,323 hours associated with recordkeeping or \$28,000,000 annually would be saved. Preparing and publishing this rule would cost NRC approximately 500 hours of staff time at \$60 per hour for an estimated total of \$30,000.

Legal Authority: 42 USC 2201; 42 USC 5841

Abstract: The proposed rule would establish residual radioactive contamination limits that must be met before buildings, structures, equipment, materials, and lands may be released for use on an unrestricted basis. Licensed facilities with residual levels of radioactive contamination below these limits would be eligible for unrestricted release and termination of the license. The proposed amendments are necessary to provide licensees with quantitative criteria to use in the decommissioning and cleanup of buildings, structures, equipment, materials, and lands used in NRC licensed activities. The primary alternative to rulemaking is to continue case-by-case evaluations based on regulatory guides until such time as EPA may establish such standards. The proposed rule is intended to ensure that buildings, structures, equipment, materials, and lands used in NRC licensed activities will be decommissioned and decontaminated in a consistent manner that protects public health. The cost analysis for this proposal is being completed.

Legal Authority: 42 USC 2201; 42 USC 2282; 42 USC 5841; 42 USC 5846

CFR Citation: 10 CFR 21; 10 CFR 50

Abstract: This proposed rule would amend Part 21 and Sec. 50.55(e) of Part 50, both of which require the reporting of safety defects by licensees. This effort was prompted by TMI Action Plan Task II, J. 4 and has as its main objectives: (1) elimination of duplicate reporting among all requirements, (2) consistent reporting among all reporting requirements. (3) establishment of uniform and clear definitions for defects which need to be reported, (4) establishment of uniform time limits within which a defect must be reported and evaluated and, (5) establishment of a uniform format for reporting of defects. Approximately 300 and 5000 reports are issued annually under Part 21 and Sec. 50.55(e) respectively. The reports identify plant specific safety concerns and potential generic safety concerns for further NRC followup. These reports form the basis for numerous NRC bulletins and information notices. This proposed rulemaking will reduce the potential for duplicate reporting and evaluation that now exists and will establish a more coherent regulatory framework that is expected to reduce industry and NRC burden in this area without sacrificing safety effectiveness. Current costs of reporting under Part 21 and 50.55(e) are estimated at \$5,000,000 annually for industry and \$2,600,000 annually for NRC evaluations. It is anticipated that industry reporting burden with the proposed rulemaking will be reduced by 231,750 hours or \$2,484,000 while NRC burden should be reduced by 10,950 hours or \$657,000. Additional burden to industry and NRC, while minimal, is anticipated in the areas of adherence to time schedules and enforcement, respectively.

Legal Authority: 42 USC 2165; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 25; 10 CFR 95

Abstract: The proposed rule would incorporate a recently approved exception to the personnel security background investigation requirement for access to Communications Security (COMSEC) information, provide a procedure for affected licensees to obtain NRC approval for any substantive changes a licensee may contemplate making to the approved security plan, and adopt various ministerial revisions to bring certain provisions in conformance with current policy, practice, and procedure. These amendments are necessary to incorporate experience gained under the current regulations and implement an exception to current policy recently approved by the National Communications Security Committee.

Because this rulemaking would apply only to those licensees and others who need to use, process, store, reproduce or otherwise handle classified information, it is expected that this rulemaking would have a negligent effect upon the general public. These amendments are viewed as regulatory improvements, benefitting the NRC licensees. NRC staff resources should total about 400 hours.

manufacturers or distributors of sealed sources or devices to provide the NRC with information on such products relating to design, manufacture, testing, operation, safety and hazards as a condition for obtaining a license.If the proposed requirements were applied to the 800 material license applications and amendments reviewed in 1982 as a statistical base, total costs to suppliers would rise from \$148,025 under the current voluntary program to \$152,950. At the same time, the proposed rule would eliminate the \$48,000 cost to material licensees of preparing 800 license amendments.

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 30; 10 CFR 40; 10 CFR 61; 10 CFR 70; 10 CFR 72

Abstract: The advance notice of proposed rulemaking (ANPRM) seeks comments on the advisability of having NRC require a mechanism to assure financial capability on the part of certain NRC materials licensees (e.g., fuel fabricators and users of sealed radiation sources) to undertake prompt cleanup of accidental releases or contamination, both on and off site. Estimates for cleanup costs in the recent past have ranged up to \$2 million for a single event. To date, cleanup has been conducted by the state or Federal government, but frequently public monies are used only after lengthy delays. Use of an alternative, i.e., the 1980 Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), is effectively blocked by EPA policy. CERCLA provides funds for cleanup if the owner or operator is unable to do so and if the release is not covered by "Price-Anderson" provisions, which address liability and do not provide funds for cleanup per se. EPA maintains that NRC has full

authority to require cleanup of accidental releases by licensees; thus, CERCLA public funds should not be used for this purpose. (cont)

Abstract: The proposed rule would require that the in-house inspection description in a radiography license application specify a method for inspecting each radiographer and radiographer's assistant's knowledge of applicable regulations, license conditions, and performance of established procedures at intervals not exceeding three months. This action is intended to further ensure that

radiographic operations are conducted safely.

The cost of performing the inspection is estimated to be \$120.00 per worker or \$432,960 per year for the entire industry. There is no impact on the NRC staff. The proposed rule would also require a licensee to perform and record a radiation survey of a radiographic exposure device made when storing the device after use instead of recording the results of the radiation survey made after the last exposure. Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 2232; 42 USC 2233

Abstract: The proposed rule would revise Part 35 to modify the process for licensing and regulating the medical use of radioactive byproduct material. Requirements that apply to medical licensees are scattered in the regulations, license conditions, the individual licensee's application, and licensing branch policy statements. The purpose of the proposed rule is to consolidate and codify the requirements in the regulation. This rule will result in a clearer understanding of NRC requirements for all medical licensees. This revision is necessary in order to provide a clear consolidated statement of requirement. The only way to impose requirements on all licensees is by license condition or regulation; therefore no alternative action was considered. Because most of the requirements contained in this regulation are currently imposed by regulation or license condition, there will be no significant cost savings or additional burden; the industry and NRC will benefit by having a clear, concise, complete regulation. The proposed revision is currently before the Commission for their consideration. (cont)

CFR Citation: 10 CFR 35

Abstract: As new uses for FDA approved drugs are developed, NRC proposes to amend its regulations to provide physicians an exception from its requirement to only use a radiopharmaceutical for the methods of use listed on the package label. This rule will facilitate potentially beneficial new uses of approved drugs. The only alternative to the rulemaking would be to amend individual licenses to authorize these new methods of use which would consume an inordinate amount of staff time. The proposed rule would allow NRC licensed physicians to use certain currently available diagnostic radiopharmaceuticals for some recently developed methods of use that are not listed on the respective package labels.

68. + LICENSES AND RADIATION SAFETY REQUIREMENTS FOR WELL-LOGGING OPERATIONS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 39

Abstract: The proposed rule would establish specific radiation safety requirements applicable to licensees who perform operations such as welllogging, mineral-logging, radioactive markers, and subsurface use of radioactive materials in tracer studies. The proposed rule is necessary because current NRC regulations address these operations in a general way without providing the specific guidance necessary to ensure that these operations are performed safely. As an alternative to the status quo, the proposed rule would adopt the requirements in the suggested State Regulations for Control of Radiation Part W as new NRC regulations. The potential costs for industry to implement these requirements would be about \$1,300,000/yr. However, because most of the requirement is already

imposed by license conditions, the net increase in cost would be about \$350,000 per year for the industry or about \$2000 per licensee. The proposed rule would establish a consistent, comprehensive set of requirements that would minimize the effort required to obtain reciprocity for NRC licensees to operate (cont)

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 40; 10 CFR 70; 10 CFR 150

Abstract: The proposed rule would amend the requirements applicable to the submission of source material and special nuclear material inventory reports. The proposed rule would eliminate the requirement to report inventories on Form 742 for all licensees except those reporting under the US/IAEA Safeguards Agreement. The proposed rule would also eliminate the requirement to report inventories for all licensees except those for nuclear reactors and those reporting under the agreement. The NRC would generate an equivalent inventory report, based on the data submitted by each affected licensee; and the licensee would verify the accuracy of the report. This amendment would reduce the reporting burden imposed on the licensee without adversely affecting the domestic safeguards program on the ability to satisfy international commitments. The proposed reduction would result in a total cost savings of \$39,000 for affected licensees.

70. EXTENSION OF CRIMINAL PENALTIES

Legal Authority: 42 USC 2201 CFR Citation: 10 CFR 50

Abstract: The proposed rule, in accordance with the provisions of the NRC Authorization Act for Fiscal Year 1980, would extend the application of the criminal penalties provision of the Atomic Energy Act (AEA) of 1954, as amended, to any individual director, officer, or employee of a firm constructing or supplying the components of a nuclear power plant who knowingly and willfully violates any NRC regulation, order, or license condition during construction of a nuclear power plant. Section 223(b) of the AEA essentially directs the Commission to establish a limit for potential unplanned off-site releases of. radioactive material which would trigger consideration of possible criminal penalties. As directed in Section 223(b)(3), the proposed rule establishes, in its definition of a "basic component," the limits for potential unplanned releases of radioactive material that could trigger application of criminal penalties.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would incorporate by reference the Winter 1982 Addenda, Summer 1983 Addenda, Winter 1983 Addenda, Summer 1984 Addenda, and the 1983 Edition of Section III, Division I, of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code (ASME Code), and the Winter 1982 Addenda, Summer 1983 Addenda, and the 1983 Edition of Section XI, Division I, of the ASME Code. The ASME Code sets standards for the construction of lightwater-reactor nuclear power plant components in Section III, Division 1. and specifies requirements for the inservice inspection of those components in Section XI, Division I. The proposed rule would update the existing reference to the ASME Code and would thereby permit the use of improved methods for the construction and inservice inspection of nuclear power plant components.

Incorporating by reference the latest edition and addenda of the ASME Code will save applicants/licensees and the NRC staff both time and effort by providing uniform detailed criteria against which the staff can review any single submission. Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would update and revise the 1973 criteria for preoperational and periodic pressure testing for leakage of primary and secondary containment boundaries of water-cooled power reactors. Problems have developed in application and interpretation of the existing rule. These result from changes in testing technology, test criteria, and a relevant national standard that needs to be recognized. It is proposed to revise the rule as noted to make it current and improve its usefulness. The benefits anticipated include elimination of inconsistencies and obsolete requirements, and the addition of greater usefulness and a higher confidence in the leak-tight integrity of containment system boundaries under post-loss of coolant accident conditions. The majority of the effort needed by NRC to issue the rule has already been expended. Still remaining are resolution of issues peripheral to, but important to, the rule, presentation of the proposed rule for public comment and integration of appropriate public comments.

Legal Authority: 42 USC 2201; 42 USC 5841; 42 USC 5842

CFR Citation: 10 CFR 50; 10 CFR 51

Abstract: In a Federal Register notice published on April 14, 1979 (43 FR 15613) the Commission deleted the radon-222 value from Table S-3 because it was recognized to be underestimated. Pending rulemaking action to provide a new estimate for radon-222 in Table S-3, the environmental effects of radon are subject to litigation in individual nuclear power plant licensing proceedings. The purpose of the proposed rule would be to deal with this question generically for all nuclear power plants, thus saving the time and cost of repetitive consideration of the effects of radon-222 in individual nuclear power plant licensing

proceedings. The only alternative to generic treatment of the environmental impact of radon-222 is to continue to allow these environmental impacts to be brought into litigation in individual licensing cases. By the proposed rulemaking action, new estimates for the environmental releases of rn-222 will be added to Table S-3, and the narrative explanation of Table S-3 will be modified accordingly. This will complete Table S-3 and will remove all environmental impacts of the uranium fuel cycle from further consideration and litigation in individual nuclear power (cont)

74. GENERAL DESIGN CRITERION ON HUMAN FACTORS

Legal Authority: 42 USC 2201; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The proposed rule would establish a new general design criterion on human factors considerations. The specific factors to be addressed include operability, surveillance, maintainability, and human engineering criteria. The revised human factors criterion is necessary because post-TMI reviews and operating experience indicate that the human factors discipline is rarely applied when needed at the design and construction stage.

Alternatives to the proposed criterion are described in the Regulatory
Analysis and include (1) continuation of the current ad hoc requirements; (2) modification to specific existing criteria in 10 CFR Part 50, Appendix A; and (3) delaying action until the development of an industry standard and preparing a regulatory guide to document the NRC position.

Alternative I may not meet the objective of timely incorporation of sound human factors principles into the design, construction and operation of nuclear power plants; alternative 2 would probably prove more costly and less efficient to implement, and alternative 3 may not implement the human factors principles in the time frame recommended by TMI investigative groups. Additional Information: ABSTRACT CONT:

When all effects of the proposed Human Factors General Design Criterion are quantitatively evaluated, a net benefit is expected. The results indicate that the nuclear industry will experience an overall cost increase as a result of applying human factors principles to the design, installation and operation of an average system. However, new plants that have human factors principles applied throughout the entire design, construction, and operations phases can expect a net savings of \$1.1 million on each system. Operating plants or plants with an already approved design that apply human factors principles to new or replacements systems may experience a net cost increase of about \$3.1 million.

A qualitative analysis for this proposed rule showed that benefits will accrue in the areas of occupational exposure, public health, regulatory efficiency and economic risks to onsite and offsite property.

75. STATION BLACKOUT

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: NRC is proposing to amend its regulations to require light water nuclear power plants to be capable of withstanding a total loss of alternating current (AC) electrical power, called Station Blackout, to the essential and nonessential switchgear buses for a specified duration. A proposed regulatory guide, to be issued at the same time as the proposed rule, would provide guidance on how to determine the duration.

The proposed requirements were developed in response to information generated by the Commission's study of Unresolved Safety Issue A-44, Station Blackout. The proposed rule is intended to provide further assurance that a loss of both off-site and emergency on-site electric AC power systems will not adversely affect the public health and safety.

A regulatory analysis has been prepared for the proposed rule. The estimated public risk reduction is 80,000 person-rem over 25 years, and the estimated total cost for industry to comply with the proposed rule is \$40 million. This results in an overall cost benefit ratio of about 2,000 person-rem per million dollars.

The alternatives to this proposed rulemaking are to (cont)

To take no action would not yield any reduction in public risk from station blackout events. To provide guidance only, since there is presently no requirement for nuclear power plants to be able to cope with a total loss of AC power, would not result in any basis for enforcement. The proposed rule is the

recommended alternative based on its enforceability and, in part, on the favorable cost/benefit ratio.

76. + COMMUNICATIONS PROCEDURES AMENDMENTS

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 50

Abstract: This proposed rule would amend the regulations which establish the procedures for submitting correspondence, reports, applications, or other written communications pertaining to the domestic licensing of production and utilization facilities.

The proposed amendments are expected to resolve confusion regarding submittal procedures and improve the communication process with the affected applicants and licensees.

The proposed amendments would (1) simplify the procedures for making Part 50 submittals to the NRC; (2) facilitate the timely dissemination of Part 50 submittals to NRC staff; (3) reduce postage and copying costs for applicants and licensees by requiring fewer copies of submittals; (4) establish a central NRC receipt point for Part 50 submittals; (5) include the NRC Resident Inspectors in the formal communications; and (6) supersede all outdated submittal directions contained in other sources of submittal guidance, such as Regulatory Guide 10.1 (Revision 4) and NRR Generic Letter 82-14. Although these documents addressed the problem, they did not entirely resolve the confusion. Moreover, subsequent changes in the (cont)

The current regulations also cause unnecessary delays in the dissemination of information to NRC staff. For example, any document submitted to an NRC Regional Office

will not usually be disseminated to NRC Headquarters staff until two weeks later.

These problems can be resolved only by amending 10 CFR Part 50, since the current regulations are the source of the problems. The proposed rule is expected to reduce postage and copying costs for licensees and applicants subject to 10 CFR Part 50. An annual savings of \$140,000 is estimated. In addition, the NRC is expected to realize a small savings in postage costs. Preparing and publishing this rule would cost NRC approximately 320 hours of staff time at \$60 per hour for a total of \$19,200.

77. • + MODIFICATIONS TO GDC 4 REQUIREMENTS FOR PROTECTION AGAINST POSTULATED PIPE RUPTURES

Legal Authority: 42 USC 2201; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The proposed rule would permit licensees to use newly developed analytical methods involving widely accepted advanced fracture mechanics theories for determining that certain pipe ruptures need not be treated in the design basis for dynamic effects. Implementation of the rule would facilitate the removal of unnecessary pipe whip restraints and jet shields from existing nuclear power plants. This would reduce inservice inspection cost and, in addition, would reduce inspector radiation exposure. The need and urgency for addressing the issue stems from the widespread acceptance of the analysis results and the research findings pertaining to pipe rupture coupled with increasing confidence in its applicability. Prior to the last few years, there was no sound technical basis for excluding certain pipe ruptures from the design basis. Now it is clear that it is possible to defend the exclusion of PWR primary loop double-ended guillotine pipe ruptures, and that the scope may be extended to other piping. A benefit derived from the rule would be avoidance of extensive exemptions to General Design Criterion 4 which would

78. O DELETION OF THE UNUSUAL EVENT EMERGENCY CLASSIFICATION

Legal Authority: 42 USC 2133; 42 USC 2234; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would delete the "Unusual Events" emergency class from the Commission's emergency classification scheme. The current emergency classifications are: (1) notification of unusual events, (2) alert, [3] site area emergency and (4) general emergency. This emergency classification scheme has been used by the NRC, FEMA, licensees and State and local governments for at least four years. During this time, the Commission has noted that the reporting of unusual events not only significantly strains the NRC resources, but tends to establish a 'cry wolf' syndrome with State and local governments. The NRC emergency operations center receives approximately 20 notifications of unusual events per week. The purposes of the unusual events offsite notifications are to (1) assure that the first step in any response later found to be necessary has been carried out, (2) bring the operating staff to a state of readiness, and (3) provide systematic handling of unusual events information and decisionmaking. All of these purposes are redundant to the purposes and required licensee actions associated with the "alert" classification. (cont)

Timetable:

Action Date FR Cite

Additional Information: ABSTRACT CONT: One alternative to the proposed rule would be to not remove the unusual events classification. Another alternative simply would be to delete the unusual event from NUREG-0654. These alternatives would not satisfactorily accomplish the staff's objectives. The staff believes that the deletion of the "unusual events" classification would not impair or decrease the state of preparedness at nuclear power plants. The proposed change would require the NRC to approve revised emergency plans. However, the staff believes that the deletion of "unusual events" will represent a substantial savings to the industry both in dollars and in human resources, approximately one-half staff year per plant. The NRC resources expended through 1985 in order to develop this rulemaking will be approximately two staff-years per year.

79. UPDATE OF TABLE S-4, PART 51

Legal Authority: 42 USC 2201; 42 USC 4332

CFR Citation: 10 CFR 51

Abstract: Table S-4 helps provide a means for meeting the NEPA requirements for an environmental assessment at the construction permit stage of a new reactor. The technical basis for this table, WASH-1238, was published in 1972. A revised and updated version of WASH-1238 (NUREG/CR-2325) that includes current transportation data and impacts was published in December 1983. In addition, staff calculations are available on the impacts of the higher burnups and increased enrichments currently in use in many reactors. The proposed rule would amend Table S-4 to include the impacts from these two studies and ensure that the table reflects the current environmental impacts. Prior to developing this rule, an Environmental Impact Assessment will be developed to satisfy the

requirements of the National Environmental Policy Act of 1969. This proposed rule would probably have no impact on licensees but would require one to two NRC professional staff years to develop.

Legal Authority: 42 USC 5841

CFR Citation: 10 CFR 70

Abstract: The NRC is amending its regulations in section 70.53 to require

affected licensees to report data summarizing the results of physical inventories of special nuclear material (SNM). The affected licensees are required by section 70.51 to conduct the physical inventories but would be required by section 70.53 to report the summary of the results. In the past, licensees voluntarily provided this information, which is used to determine compliance with NRC regulations and to provide data for NUREG- 0430, "Licensed Fuel Facility Status Report." Without a regulatory requirement or without licensee's voluntary submittals, NRC would have to conduct inspections to acquire SNM physical inventory data. In conjunction with this rulemaking, the form that licensees use to report summaries of SNM physical inventory data has been modified to include definitions of required data elements.

Since the affected licensees are already supplying this information voluntarily, there will be no additional costs to these licensees.

Abstract: The proposed rule would define two classes of LSA materials with specified shipping or packaging requirements. The two classes represent a consolidation of five classes of LSA materials and solid contamination objects (SCO) now in the 1985 regulations of the International Atomic Energy Agency (IAEA). In addition, the proposed rule provides special consideration for the inherent safety associated with the shipment of solid, nonflammable objects which are not dispersible in water. A new

requirement of the amended rule would impose a dose rate limit on LSA materials. This requirement, which is philosophically consistent with the proposed IAEA regulations, is considered necessary to keep current and future LSA shipments within the envelope of safety originally conceived for such materials. This proposed rule would be responsive to PRM-71-1, PRM-71-2 and PRM-71-4. A regulatory analysis is currently being developed by the staff.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 73

Abstract: Requirements for the physical protection of spent nuclear fuel at independent storage sites are currently contained in 10 CFR 73.50. Those requirements were originally developed for a broad range of materials and facilities, and were not developed specifically for independent spent fuel storage installations. (ISFSIs). Preliminary studies, some of which are related to transportation and require extrapolations to fixed installations, indicate that some of the current requirements for ISFSIs may not be at the appropriate level. If ongoing assessments confirm that existing regulations should be changed to be more commensurate with the consequences of a sabotage attack, a proposed performance-oriented rule would be developed to allow licensees the flexibility of using the most costeffective measures available to meet the regulatory requirements. The necessity and urgency of addressing this issue is to have safeguards requirements in place that are commensurate with the risk of storing spent nuclear fuel in dry casks at reactor sites. 84. + REPORTING REQUIREMENTS FOR SAFEGUARDS EVENTS

Legal Authority: 42 USC 2201; 42 USC 5842

CFR Citation: 10 CFR 70; 10 CFR 73

Abstract: The proposed rule would amend reporting requirements of section 73.71 for reports of unaccounted for shipments, suspected thefts, unlawful diversion, and other safeguards events. The staff has found the present requirements confusing to licensees and, therefore, difficult for licensees to properly implement. These difficulties have contributed to safeguards event reports that lack uniformity and contain insufficient data for NRC analysis purposes. Safeguards event reporting requirements are necessary to permit timely response by the NRC to safeguards incidents and to identify possible generic deficiencies in safeguards systems. Until the requirements for reporting are clarified and simplified, the problems identified above will continue to exist. This is considered to be a matter of moderate urgency. An alternative to rulemaking is issuance of additional or revised

guidance on the present requirement. However, such guidance would lack regulatory authority. Since the problems have arisen over the abstract nature of the present requirement, it appears the best solution is to correct the source of the problem by amending the existing rule. The proposed amendments redefine, in (cont)

The current 24 hour telephonic notification is deleted. All events would be either telephonically reported within one hour or logged in licensee records to be submitted to the NRC quarterly. Concurrent with the rule revision, a revised regulatory guide is being developed which provides a format for reporting to the NRC and gives examples of what types of events

should be reported and under what category.

There is expected to be no cost impact to the public. Benefits to licensees will be clearer, simpler regulations, and a reduction in telephonic and written report making. While the proposed regulations will require more detailed, standardized written reports, the reduction in the number of telephone and written reports is expected to result in a net cost decrease to industry of \$641.6K incurred on an annual basis.

85. CRITERIA FOR AN EXTRAORDINARY NUCLEAR OCCURRENCE

Legal Authority: 42 USC 2201; 42 USC 2210; 42 USC 5841; 42 USC 5842

CFR Citation: 10 CFR 140

Abstract: The proposed rule would revise the criteria the Commission

currently follows in determining an extraordinary nuclear occurrence (ENO), in order to overcome the problems that were encountered following the Three Mile Island (TMI) accident when the present criteria were applied. The proposed criteria would focus on items that can be readily counted or estimated within a relatively short time following an accident (i.e., substantial release of radioactive material or radiation offsite and substantial exposure levels). The revised criteria will provide for speedy satisfaction of legitimate claims in the event of an ENO. Because ENO criteria are administrative criteria for use by the Commission, they do not impose any requirement upon a licensee.

CFR Citation: 10 CFR 110

Abstract: The final rule simplifies licensing requirements for the export of nuclear equipment and material that does not have significance from a nuclear proliferation perspective by expanding or establishing general licenses for nuclear reactor components, gram quantities of special nuclear material, and certain kinds of source or byproduct material. The general licenses ease current licensing restrictions by removing the requirement to obtain a specific export or import license for certain material and equipment. The general licenses include a policy of facilitating nuclear cooperation with countries sharing U.S. non-proliferation goals. The final rule should increase international commerce and reduce the regulatory burden on

the public and the NRC without increasing the risk to public health and safety or the common defense and security. The final rule reduces NRC's minor case licensing workload by about 75%. The information collection burden is approximately 35% annually for licensees affected by this final rule. Abstract: In response to a remand by the U.S. Court of Appeals for the D.C. Circuit, the Nuclear Regulatory Commission has issued a rule that would eliminate financial qualifications review and findings for electric utilities that are applying for operating licenses for utilization facilities if the utility is a regulated public utility or is authorized to set its own rates. This final rule would not affect financial qualification

88. CHANGES IN RADIATION DOSE-LIMITING STANDARDS

Legal Authority: 42 USC 2111; 42 USC 2201

CFR Citation: 10 CFR 19; 10 CFR 20

Abstract: The issues addressed in this proposed rule will be dealt with in, and the notice of proposed rulemaking published 2/20/79 will be superseded by, the comprehensive revision of Part 20. As a result, this rulemaking was terminated by the EDO on February 1, 1985. The proposed rule was published because of the desire of the Commission to reduce the risk of occupational radiation doses in Commission-licensed activities. In particular, the Commission desired to cut off individual exposures greater than 5 rems/year that are permitted by the 5 (N-18) dose averaging provisions in section 20.101 (b). Other considerations included the Commissions's continuing systematic assessment of exposure patterns, and recommendations in Publication 26 of the International Commission on Radiological Protection for controlling radiation dose. The Commission took into account recently published interpretations of epidemiological data and associated recommendations for lower dose standards, PRM-20-6 and PRM-20-6a. The proposed rule would have eliminated the accumulated dose averaging formula and the associated

Abstract: The purpose of this proposed rule was to define more clearly the authority of an NRC inspector to copy and take away a licensee record that is needed for inspection and enforcement activities. It also specified the period that a licensee physical security record must be maintained. Due to licensee cooperation I&E no longer sees the need for explicit authority to copy and take away records. The rulemaking is therefore being withdrawn. For that portion of the rule which codifies licensee practice for retention of physical security records a new rulemaking will be initiated.

Abstract: On January 22, 1985, the Office of the Executive Director For Operations issued a memorandum directing the staff to discontinue development of this rule. The proposed rule would have established general criteria for designing fuel reprocessing plants in order to provide reasonable assurance that fuel reprocessing plants can be operated without undue risk to the health and safety of the public. The general criteria contain the minimum requirements that an applicant must use in the selection of principal design criteria for a fuel reprocessing plant. The principal criteria would have established design, fabrication, construction, testing, and performance requirements for structures, systems, and components important to the safety of the facility.

Abstract: The final rule improves hydrogen control capability for boiling water reactors (BWRs) with MARK III containments and for pressurized water reactors (PWRs) with ice condenser containments. The amendments require

improved hydrogen control systems that can handle large amounts of hydrogen during and following an accident. For those of the affected reactors not relying upon an inerted atmosphere for hydrogen control, the rule requires that certain systems and components be able to function during and following hydrogen burning. The rule is needed to improve the capability of the PWRs and BWRs to withstand the effects of a large amount of hydrogen generation and release to containment from an accident, as occurred at Three Mile Island. The new requirements will result in greater assurance that nuclear power reactor containments and safety systems and components will continue to function properly so that the reactors can be safely shut down following a Three Mile Island-type of accident.

An alternative to the final rule was to maintain the status quo with licensing decisions being treated on a case-by-case basis. However, this alternative would not result in any savings to NRC or the industry, since the requirements of the rule would still be implemented. Because of the potential for time-consuming and costly litigation for each case, maintaining the status quo would have resulted in additional costs.

The estimated cost to the affected licensees is \$9 million (for the assumed "4 plants that would be affected). The additional cost to the NRC is estimated to be \$280,000.

Abstract: The final amendment to Part 50 provides procedures to be followed by nuclear reactor operating licensees to ensure the continued safe management of spent fuel beyond the expiration date of the reactor operating license. It requires licensees to submit plans concerning how spent fuel at these sites will be managed to NRC for review and approval five years before their operating licenses expire. The final amendment to Part 51 addresses the environmental aspects of extended spent fuel storage past the expiration date of reactor operating licenses; licensing for storage at the reactor site: or storage at an independent spent fuel storage installation.

CFR Citation: 10 CFR 53

Abstract: The final rule implements procedures and criteria that the update NRC will use to determine whether a person owning and operating a civilian nuclear power plant is able to store the spent nuclear fuel generated at the plant. This determination is necessary before the Secretary of the Department of Energy may enter into a contractual arrangement with the owner of the plant to provide interim Federal storage for limited amounts of spent fuel that the owner is unable to store. Alternative procedures considered for the NRC to determine a licensee's need to use interim Federal storage were that (1) the licensee, without NRC guidance, provide sufficient information for the NRC to make this determination; (2) the Commission itself, rather than the EDO relving on the technical staff's review, make the determination; or (3) the NRC restate the statutory criteria for making the determination without providing further guidance as to how the Commission would make its determination.

It is anticipated that a licensee will expend an average of nine (9) months of professional staff resources to

NRC will be required to expend approximately two (2) months of staff time per request. This is equivalent to \$19,200. With not more than seven requests anticipated in the 1984-1989 time period, total NRC costs should not exceed \$135,000.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 70; 10 CFR 74

Abstract: Under currently applicable regulations, material control and accounting (MC&A) requirements for low enriched uranium (LEU) and strategic special nuclear material (SSNM) differ very little. However, both NRC-sponsored and independent studies have concluded that safeguards risks associated with LEU are far less significant than risks associated with SSNM. Current requirements do not sufficiently reflect this fact. The objective of this rule is to eliminate unnecessarily burdensome regulatory requirements. Because of the generic application of this action, it should be accomplished through rulemaking rather than through individual license

conditions. This rulemaking action establishes more cost effective MC&A requirements for LEU and reduces these requirements to a level commensurate with the material's low safeguards significance.

Although MC&A requirements for LEU are reduced by this rulemaking, the public will not be affected since the new requirements provide appropriate protection for the public health and safety consistent with the low strategic significance of the material. The total estimated savings for the industry is (cont)

Legal Authority: 42 USC 2201 CFR Citation: 10 CFR 50

Abstract: The Executive Director approved termination of the advance notice of proposed rulemaking on February 1, 1985. This rulemaking activity has been supplanted by the Severe Accident Policy Statement (SECY-84-370) now before the Commission. The advance notice of proposed rulemaking would have provided the nuclear industry and the

public an opportunity to submit advice and recommendations to the Commission on what should be the content of a regulation requiring improvements to cope with degraded core cooling and with accidents not covered adequately by traditional design envelopes.

Abstract: The issue addressed in this proposed rule and the notice of proposed rulemaking published 01/03/75 (40 FR 799) will be superseded by, the comprehensive revision of Part 20. As a result, this rulemaking was terminated by the EDO on February 1. 1985. The proposed rule would have recognized that an embryo/ fetus is especially radiosensitive during critical states of embryogenesis in the early months of a pregnancy. Consideration was given to several alternative means of assuring protection for the unborn including lower dose limits for fertile women, pregnant women, all women, of for all workers. There was concern regarding sociolegal questions including the potential for invasion of privacy. the potential impact on the employability of women and other discriminatory actions against women, and concern regarding the impact on licensees of a lower limit for all workers. The proposed amendments

98. PERFORMANCE TESTING OF BIOASSAY LABS

Legal Authority: 42 USC 5841 CFR Citation: 10 CFR 20

Abstract: The Executive Director for Operations approved termination of the proposed rule on February 1, 1985. The rulemaking was terminated because the Health Physics Society Standards Committee is preparing Standard on Performance Testing of Bioassay Labs, which will be completed in about two years. Following an evaluation of the performance of bioassay labs against

the standard, a decision will be made regarding the necessity of rulemaking. The proposed rule would have required licensees, who provide bioassay services for individuals to assess internal radiation exposure, to use accredited laboratories after an accreditation program is established. An expert, primarily industry-based. committee of the Health Physics Society wrote a draft standard. The draft standard was revised to take into account early comments that the NRC solicited and received from industry. The NRC, in cooperation with the DOE. established a performance testing study to test the standard, and to design and set up and accreditation program. Results of Phase I measuring radioactivity in human excretion samples, showed that ways must be found for more uniform quality control of analytical methods, or that some criteria (cont)

Legal Authority: 42 USC 2093; 42 USC 2111; 42 USC 2201

Abstract: The Executive Director for Operations approved the termination of this rule on February 6, 1985. The purpose of the proposed rule was to reevaluate the policy, criteria, and regulations that govern the use of radioactive material in consumer products. This action was taken in order to determine whether a proposed rule was needed to: (1) codify the NRC policy on consumer product approval criteria; (2) review and revise regulations in Part 30 providing exemptions for consumer products; (3) review, revise, and reorganize regulations in Part 40 providing exemptions for consumer products. The NRC terminated this rulemaking effort because (1) the consumer product approval criteria, although not codified, has been used satisfactorily for nearly 20 years, and (2) consumer product regulations appear in most cases, to be adequate. However, the need for a proposed rule in this area will be considered after one year.

Abstract: The Nuclear Regulatory Commission is issuing an amendment that removes provisions to its regulations that exempt the possession and use of glass enamel and glass enamel frit containing uranium from the licensing requirements applicable to source material. These materials are used as a glaze to produce brightly colored surfaces on consumer products such as cloisonne jewelry. The final amendment is necessary to prevent the unnecessary exposure to radiation that might be received by artists who use the materials or by consumers who use products containing the materials. The final rule will accomplish this by prohibiting the future domestic manufacture or importation of glass enamel and glass enamel frit containing small amounts of uranium unless specifically approved by the NRC. The proposed rule would have also addressed two essentially identical petitions for rulemaking filed with the Commission by the State of Illinois (PRM-50-25) and the Porter County Chapter of the Izaak Walton League of America, et al. The petitioners requested that Section 50.55 (b) be amended or rescinded, and that the Commission promulgate a regulation which would not limit a "good cause" showing to the reasons why construction was not completed before the latest completion date specified in the construction permit.

103. ADDITIONAL SCRAM SYSTEM REQUIREMENT FOR WESTINGHOUSE NUCLEAR POWER PLANTS

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The Commission issued a decision directing the staff not to publish a proposed rule on ATWS that

would require diverse SCRAM system for Westinghouse plants. The proposed rule would have required an improvement in the design of lightwater-cooled nuclear power plants manufactured by Westinghouse. A specific provision contained in the proposed rule requires the installation of a diverse scram system from sensor output to interruption of power to the control rods. The NRC staff estimates that the proposed scram system would cost all affected licensees and CP holders combined a total of \$50 million. The benefit of the proposed action is that the diverse scram system would have reduce the likelihood of an accident if the existing reactor protection system fails to shut down the reactor following an anticipated transient.

Abstract: On October 17, 1984, the Commission reconsidered the need for this rule. Following the reconsideration. W.J. Dircks, Executive Director for Operations, NRC, wrote J.H. Miller, Chairman, Nuclear Utility Management and Human Resources Committee stating that the Commission had directed the staff to discontinue development of this rule and preferred that industry implement its own initiatives in this matter. The proposed rule would have amended the NRC regulations to require (1) that all applicants for a senior operator's license to have been licensed as an operator for at least one year, including 250 hours at the controls of an operating commercial nuclear power plant; and (2) that each shift have at least one senior operator who has

Legal Authority: 42 USC 2201; 42 USC 5841; 42 USC 5843; 42 USC 10152; 42 USC 10155; 42 USC 10226

CFR Citation: 10 CFR 50

Abstract: On November 5,1984, the Commission met to reconsider the need for this rule. The Commission directed the staff to discontinue development of the rule and indicated a preference for industry's implementation of its own initiatives in this matter.

The proposed rule would have amended NRC regulations to require that licensees of nuclear power plants have on each shift a senior manager responsible for integrated management of shift operations who holds a bachelor's degree in engineering or a related physical science from an accredited institution, has five years nuclear power operating experience, and holds a senior operator's license. The objective of the new senior manager position was to increase onshift management involvement for all aspects of plant operations (e.g., maintenance, health physics, chemistry operation, security).

106. + CLARIFICATION OF GENERAL PHYSICAL PROTECTION REQUIREMENTS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 73

Abstract: The general physical protection requirement for fixed sites (Sec. 73.40(a)) is being amended to clarify that the threat of either radiological sabotage or theft, or both, must be treated in a licensee's physical security plan in accordance with the more detailed requirements of other sections of 10 CFR Part 73 which apply to specific classes of licensees or specific types of material. This action is being taken because an Atomic Safety and Licensing Board, in a recent ruling, has made an interpretation of the general requirement which differs from the interpretation currently being applied. This action will clarify the Commission's policy regarding the rule's intent and will codify present application of the general physical protection requirement. No economic impact on a licensee will result from this action.

In a memorandum dated June 13, 1984, the Commission declined staff's request to initiate a rulemaking proceeding which was made by the staff following the Licensing Board's interpretation of 10 CFR 73.40(a) which the staff stated was contrary to NRC licensing practice. The disputed interpretation arose (cont)

Regulatory Flexibility Agenda and Rules Scheduled for Review

AGENCY: Securities and Exchange Commission.

ACTION: Publication of regulatory flexibility agenda and rules scheduled for review.

SUMMARY: The Securities and Exchange Commission is today publishing an agenda of its open and anticipated rulemaking actions, pursuant to Chapter Six of the Administrative Procedure Act and Office of Management and Budget Bulletin 85-6. The agenda is a general announcement to the public intended to provide advance notice of rulemaking actions which may have a significant economic impact on a substantial number of small entities. The Commission is also publishing a list of rule reviews anticipated to be completed during the next twelve months. The Commission invites questions and public comment on individual agenda entries.

DATE: Public Comments are due by June 30, 1985.

ADDRESSES: Persons wishing to submit written views should file three copies with John Wheeler, Secretary, Securities and Exchange Commission, 450 5th Street, N.W., Room 6184, Stop 6-9, Washington, D.C. 20549. All submissions should refer to File No. S7-8-85, and will be available for public inspection at the Commission's Public Reference Room. Room 1026, at the same address.

FOR FURTHER INFORMATION CONTACT:
Joseph A. Meiburger, Jr., Directorate of
Economic and Policy Analysis.

Economic and Policy Analysis, Securities and Exchange Commission, 450 5th Street, N.W., Room 7169, Stop 7-6, Washington, D.C. 20549 (202-272-7110). Additional names of persons to contact are identified with each entry.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act ("RFA") (Pub. L. No. 96-354, 94 Stat. 1164 [September 19, 1980]) requires each federal agency during April and October of each year to publish in the Federal Register a regulatory flexibility agenda identifying rules which the agency expects to propose, adopt or review which are likely to have a significant economic impact on a substantial number of small entities (the "significant impact criterion"). Part I of this agenda contains 52 entries for all open and anticipated rulemaking actions which may meet this criterion.

The RFA also requires the review of existing rules.2 The Commission published in June 1981 a plan for the periodic review of all rules issued by the agency which may meet the significant impact criterion.3 The plan provides for the review of all such rules in effect on January 1, 1981 within ten years of that date and for the review of such rules adopted thereafter within ten years of their adoption as final rules. The RFA further requires publication each year of a list of those rules which are to be reviewed during the succeeding twelve months. 4 Part II of the agenda contains 15 of these entries. The Commission's continuing review of its rules, begun before the effective date of the statute (January 1, 1981), extends beyond the requirements of the RFA. Consequently, some rules listed in this part of the agenda may not be required to be reviewed. The Commission is identifying them here in order to inform the public of its intention to review them. Part III of the agenda identifies the 22 rulemaking actions and rule reviews which have been completed since the last RFA release was approved by the Commission on September 5, 1984. The agenda relies on the definitions of the term "small entity" for purposes of the RFA which were adopted by the Commission for the various categories of regulated entities.

The statute specifically provides that the agenda does not preclude the Commission from considering or acting on any matter not included, nor is the Commission required to consider or act on any matter which is included. ⁷ Furthermore, the inclusion of a rule in the Commission's agenda reflects only the staff's preliminary judgment that the rule, if adopted or as it exists, may have a significant economic impact on a substantial number of small entities. This preliminary judgment may be changed upon further analysis.

Below is an index and the text of the Commission's entries to this April 1985 Unified Agenda of Federal Regulations. The agenda contains new entries as well as items carried over from the October 1984 publication. New entries are marked with a bullet. Copies of this preamble and a list of the entries (including next action dates and identifying a staff contact) are available from the Commission's Office of Public Affairs (Room 1015). The entries themselves are also available for inspection and copying in the Public Reference Room (Room 1026) (File S-8-85), as noted above.

The Commission invites public comment on the individual entries in its agenda of rulemaking actions and rules scheduled for review in 1985. By the Commission.

CFR Citation: 17 CFR 210

Abstract: The staff is considering whether to recommend that the Commission propose rules calling for increased disclosure of off-balance sheet financing arrangements. During recent years off-balance sheet financing arrangements have increased in number and complexity, and disclosure of such arrangements may currently appear in various places throughout the financial statement footnotes. The identification and analysis of the aggregate impact of the various types of arrangements may therefore be difficult. The staff is considering various alternatives including possible centralized footnote disclosure - to provide for improved disclosure of the effects of off-balance sheet financing arrangements. The concept for such improved disclosure was announced in Securities Act Release No. 6514 (49 FR 6737; February 23, 1984).

Abstract: The Commission may consider whether to propose the rescission of various obsolete rules, such as Articles 5A and 8 and related rules of Regulation S-X, and the amendment of other rules to make technical revisions and corrections or update the rules to reflect current financial reporting experience. These rules will be reviewed concurrently with any rulemaking action.

CFR Citation: 17 CFR 210.5-02; 17 CFR 210.10-01; 17 CFR 210.11-02; 17 CFR 229.303

Abstract: The Commission proposed amendments to require (1) presentation of certain industry segment information for interim periods; (2) a discussion of reportable segments in management's discussion and analysis; and (3) modifications of other miscellaneous interim reporting requirements. The release also provides advance notice of possible future rulemaking regarding (1) additional segment reporting disclosures and (2) uniform disclosure of off balance sheet financing arrangements. The proposals are designed to enhance analysis of financial information. They may entail some new recordkeeping but any such costs have not been determined. The Commission's interim reporting rules will be reviewed as a part of this action.

CFR Citation: 17 CFR 210.9; 17 CFR 231; 17 CFR 241

Abstract: The staff is considering whether to propose amendments to Industry Guide 3, statistical disclosure by bank holding companies and Article 9 of Regulation S-X. The formation of savings and loans holding companies has increased during the past several years to the point where approximately 60 savings and loan holding companies file with the Commission. In addition, a number of other registrants own savings institutions. The Commission's regulations do not specifically address the filing requirements for savings and loans, which have certain practices peculiar to the industry. The amendments, if proposed, would focus on disclosure requirements to enhance the comparability among registrants.

Abstract: The Staff is considering whether to recommend that the Commission propose amendments to Item 304 of Regulation S-K and related forms and schedules to remove the dependence of that item on the prior filing of a Form 8-K. Presently, certain registrants who had no Form 8-K filing requirement at the time a change in accountants occurred are not specifically required to provide Item 304 disclosure regarding disagreements with their former accountants. Abstract: The staff is considering whether to propose an amendment to Industry Guide 3, statistical disclosure by bank holding companies. Since 1982, a number of foreign countries have restructured significant portions of their debt owed to multinational consortiums of financial institutions. These restructurings can impact individual bank holding companies differently because of the relative exposures to these foreign countries. The amendment, if proposed, would focus on uniform disclosures of the terms of the restructurings and the impact to the bank holding company. This disclosure would enhance the comparability between registrants.

10. SMALL ISSUER PERIODIC REPORTS

Legal Authority: 15 USC 77s(a) CFR Citation: Not yet determined

Abstract: The Securities Exchange Act of 1934 (the "Exchange Act") imposes periodic reporting requirements on companies subject to Sections 13(a) and 15(d) of the Exchange Act. Because these reporting requirements may not be entirely appropriate for companies of all sizes, the Commission plans to review the Exchange Act reporting system as it pertains to small businesses, with a view toward relieving certain small businesses from some of the requirements therein. The

Commission has not yet determined the alternatives available or the costs of revising these requirements.

CFR Citation: 17 CFR Not yet determined

Abstract: Currently, there are no disclosure requirements specially tailored for issuers of partnership interests. Thus, they currently must refer to requirements which have been designed for use by corporations. Special disclosure requirements have developed as a matter of administrative practice. These requirements differ depending upon the type of partnership interest involved. This project will involve development of uniform disclosure requirements for all varieties of partnership offerings, with a focus on those characteristics common to all or most limited partnerships, such as tax implications. It also will involve codification of informal practices and streamlining of registration to the extent appropriate. These efforts are expected to facilitate the preparation of registration statements concerning such interests and to improve the disclosure provided to investors.

Abstract: The Securities Act of 1933 ("Securities Act") requires securities to be registered with the Securities and Exchange Commission ("SEC") prior to an offer or sale unless an appropriate exemption from registration exists. Section 3(b) and 4(2) of the Securities Act provide for exemption from registration and Regulation D was promulgated thereunder. Regulation D requires the filing of a Form D 15 days after the first sale pursuant to the Regulation D exemption. The Commission plans to revise Form D to eliminate certain information currently required by the Form and to clarify other questions therein in order to minimize the filing burdens on issuers using the Regulation. Abstract: The Commission intends to revise the disclosure requirements under the federal securities laws relating to registration under the Securities Act of 1933 of securities to be offered to employees of an issuer pursuant to certain plans. Such registration currently is made on Form S-8 (17 CFR 239.16b). The Commission has found that the extensive disclosures required under Form S-8 are burdensome to issuers and may not produce benefits to employees, who already have access to much of the required information under ERISA and reports under the Securities Exchange Act of 1934. The Commission is developing proposals in this area and considering alternative approaches to the problem of reducing burdens while ensuring the availability of sufficient information to employees.

In the context of this rulemaking, Form S-8 will be fully reviewed for purposes of the Regulatory Flexibility Act.

Abstract: As part of its review of proxy rules, regulations, and schedules, the Commission intends to revise the disclosure requirements under the federal securities laws relating to mergers, acquisitions, and other business combinations, focusing primarily on Form S-14 (17 CFR 239.23). Form S-14 is used for the registration of securities in business combination transactions under Rule 145 (17 CFR 230.145). The Commission has found that in many cases the sheer volume of disclosure in connection with mergers, acquisitions and other business combinations tends to be confusing to security holders and burdensome for registrants to prepare. The Commission intends to revise the existing disclosure requirements of Form S-14 to provide streamlined, comprehensible disclosure to shareholders and to reduce compliance burdens on issuers consistent with the protection of investors. In developing proposals in this area and considering alternative approaches to the problem of reducing burdens while ensuring that sufficient information is available to security holders, the Commission will attempt to apply the techniques used in its integrated disclosure system, such as incorporation (cont)

CFR Citation: 17 CFR 240.14a-1 to 240.14a-12; 17 CFR 240.14a-101; 17 CFR 240.14a-102

Abstract: As part of its proxy review program, the Commission intends to review the rules governing proxy contests, which are contained in Regulation 14A, promulgated under Section 14(a) of the Exchange Act. Regulation 14A regulates the solicitation of proxies in regard to securities registered under Section 12 of the Exchange Act. In general, Regulation 14A specifies the information required to be disclosed to security holders to enable them to make informed decisions concerning authorization of proxies. This review focuses only on regulations concerning proxy contests. Rules 14a-3 through 14a-10 prescribe certain filing, dissemination and disclosure requirements with respect to all proxy solicitations, including proxy contests. Rule 14a-11 prescribes special requirements relating only to contested elections of directors. The number of proxy contests has risen in recent years and the rules relating to them have not been reexamined in some time. The Commission's goal in this review is to make sure that the rules pertaining to proxy contests still operate effectively in addressing this dynamic area, thus benefiting shareholders and issuers.

Abstract: Regulation 14A specifies the information required to be disclosed to security holders to enable them to make informed decisions concerning authorization of proxies. Regulation 14A consists of twelve rules and Schedules 14A and 14B. These provisions contain requirements regarding disclosures in. and dissemination and filing of, proxy solicitations with respect to a security registered pursuant to Section 12 of the Exchange Act, opposition solicitations with respect to the election of directors and annual reports to security holders accompanying or preceding a proxy solicitation with respect to a security registered pursuant to Section 12 of the Exchange Act. This regulation is being reviewed in conjunction with the Commission's examination of its proxy rules and will encompass any provisions not specifically covered in other related proxy review projects. The review will attempt to identify ineffective or outmoded rules and, as appropriate, rescind or replace such rules with alternatives designed to maximize shareholder protection while minimizing burdens on registrants.

CFR Citation: 17 CFR 240.14d-1 to 240.14d-101: 17 CFR 240.14e-1 to 240.14e-3

Abstract: The Advisory Committee on Tender Offers conducted an extensive examination of the tender offer process and other techniques for acquiring control of public companies. It recommended to the Commission legislative and regulatory changes necessary or appropriate to the current regulatory scheme. On July 8, 1983, the Committee submitted to the Commission its Report of Recommendations. Among other things. the Committee made recommendations with respect to the economic implications of tender offers and other acquisition techniques, the need for, nature and objectives of such activities and appropriate statutory and regulation modifications. The

Commission intends to promulgate proposed regulatory changes related to the recommendations of the Committee.

Abstract: The Commission will review the existing rules and reporting forms intended to implement the provisions of Section 16 of the Securities Exchange Act. Section 16 seeks to deter misuse of inside information by imposing certain periodic and transactional reporting requirements on the officers, directors and principal beneficial shareholders of companies registered under that Act as well as certain limitations on equity transactions by those persons. Over the years the Commission has adopted a number of rules and forms to clarify the applicability of Section 16's requirements to particular circumstances. The Commission will examine their current suitability in light of the purposes of the statute. The Commission also will examine the concept of beneficial ownership for purposes of Sections 13, 14 and 16 of the Securities Exchange Act. Section 13 provides notice of possible changes in control of a registrant by imposing certain reporting requirements on persons acquiring beneficial ownership

of 5% or more of a registrant's equity securities. Section 14, which regulates the proxy solicitation process, contains a (cont)

In 1978, the Commission, after a series of public hearings, adopted a definition of beneficial ownership for purposes of Section 13 and Section 14. That standard was not applied to Section 16 in view of its distinct purpose. This has resulted in some confusion as well as reporting and interpretive difficulties. The Commission will review the area to determine whether a single comprehensive definition can be adopted. The Commission believes that these actions will result in savings to persons subject to these provisions with no reduction in investor protection. This initiative is a consolidation of five projects that were previously listed separately in the October 1983 agenda.

24. TRUST INDENTURE ACT RULES

Legal Authority: 15 USC 77s

CFR Citation: 17 CFR 260

Abstract: The Trust Indenture Act and the rules promulgated thereunder are being examined comprehensively in order to update their requirements in light of current commercial and business practices. The Commission is considering both rule changes and proposed amendments to the Act itself. The primary areas of the Commission's focus are the qualifications for eligibility of, the duties imposed on and the procedures for qualification of indenture trustees.

Securities Markets and Securities Industry Rules

25. RULE 3A4-1 - ASSOCIATED PERSONS OF AN ISSUER DEEMED NOT TO BE BROKERS

Priority: Undetermined

Legal Authority: 15 USC 240.3a4-1

CFR Citation: 17 CFR 240.3a4-1

Abstract: The proposed rule would provide a non-exclusive safe harbor from liability under the broker-dealer provisions of the Securities Exchange Act of 1934 to associated persons of an issuer who participate in sales of the issuer's securities and who meet the conditions of the rule. Over the years, the question of whether a issuer's employees who participate in sales of the issuer's securities must register as brokers has generated numerous requests for interpretive advice. Rule 3a4-1 would codify past positions and provide guidance to future issuers. As an alternative, the staff could continue to provide advice on a case by case basis. Rule 3a4-1 is designed to strike a balance between the compelling need of issuers, particularly small issuers, to raise inexpensive capital and the Commission's statutory responsibility to protect investors. The rule should reduce the number of interpretive requests received by the staff with a corresponding reduction in costs to issuers of requesting such advice.

Legal Authority: 15 USC 78c(a)(12); 15 USC 78g; 15 USC 78k

CFR Citation: 17 CFR 240.3a12-9

Abstract: Proposed Rule 3a12-9 would provide an exemption from Sections 7(c) and 11(d)(1) of the Exchange Act for public offerings of direct participation interests with installment payment features. This rule is being proposed, in part, as a response to a proposal made by the National Association of Securities Dealers and has the concurrence of the staff of the Federal Reserve Board. If adopted, the rule would enhance investor protection by encouraging registration of interests in direct participation programs that are sold on an installment basis and by requiring that these programs become subject to and remain in compliance with the reporting requirements of Section 12(g) of the Exchange Act until the total purchase price of the program security is discharged.

CFR Citation: 17 CFR 240.11A-1

Abstract: In connection with the partial removal of exchange off-board trading restrictions through Rule 19c-3, the Commission has proposed a revised rule, Rule 11A-1, to address order exposure concerns. Proposed Rule 11A-1 would require exchange and over-thecounter market makers in Rule 19c-3 securities, prior to executing an order as principal, to hold the order out for 30 seconds, thereby allowing other market makers to compete for that order. Alternatively, the proposed rule would permit the market maker to compete for orders by maintaining competitive quotations in the National Association of Securities Dealers' Computer Assisted Execution System or the Cincinnati Stock Exchange's National Securities Trading System, and routing orders to those systems. The proposed rule also contains a number of specific exceptions to order exposure requirements. The Commission will consider public comment on the impact of the proposed rule on small brokerdealers in connection with its final rulemaking.

Priority: Undetermined

Legal Authority: 15 USC 780; 15 USC

CFR Citation: 17 CFR 240.15c2-4

Abstract: Rule 15c2-4 applies to bestefforts distribution of securities that are conducted on any basis where payment will no be made to the issuer until some further event or contingency occurs. It requires a broker-dealer participant either promptly to deposit investor's funds into a separate bank account, or promptly to transmit such funds to a bank escrow agent, pending the occurrence of the contingency. The purpose of the rule is to insulate offering proceeds from unlawful activities by, or the financial reverses of, the broker-dealer, pending the occurrence of the contingency. Amendments to the rule are being considered that would resolve ambiguities and to codify interpretive positions taken by the staff since the rule's adoption in 1962. An interpretive release is being considered as an alternative. Neither action would increase the costs of complying with the rule since either action would simply clarify, not change, the application of the rule. The benefits of either action would be eliminating confusion and ambiguity, more clearly defining a broker-dealer's responsibilities under the rule, and greater uniformity in industry practice.

Abstract: The proposed amendment to Rule 17Ad-5 would require registered transfer agents to respond to securityholder inquiries respecting dividend and interest claims within five business days of receipt. The registered transfer agent would not be required, however, to pay those claims within the time frame set forth in the proposed amendment. This amendment is designed to accelerate the time frame within which dividend claims are researched and settled. The proposed amendment will be evaluated in light of the relative costs and benefits to the public and the transfer agent industry.

Priority: Undetermined

Legal Authority: 15 USC 77c(a)(2); 15 USC 77s(a)

CFR Citation: 17 CFR 230.180

Abstract: Rule 180 provides an exemption from the registration requirements of the Securities Act for interests and participations issued in connection with certain qualified H.R. 10 plans. In order for interests in funding media issued to plans established by financially inexperienced employers to qualify for the rule's exemption, the rule, as adopted, requires those employers to obtain financial advice from an independent expert prior to adopting the H.R. 10 plan. Among other things, the Commission is considering proposing an amendment to Rule 180 that would codify a present "no-action" position regarding the situation where a financially unsophisticated employer has already established a plan for its employees without obtaining advice from an independent expert, and intends either to change the funding medium or add another funding medium to the choices already available to employees. The issuer of the funding medium in such a case would be in compliance with the rule if the issuer has reasonable grounds to believe and. after having made reasonable inquiry. does believe, that an independent financial expert reviewed the funding medium prior to the investment of the (cont)

Abstract: Form N-2 is the registration statement form under the Investment Company Act of 1940 and the Securities Act of 1933 for closed-end management investment companies other than small business investment companies and companies which issue periodic payment plan certificates or which are sponsors or depositors of companies issuing such certificates. Included within the registration statement are the companies' prospectuses used in offering their securities to the public. The Commission believes a simplified prospectus is necessary because current prospectuses have become too cumbersome for the average investor to understand and because current requirements result in the disclosure of much information that is not necessarily material to an investment decision. Simplification will, therefore, make disclosure easier for investors to understand and reduce the costs and burdens of of preparing and distributing prospectuses. Accordingly, the Commission is proposing a new form N-2A that most likely would be structured as a three-part form, one part of which would be a new simplified prospectus. Legal Authority: 15 USC 77g; 15 USC 77j; 15 USC 77s

Abstract: On November 9, 1984, the Commission issued a release (Investment Company Act Release No. 14230; 49 FR 45172) soliciting public comment on proposed revisions to Item 5, Management of the Fund, of Form N-1A, the registration form under the Securities Act of 1933 and the Investment Company Act of 1940 used by open-end, management investment companies other than registered separate accounts of insurance companies. The revised Item 5 would require a consolidation of all narrative information in the prospectus concerning significant expenses of the registrant and would add a tabular presentation setting forth the major types of expenses, the names of the payees, and the amount of the expense, expressed as a percentage of average net assets.

Legal Authority: 15 USC 80a-8; 15 USC 77g; 15 USC 77j

Abstract: Forms S-6 and N-8b-2 are the registration statement forms under the Securities Act of 1933 and the Investment Company Act of 1940, respectively, for unit investment trusts. Included within Form S-6 is the trust's prospectus used in offering securities to the public. A substantial amount of the

information required by Form N-8b-2 is also required by Form S-6. Consequently, one goal of the Commission with regard to simplification of registration statements for unit investment trusts is the integration of the disclosure requirements of Forms S-6 and N-8b-2. The Commission also believes that current prospectuses for unit investment trusts have become too cumbersome for the average investor to understand and that current disclosure requirements result in the dissemination of much information that is not necessarily material to an investment decision. Abstract: Rule 145 under the Securities Act of 1933 states that certain mergers and business combination transactions involve an offer or sale of securities subject to separate registration under section 5 of the Act. Transactions subject to the rule must either be registered on Form S-14 or, in the case of open-end investment companies, the registrant may register on its usual form as long as the disclosure requirements of Form S-14 are satisfied. The filing of the registration statement satisfies the requirement for filing a proxy statement and form of proxy or information statement and the transmittal of such material to security holders satisfies the requirements of the Securities Act for the furnishing of a prospectus. Included within Form S-14 is the company's prospectus used in offering the securities issued in the transaction. The disclosure required by Form S-14 results in prospectuses that are too long and complex, particularly with regard to business combination transactions that involve relatively small acquired companies. Moreover, the separate registration requirement does not permit (cont)

Abstract: In Release No. IC-14299 (January 11, 1985), the Commission proposed for public comment the withdrawal of Form N-1Q, the quarterly report form for management investment companies; Form N-27D-2, the quarterly report form for investment companies that are issuers of periodic payment plan certificates; and Rule 30b1- 2 under the Investment Company Act, which prescribes the quarterly report for wholly-owned registered investment companies. Form N-27D-2 is no longer necessary. Questions serving the same purpose as Rule 30b1-2 and the items of Form N-1 Q have been incorporated into form N-SAR in connection with adoption of the new semi-annual report for investment companies. The release also adopts Rule 27d-4(T), which suspends temporarily the obligation to file Form N-27D-2; and Rule 30b1-5 (T), which suspends temporarily the obligation to file Form N-1Q. Withdrawal of the quarterly reports was proposed to eliminate costly, burdensome, and unnecessary filing requirements.

Abstract: Absent an exception, every solicitation of a proxy, authorization or consent in respect of any security with respect to which a registered investment company is the issuer, is subject to rules adopted pursuant to the Securities Exchange Act of 1934 and the Investment Company Act of 1940 concerning solicitations of proxies. Solicitations to which the rules apply may not commence unless each person solicited is furnished or has previously been furnished with a proxy statement containing specified information prepared in accordance with certain rules and the material has been filed with the Commission. The existing proxy rules were adopted in piecemeal fashion and have been the subject of frequent changes. This has led to certain duplicative and, in certain cases, complex requirements. However, the contemplated revisions are still in the developmental stage and have not yet been formally proposed by the Commission. Thus, the extent of the revision actually proposed and the attendant reductions in costs and burdens are as yet largely unknown, but are anticipated to be significant.

Legal Authority: 15 USC 78c(b); 15 USC 78m(f); 15 USC 78(w)

CFR Citation: 17 CFR 249.325

Abstract: On December 5, 1984, The Commission proposed for public comment amendments to the instructions to Form 13F under the Securities Exchange Act of 1934. The amendments would simplify the procedures for requesting confidential treatment of certain risk arbitrage positions filed on the form, and place time limitations on confidential treatment requests for securities holdings where the holdings constitute confidential commercial information. It is estimated that the proposed amendment will reduce the time necessary to prepare Form 13F with a related confidential treatment request of open risk arbitrage positions by 75%.

Legal Authority: 15 USC 79 (I)(b)

CFR Citation: 17 CFR 250.45 (b)(6), (New)

Abstract: Section 12 (b) of the Public Utility Holding Company Act of 1935 makes it unlawful for a registered holding company or subsidiary company to lend or in any manner extend its credit to or indemnify any company in the same system in contravention of rules, regulations and orders of the Commission. Rule 45(a) provides that such extensions and indemnifications will be determined on a case by case basis pursuant to application and Commission order. Rule 45(b) grants certain limited exceptions to 45(a). Increasingly the parent company has been seeking Commission approval to act as surety guarantor or indemnifier for its subsidiaries because this avoids such subsidiaries from either having to pay to third party premiums or to pay greatly reduced premiums. A rule exempting from prior Commission approval would save the holding company system companies the filing fees and other expenses such as attorney fees. Staff time would be saved because staff would no longer have to process applications.

Legal Authority: 15 USC 79q(c) CFR Citation: 17 CFR 250.70 Abstract: Under Section 17(c) of the Public Utility Holding Company Act of 1935 officers or representatives of certain financial institutions are disqualified from serving as officers or directors of registered holding company system companies. Current Rule 70 provides certain exemptions. The registered holding companies have indicated that too many otherwise qualified persons are excluded because of Section 17(c). The rule is presently being re-evaluated to determine if it is possible to broaden the current exemptions. In dollar terms there will be no costs or benefits. In non-dollar terms, there will be a greater number of persons eligible to serve on the boards or registered holding company system companies.

CFR Citation: Not yet determined

Abstract: On December 10, 1982, the Commission issued an advance concept release (Investment Company Act Release No. 12888, (47 FR 56509)) soliciting public comment on whether the Commission should propose rules or recommend legislation which would provide for an alternative form of mutual fund governance. Specifically, this release requests comment on whether mutual funds should be exempted from shareholder voting and/or director requirements under the Investment Company Act of 1940 (the "Act") and, if so, whether conditions could be fashioned which would adequately insure against loss of investor protection. Although such changes might be effected through rulemaking, the Commission has indicated that, in its preliminary judgment, changes of this magnitude should be effected through legislative rather than administrative action. Since

the costs and benefits of providing for an alternative scheme of mutual fund governance cannot be estimated at the present time, the release solicits specific comment on the costs and benefits which would result from such changes. Extension of comment period until April 18, 1983 was announced in Investment Company Act Release No. 13012 (cont)

Abstract: The Commission is considering whether to propose a rule that would permit investment companies to acquire standby commitments solely for the purpose of facilitating portfolio liquidity and to value such commitments in a fashion consistent with their limited purpose. Such a rule would obviate the need for investment companies to file applications for exemptive relief from sections 2(a)(41) and 12(d)(3) of the Investment Company Act.

CFR Citation: 17 CFR 270.3a-4

Abstract: In Investment Company Act Release No. 11391 (October 10, 1980) [45 FR 69479) the Commission proposed for public comment Rule 3a-4, which would deem investment management services providing their clients with individualized treatment not to be investment companies for purposes of the Act. The rule provides a "safe harbor" for any investment manager providing its clients with treatment based on the needs and goals of each client. Under such circumstances, regulation of investment management services under the Act appears unnecessary. The proposed rule was intended to clarify the Commission's position on the question of "miniaccounts" by providing a safe harbor for certain investment management services and thereby provide some certainty to the public. The Commission does not expect any final action taken on the proposal to significantly affect the cost of providing investment management services. The public comment letters on the proposal have been reviewed and alternatives for final action are being formulated.

270.11a-4

Abstract: The Commission is considering whether to propose a Rule 11a-3 and a Rule 11a-4 which would exempt certain persons from the requirements of Section 11(a) of the Investment Company Act. That section generally prohibits any registered openend investment company and the principal underwriter of its shares from making an offer to a shareholder to exchange his security for another security on any basis other than the net asset values of the securities to be exchanged without approval of the Commission. Section 11(c) extends the prohibitions of Section 11(a) to offers of the securities of unit investment trusts. The Commission has issued numerous orders permitting open-end management companies and the principal underwriter(s) of their shares to make exchange offers on the basis of the relative net asset value of the securities being exchanged plus a sales load equal to the difference between the sales load which would otherwise be charged on the securities to be acquired and on the securities to be exchanged. The Commission has also issued orders permitting unit investment trusts and their sponsors to make offers of exchange based on the relative net asset (cont)

The proposed rules would contain several conditions to assure the protection of investors. Priority: Undetermined

Legal Authority: 15 USC 80a-6(c): 15 USC 80a-17(g); 15 USC 80a-37(a)

CFR Citation: 17 CFR 270,17g-1

Abstract: The Commission is considering whether to adopt an amendment to Rule 17g-1 under the Investment Company Act. The amendment was proposed for public comment in Investment Company Act Release No. 11193 (June 2, 1980) (45 FR 38407). Rule 17g-1 requires every registered investment company to provide and maintain a bond against larceny and embezzlement covering officers and employees of the company. In some circumstances, the officers and employees of a company's depositor, trustee, investment adviser or other manager and various affiliates of such persons, because they have access to the company's assets, function as officers and employees of the investment company. The proposed amendment to the rule would clarify the scope of the rule by explicitly requiring the bonding of such persons. The principal cost associated with this rule would be the cost of a bond. That cost would vary according to the persons required to be bonded by the rule. In this regard, before adopting any amendment to the rule, the Commission will carefully consider what persons should be bonded to protect investors adequately, weighing the benefits of the protection against the cost of a bond.

Legal Authority: 15 USC 80a-17(j); 15 USC 80a-37(a)

CFR Citation: 17 CFR 270.17j-1

Abstract: Rule 17j-1 requires every access person of a registered investment company, or of an investment adviser of or principal underwriter for the investment company to report to the investment company certain of his securities transactions. The Commission is considering whether to propose an amendment to this rule which would reduce the reporting requirement for investment company directors who are interested persons with respect to the investment company by reason of their affiliation with a registered brokerdealer. Members of the industry have characterized these reporting requirements as unnecessarily burdensome in some instances. Any such rule amendment would have the effect of lessening the reporting requirements currently imposed by the rule. As a result, the staff believes that the costs, which should be insignificant, of complying with any amendment would be significantly less than the benefits it would provide. The staff is concurrently reviewing similar reporting requirements for investment advisers under Rule 204-2(a)(12) and (13) under the Investment Advisers Act, in order to (cont)

Abstract: On November 21, 1984, The Commission proposed for comment an amendment to Rule 22c-1(b) and a new Rule 22e-2 under the Investment Company Act of 1940. The amendment to Rule 22c-1(b) would require investment companies subject to its provisions to compute the current net asset value of their redeemable securities at least every weekday (Monday through Friday) except for: (i) days which are customary United States business holidays that are stated in the prospectus, (ii) days on which no security is tendered for redemption and no customer order is received, or (iii) days when the degree of trading in the investment company's portfolio securities is such that the current net asset value of the investment company's redeemable securities will not be affected by changes in the value of the portfolio securities. New Rule 22e-2 would make it clear that an investment company would not be required to price redemption requests on days on which pricing would not be required under Rule 22c-1.

Priority: Undetermined

Legal Authority: 15 USC 806-6a

Abstract: Section 205 prohibits, with certain limited exceptions registered investment advisers from being compensated on a basis of a share of capital gains upon, or capital appreciation of, the kinds or any portion of the funds of a client. The Commission will consider whether to propose for comment a rule under Section 205 of the Advisers Act which would allow investment advisers to receive performance-based advisory fees under certain circumstances. The effect of a rule, if adopted, would be to allow advisers greater flexibility in striking their compensation arrangements than is now permitted. The staff is of the opinion that the benefits of complying with the proposed rule would far outweigh the costs and believes the costs, if any, associated with compliance would be insignificant.

it unlawful for any investment adviser, by use of the mail or any means or instrumentality of interstate commerce, directly or indirectly, knowingly to effect a securities transaction (a) with a client while acting as principal or (b) for a client while acting as broker for a person other than such client, without disclosing in writing to such client before the completion of the transaction the capacity on which he is acting and obtaining the consent of the client to the transaction. The Commission is considering whether to propose a rule that would provide a nonexclusive method for compliance with the provisions of Section 206(3) of the Investment Advisers Act of 1940 in connection with purchases of securities from an underwriting syndicate for an advisory client under specified conditions. Because the proposed rule is still in the developmental stages, its potential effect on small entities and its potential costs and benefits as a whole are unknown at this time.

Legal Authority: 15 USC 80b-3; 15 USC 80b-4; 15 USC 80b-11(a)

CFR Citation: 17 CFR 279.1

Abstract: The Commission and The North American Securities Administrators Association (NASAA) are working on developing a uniform registration system for investment advisers to be used by the Commission and those states which require advisers to register such. NASAA and members of the Commission staff have undertaken to develop uniform requirements for the filing of adviser forms, amendments and annual reports and a uniform approach to a "brochure" rule governing the kinds of disclosure advisers must make to clients and prospective clients. It is expected that a uniform registration form, based on the

Commission's Form ADV, will be presented to the NASAA membership for adoption in April 1985 and that, if adopted, it will be considered by the Commission in mid-1985. Because the form, if adopted, would provide greater uniformity in the registration process, it is expected to relieve investment advisers of significant burdens and costs. However, the extent to which a uniform Form ADV would provide cost savings and relieve burdensome requirements is unknown at this time.

Rule 10b-16 is the Commission's response to an instruction from Congress to develop, to the extent practicable, rules implementing the policies of the Truthin-Lending Act. The Rule deals with disclosure of both interest charges and collateral requirements. The Rule requires specific disclosure in the case of changes in the rate of interest which a broker- dealer may put into effect without notice to the customer. If the rate of interest is subject to change without notice, the broker must specify the particular conditions under which it may be changes. The provision is aimed at the general practice in the industry under which interest rates changes on margin accounts change with shifts in call money rates. The broker must also describe any other credit changes that may be imposed, the method of determining them, and must disclose its requirements with respect to additional collateral.

The rule (1) defines the terms "option" and "underlying security" and (2) provides an exemption from the registration provisions of Section 12(a) of the Act for securities that underlie options where: (i) the option itself is registered on a national securities exchange, (ii) the only

Abstract: Rule 12f-1 under the Securities Exchange Act of 1934 ("Act") which was originally adopted by the Commission in 1934 pursuant to Section 12(f) and 23(a) of the Act sets forth the information which an exchange must include in an application for unlisted trading privileges. An application must provide the name of the issuer, the title of the security, the names of any national securities exchange, if any, on which the security is listed or admitted to unlisted trading privileges, whether transaction information concerning the security is reported in the consolidated transaction reporting system, and any other pertinent information. This information is designed to enable the Commission to make findings required by the Act, to grant applications for unlisted trading privileges and, to make information available to members of the public who may wish to comment on the application. Without this information collection, the Commission

would be unable to make such findings. The operational costs of processing a typical Rule 12f-1 application are approximately \$17 (based on 1/2 hour of staff time valued at \$25 per hour with related overhead at 35% of the value of (cont)

Abstract: Rule 12f-2 under the Securities Exchange Act of 1934 ("Act") was originally adopted in 1934 pursuant to Sections 12(f) and 23(a) of the Act. Rule 12f-2 requires that a national securities exchange report certain changes in a security admitted to unlisted trading privileges on such exchange. In general, the national security exchange would do so by filing Form 27 (17 CFR 249.27) which would provide the Commission with the name of the exchange filing the notice, the name of the issuer, a description of the security, and a brief summary of the changes effected in the security. The notices provided by Rule 12f-2 and Form 27 are designed to provide the Commission with information which is consistent with the maintenance of fair and orderly markets and the protection of investors, and generally to update

the Commission's records regarding such security. We estimate the operational costs of a typical application to amount to approximately \$17 (based on 1/2 hour of staff time valued at \$25 per hour with related overhead at 35% of staff time). Because the limited information required by the form is readily available, we estimate the cost of completing Form 27 to be (cont)

Abstract: Rule 12f-3 ("rule") addresses the problem of how the termination or suspension of unlisted trading privileges in a particular security traded on a national securities exchange may be initiated by the parties involved. The rule provides that: (1) the issuer of the security, a broker-dealer creating or making a market in the security, or other interested person may file an application for termination or suspension of unlisted trading privileges together with certain information about the applicant, the issuer, and the security; and (2) the national securities exchange on which the security is traded may in accordance with its rules terminate or suspend the security and must promptly file a Form 28 (17 CFR 249.28) notifying the Commission of such action. Abstract: Rule 12f-4 ("rule") addresses the problem of subjecting securities admitted to unlisted trading privileges on a national securities exchange to the filing requirements of Section 13, 14, and 16 of the Securities Exchange Act of 1934 ("Act"). The rule exempts any security admitted to unlisted trading privileges on a national securities exchange from the filing requirements of Section 13, 14, and 16 of the Act unless: (1) the security or another security of the same issuer is listed and registered on a national securities exchange or registered under Section 12(g)(1) of the Act or (2) the issuer is subject to the filing requirements of Section 15(d) of the Act. Priority: Undetermined

Legal Authority: 15 USC 78q2-1 CFR Citation: 17 CFR 240.17Ab2-1

Abstract: Rule 17Ab2-1 requires applications for registration or exemption as a clearing agency as defined in Section 3(a)(23), or related amendments, to be filed on Form CA-1. If such an application was filed by November 24, 1975, the rule provided that the applicant is exempt from the requirements of Rule 17A(b) for described activities until the Commission grants or denies registration, or exempts the applicant. The rule also authorizes the Commission to register an applicant but exempt it from one or more requirements of Section 17A(b)(3)(A)-(I) for up to eighteen months. However, within nine months of such registration, the Commission must either fully register the applicant without exemption or institute proceedings to determine whether to deny registration. The rule also provides that filing an amendment extends the Commission's period for action by ninety days. In addition, if information contained in Form CA-1 Items 1-3 becomes

inaccurate, incomplete or misleading, the clearing agency must correct the information promptly. Finally, applications, as well as amendments and related documents, constitute "reports" or "applications" within the meaning of Section 17.17A.19.or (cont)

CFR Citation: 17 CFR 240.19c-1

Abstract: Rule 19c-1 ("rule") under the Securities Exchange Act of 1934 requires that a member of a national security exchange be permitted to effect over-the-counter agency transactions in securities listed or admitted to unlisted trading privileges on such an exchange with any other person not also represented as agent by that member (excluding only in-house agency cross transactions). The purpose of this rule is to provide certain persons, including third market brokers such as Instinet, a fair opportunity to compete. No other alternatives are being considered.
